Russian Gives Eerie Description of Flight

Space Lead Reds' for Some Time: Kennedy

Is Hopeful U. S. Will Show Gains

Rules Out Move To Oust Castro

By MARVIN L. ARROWSMITH

WASHINGTON (AP) — President Kennedy says the Soviet Union will remain ahead of the United States for some time in the space race—that "the news will be worse before it is better."

But he said he is hopeful that the United States will be first in other scientific achievements of much greater benefit to mankind than the spectacular Soviet feat of firing a man around the globe and bringing him safely back to earth.

No Sign of Weakness

And while Kennedy credits the Soviets with "a most impressive scientific accomplishment," he does not regard it as any sign of "weakening of the Free World" in the struggle against communism.

But in setting forth these views at a news conference Wednesday, the President did sound a note of warning.

He said: "I do regard the total mobilization of men and things for the service of the Communist bloc over the last years as a source of great danger to us. And I would say we are going to have to live with that danger through most of the rest of this century."

This ninth Kennedy news conference as President drew 426 newsmen — eight more than the previous record set at his first on Jan. 25. His face was a study in solemn seriousness as he dealt at length with the space situation, saying "we are behind;" as he pledged that under no circumstances will U.S. armed forces be engaged in any move to overthrow Cuba's Fidel Castro regime; as he stopped just short of calling Castro a Communist; as he said that under present circumstances the United States continues to oppose admittance of Red China to the United Nations.

Hopeful of Laos Reply

He also said he is hopeful that the Soviet Union will reply this week to the British proposal—backed by the United States—for a quick cease-fire in Communist-menaced Laos.

And he voiced hope, too, that an upturn in the national economy will provide new jobs for several thousand civilians employed at about 50 military installations to be shut down.

Just before his news conference Kennedy sent Soviet Premier Khrushchev a congratulatory cable on the man-in-space victory.

"It is my sincere desire," Kennedy told the Kremlin leader, "that in the continuing quest for knowledge of outer space our nations can work together to obtain the greatest benefit to mankind."

Praises Red Astronaut

At the session with newsmen the President also extended congratulations to the young Soviet astronaut who rode the space vehicle around the world and back to the Soviet Union.

In reply to a question about the significance of the Soviet achievement, Kennedy said the United States has expected all along that the Soviets would win the spaceman race.

This was clearly indicated, the President added, because the Soviet Union has developed mightier booster rockets than the United States has. But he said the United States hopes "to make progress in this area this year."

A reporter told the President that a member of Congress had said he is tired of seeing the United States second to the Soviet Union in the space field.

"Well," Kennedy replied, "the

Msgr. D. J. Shea Will Be At St. Mary's on Sunday

The Rt. Rev. Msgr. Daniel J. Shea, who recently was appointed pastor of St. Mary's Church and dean of Ulster County, will assume his new duties here Sunday.

Msgr. Shea served as pastor of St. Augustine's Church, Highland for the past four years. Prior to his assignment at Highland, he served at Immaculate Conception Church, New York City, St. Charles Borromeo, Dover Plains, Our Lady of Mt. Carmel, Elmsford and St. Raymond's Church, the Bronx for 22 years.

Msgr. Shea succeeds the late Msgr. Martin J. Drury, who was pastor of St. Mary's Church for 22 years.

The appointment of Msgr. Shea was among those of three new deans and eight pastors in the Archdiocese of New York announced today by Cardinal Spellman.

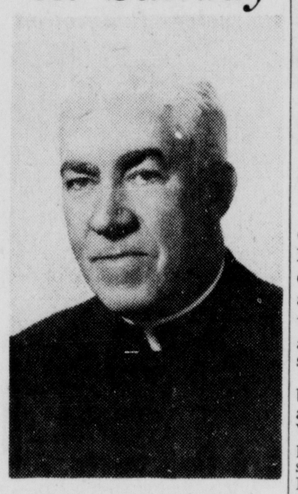

The Rev. Thomas P. Cahill, pastor of the Church of St. Ann, Sawkill, has been assigned as pastor of St. Augustine's Church, Highland.

The Rt. Rev. Msgr. George F. Brennan, pastor of the Church of St. Peter, Liberty, has been appointed dean of the clergy of Sullivan County.

The late Msgr. Drury had been dean of Ulster and Sullivan Counties.

Other archdiocesan appointments announced today are:

The Rt. Rev. Msgr. James P. Kelly, pastor of the Church of the Sacred Heart, Suffern, appointed dean of the clergy of Rockland County.

MSGR. DANIEL J. SHEA

The Rt. Rev. Msgr. John J. Corrigan, P.A., from pastor of the Church of St. Raymond, Bronx, to pastor of the Church of Our Lady of Mercy, Port Chester.

7th Name Filed for School Job

Mrs. Clair Once Served on Board

The name of a seventh candidate for election to the Kingston Board of Education (Consolidated) was made known today and it was also announced that three public meetings have been arranged for them to attend and speak.

Mrs. Ruth Clair of 71 Chambers Street filed her petition as an independent candidate Wednesday previous to the 4 p. m. deadline at the office of the secretary of the school board, Dr. Earl F. Soper, superintendent of schools.

She is a teacher at West Hurley School, a former member of Kingston High School faculty, and served on the board of education prior to consolidation. Her petition contained 159 names. The specified number is 100.

Election May 2

The public meetings arranged by the Kingston Parent-Teacher Association Council were announced by the president, Mrs. Thomas Maines, to hear candidates prior to the Tuesday, May 2, election. Saturday is the last for voter registration from 10 a. m. to 7 p. m. at the Kingston Municipal Auditorium. Persons registered for the last general election do not have to sign.

The first meeting will be held at the Port Ewen School at 8 p. m. Monday, April 17.

The second will be at 8 p. m. Monday, April 24, at George Washington School.

The third will be at 8 p. m. Thursday, April 27, at Lake Katrine School.

Mrs. Maines said that each candidate will be invited to present a statement from five to seven minutes in length. A question and answer period will follow.

The P-TA units of each of the three schools where the meetings are being held will supply moderators for the panel.

Six Other Candidates

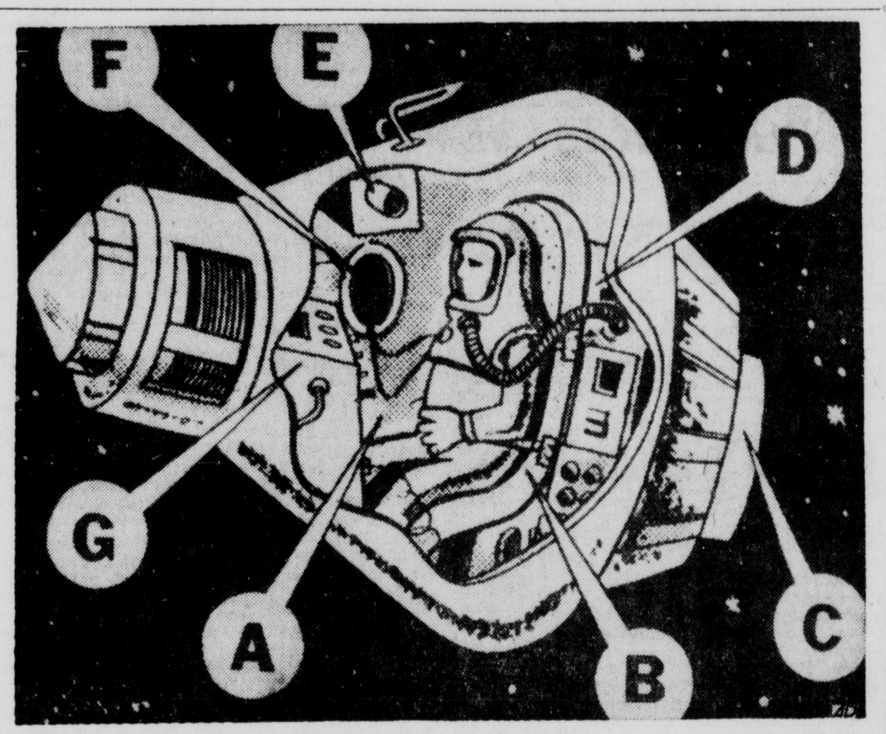

The six candidates for the board announced before Mrs. Clair filed her petition are:

Mrs. Edith Case Murphy of 255 Pearl Street, who has announced her retirement as head of the mathematics department

Ate, Drank As Objects Sailed By

Khrush May Be At Hero Welcome

MOSCOW (AP)—Maj. Yuri A. Gagarin said today he worked on his notes, and even ate and drank while objects were floating around in the realm of weightlessness as he orbited the earth, the Soviet News agency Tass reported.

The Soviet astronaut, Tass said, described the eerie situation in the space ship when weightlessness took over.

Work All the Way

The entire flight, he asserted, was work all the way and particularly in that phase.

Even so, he said, he felt excellent during that period of his 108-minute flight.

As he waited in the Soviet interior for a hero's welcome in Moscow Friday, the 27-year-old astronaut told for the first time about his experiences as his five-ton space ship hurtled around the earth. Premier Khrushchev is expected to cut short his vacation at the Black Sea resort of Sochi to head the welcoming committee when Gagarin arrives in Moscow about noon.

Easier When Weightless

When he became weightless, Gagarin said, it became easier to do everyting.

"This is quite natural," he commented. "One's legs, arms weigh nothing, objects float in the cabin. Neither did I myself sit in the chair as I did before that, but hung in midair. While in the state of weightlessness, I ate and drank and everything occurred just as it does here on earth.

"I even worked in that condition, wrote, jotting down my observations. My handwriting did not change although the hand does not weigh anything. Only I had to hold the notebook, otherwise it would float away. I maintained communications over different channels and tapped the telegraph key."

Gagarin said he learned first hand that weightlessness does not deprive a man of an ability to work, Tass reported.

"The transition from weightlessness to gravitation," he said ,"to the appearance of the force of gravity, is smooth. One's legs and arms feel as before, as during weightlessness, but again acquire weight. And I am no longer hovered over the chair but eased myself into it."

Did Not See Moon

As to what he saw from space Tass said Gagarin reported:

"I did not see the moon. The sun in outer space is tens of times brighter than here on earth. The stars are visible very well. They are bright and distinct. The entire picture of the firmanent is much more contrasty than when seen from the earth."

Gagarin said the sunlit side of the earth was quite plain and he could see easily the shores of continents, islands, great rivers, folds of the terrain, large bodies of water, Tass said.

Flying over the Soviet Union, he reported he could see the great squares of the collective farms and could even tell cultivated from meadow land.

No Mere Passenger

Emphasizing he was no mere passenger as his space ship circle the earth at a maximum altitude of 188 miles, Gagarin told Tass:

"I was entirely concentrated on carrying out the flight's program. I wanted to carry out every point of the assignment and to do it as well as possible. There was a lot of work. The entire flight meant work."

While the space ship was under ground control for the landing, Gagarin helped with the control phases, Soviet scientists said when the historic flight was announced Wednesday.

The hero of the Soviet Union has been promised a tremendous reception by Khrushchev.

"We shall celebrate with you with all our people, this great feat in the conquest of outer space," the premier told Gagarin by telephone.

Millions Expected

Banners were going up in Red Square, the show case for the biggest Soviet celebrations. Tall, silver-colored flag poles were in place. Crowd barriers were being put up.

Millions from this capital and the suburbs will pour out to line the route from the airport to Red Square.

As he awaited his flight by jet liner to Moscow, the man few in the Soviet Union knew before Wednesday's dramatic announcement was the toast of the nation.

Eichmann Trial in Recess

Israel Honors Victims Of World War 2 Nazism

JERUSALEM (AP) — Adolf Eichmann, on trial in Jerusalem for complicity in the death of six million Jews, remained in his barred cell today while Israel honored the memory of the Nazis' Jewish victims with nationwide rites.

The day was set aside as "Martyrs' and Heroes' Memorial Day."

To Resume on Legality

The observance brought a day's recess in the proceedings against Eichmann. When the trial resumes Friday, the opposing attorneys are to complete their arguments over the legality of the trial and Israel's right to bring Eichmann before an Israeli court.

Israel charges that Eichmann during World War II was the operational director of a Nazi plan known as "The Final Solution of the Jewish Problem" — total extermination of the 11 million Jews in Europe.

The legal argument developed soon after the trial opened Tuesday, with Eichmann's chief counsel, Dr. Robert Servatius of West Germany, contending that Israel has no right to try Eichmann, that the 1950 law under which he is charged cannot apply because it was promulgated after the alleged offenses and that Eichmann was only a tool of his Nazi masters.

To Sum Up Friday

Israeli Attorney General Gideon Hausner has spent more than three trial sessions in argument against Servatius' contentions. He told the court he would need another hour Friday to sum up. Servatius said his counter-argument would take another half hour.

Meanwhile, the nation paused to commemorate the Jews who died during the war.

Atop a wind-swept hill three miles outside this city a monument to the dead was solemnly dedicated in a ceremony climax-

Supervisors May Consider Office Building Tonight

The question of a $1,500,000 bond issue to finance construction of a new Ulster County office building may face the Board of Supervisors tonight.

A resolution has been drawn and probably will be submitted by the committee on county office building, calling for a bond issue and also legislation designating the location of a proposed building. There are two sites under consideration, one on the Main Street parking lot adjacent to the present county clerk's building, and the other for an addition to the existing court house on a portion of the John Street parking area.

A building on the court house site it is believed could be erected at a saving of approximately $250,000 over the Main Street site. This would leave the area at Main and Fair Streets, currently occupied by the county clerk's office, motor vehicle office and the old frame welfare building, available for other purposes.

All Agree

At the last meeting of the building committee which includes Republican Supervisors Jesse McHugh, Robert F. Phinney, Peter Williams, Charles Relyea, Benjamin Storms and Democratic Supervisors John J. Gaffney and George Mollenhauer, the proposition for a county building was agreed upon by all members of the committee.

However, in order to float a

Trio Held For Theft At Laundry

Trapped in Block By Local Police

Three Schenectady men arrested by Kingston police in a roadblock early this morning and charged with burglary, third degree, involving the theft of approximately $30 in coins from a Saugerties laundromat, waived examination at a preliminary hearing and were committed to Ulster County jail pending grand jury action.

Arraigned before Saugerties Village Police Justice G. Thomas Rea Jr., this morning were:

Harvey Griffin, 26; Richard Chandler, 24; and William Bradley, 23.

The three were caught at Albany Avenue interchange by one of three roadblocks set up following an alert from Saugerties Police Department.

$208 on Rear Seat

Although only approximately $30 was reported taken in a coin box ripped from the wall of the Saugerties Laundromat at Partition and West Bridge Streets, a total of $208 in coins was found on the back seat of the 1957 sedan the men were driving, Saugerties Chief Arthur H. Richter reported. He said police are checking further to determine the origin of the remainder of the money.

Patrolman Gordon Keeley said at 3:10 a. m. a truck driver reported that burglars were using a crowbar to break into a coin machine at the laundromat. When Keeley arrived at the

Worry, Confusion Shown In Poll on Space Flight

By THE ASSOCIATED PRESS

Joe Smith, average American, is both worried and confused about the Soviet announcement that they orbited a man around the earth.

This was the reaction reported in a nationwide poll by 11 newspapers to find out what the man in the street thinks of the Soviet space achievement.

In each city reporters called Joe Smiths, picked at random from the telephone directory.

The poll was conducted in Miami, Detroit, Akron, Charlotte, Denver, Dallas, Minneapolis, Los Angeles, Oklahoma City and Washington, D.C.

He'd Send Them All

Joe Smith, 72, retired tool and die maker in Detroit, said, "They can put all the Russians into space as far as I'm concerned. We can still take care of ourselves, don't worry."

Joe J. Smith, 23, of Charlotte, N.C., said, "I just wish we had done it first. Maybe we're not spending enough money to perfect it right."

Miamian Joe W. Smith, 68, a retired World War I veteran, called it "a bunch of Russian Lies." He said "I think it's propaganda to break us down, but they won't break down (President) Kennedy. Flying in space is against God's wishes."

Hard to Believe

"If it is true that Russia brought the man back and he's well, then it's a great achievement," said Joe C. Smith, 55, rubber plant worker in Akron, Ohio. "But it's hard to believe what the Russians say."

"I doubt that they did it," said Joe Smith, 61, draftsman for the U.S. Bureau of Reclamation in Denver.

"I think it's a pretty great feat myself," said Joe Smith, 47, Dallas electrician. "The flight shows a lot of skill on the part of the Russians and I believe it is the

Bridge Is Planned To Replace One On Chapel Street

Plans for widening the Chapel Street bridge roadway at Wilbur Avenue were discussed, bids for new equipment for the Board of Public Works were opened and recorded, and a labor foreman for the department was appointed, at Tuesday night's meeting of the Board held in the office of Mayor Edwin F. Radel.

The mayor recommended that drawings and estimates for the demolition of portions of the existing bridge structure crossing Chapel Street at Wilbur Avenue be submitted to general contractors for bids on the project to be started this summer.

In a letter to the Board members, the mayor said the bridge project has been under study for some time since communications from residents and Alderman William Davis of the Thirteenth Ward noted that large vehicles, especially fire apparatus experienced difficulty in crossing the span because of the narrow condition.

There's Fear, Doubt, Hope and Despair

People of Non-Communist World Shaken by Soviet Space Victory

LONDON (AP)—"It won't buy me no more frijoles," said the taxi driver in Mexico City.

But from London to Hong Kong to South America, men and women of the non-Communist world were shaken by the Soviet Union's successful launching of history's first man in space—shaken by exhilaration or fear, disappointment or doubt, hope or despair.

Most viewed the Soviet achievement as a tremendous victory over the United States.

"We are doomed," exclaimed a Chinese elevator operator in Hong Kong. "Comes the next war, we will all be wiped out. The trouble with Americans is they talk too much and do practically nothing."

Considers World Growth

But to Giovanni Batista Cardinal Montini, Roman Catholic archbishop of Milan, Soviet man's conquest of space meant "the stature of man is growing. The contemplation of the universe is growing. The hopes of the world are growing."

A young Swedish couple about to be married, Per Grogren and Christina Lindqvist, said excitedly, "Maybe our children will go to the moon for their honeymoon. But for us it will have to be Germany."

Walter Huber, a Viennese printer sounded a theme heard over and again in the Western world—"It's thrilling news to me, but a big disappointment that the Communists are there first and so far ahead of the West."

Fears for Berlin

Michael Gapimski, 22, commercial artist whose studio in Berlin is inside the Communist ring, said: "As a Berliner, in the center of the cold war, I can only fear an intensification of the rivalry between the United States and Russia. This is a knock at American prestige and will probably encourage the Russians to be even more adventurous in their foreign policy. And that could lead to trouble for us here in Berlin."

And in West Germany, a refugee from an East European country now ruled by the Communists, commented: "The Russians should pay a little more attention to things on earth rather than worrying about space."

Comment in London

"I was shocked," said London cab driver Dennis W. McCann, 28. But Mary Kinsey, 23, London schoolteacher, said: "I wasn't really surprised but all the same I was excited and fascinated."

American humorist James Thurber, 66, in London to put on a play, ran his fingers through his grey hair and said he felt very low.

"Man is very trange," said the blind author and artist. "Why are we knocking ourselves out to

Lions Show Draws Record 2-Night Total of 4,973

The Kingston Lions Club Industrial Exposition and Home Show, the most colorful and diversified of all its presentations, continues to attract and please a record attendance.

Wednesday night's attendance of 2,072 brought the total for the two nights to a new record in the 14-year history of the Exposition. The total for the first two nights was 4,973.

The Exposition will continue nightly through Saturday from 7 to 10:30 at the State Armory on Manor Avenue. This year's theme is "Gracious Living, Indoors and Out."

Two major candidates are selected each night for a total of 10 candidates. Each of these persons is eligible for one of the three major awards consisting of a $500 bond, a $250 bond and a $125 bond. All three will be announced Saturday evening. Candidates selected Tuesday were John R. Celuch of Kingston and Gerald W. Nichols of Ulster. Candidates selected Wednesday were Louise Nozecky of Saugerties and Reuben Shultis of Woodstock. The $25 nightly award on Tuesday went to Diane Lyn Hotaling of Kingston.

Special attractions Wednesday included the following:

Israel Honors Victims Of World War 2 Nazism

JERUSALEM (AP) — Adolf Eichmann, on trial in Jerusalem for complicity in the death of six million Jews, remained in his barred cell today while Israel honored the memory of the Nazis' Jewish victims with nationwide rites.

The day was set aside as "Martyrs' and Heroes' Memorial Day."

To Resume on Legality

The observance brought a day's recess in the proceedings against Eichmann. When the trial resumes Friday, the opposing attorneys are to complete their arguments over the legality of the trial and Israel's right to bring Eichmann before an Israeli court.

Israel charges that Eichmann during World War II was the operational director of a Nazi plan known as "The Final Solution of the Jewish Problem" — total extermination of the 11 million Jews in Europe.

The legal argument developed soon after the trial opened Tuesday, with Eichmann's chief counsel, Dr. Robert Servatius of West Germany, contending that Israel has no right to try Eichmann, that the 1950 law under which he is charged cannot apply because it was promulgated after the alleged offenses and that Eichmann was only a tool of his Nazi masters.

To Sum Up Friday

Israeli Attorney General Gideon Hausner has spent more than three trial sessions in argument against Servatius' contentions. He told the court he would need another hour Friday to sum up. Servatius said his counter-argument would take another half hour.

Meanwhile, the nation paused to commemorate the Jews who died during the war.

Atop a wind-swept hill three miles outside this city a monument to the dead was solemnly dedicated in a ceremony climax-

Supervisors May Consider Office Building Tonight

The question of a $1,500,000 bond issue to finance construction of a new Ulster County office building may face the Board of Supervisors tonight.

A resolution has been drawn and probably will be submitted by the committee on county office building, calling for a bond issue and also legislation designating the location of a proposed building. There are two sites under consideration, one on the Main Street parking lot adjacent to the present county clerk's building, and the other for an addition to the existing court house on a portion of the John Street parking area.

A building on the court house site it is believed could be erected at a saving of approximately $250,000 over the Main Street site. This would leave the area at Main and Fair Streets, currently occupied by the county clerk's office, motor vehicle office and the old frame welfare building, available for other purposes.

All Agree

At the last meeting of the building committee which includes Republican Supervisors Jesse McHugh, Robert F. Phinney, Peter Williams, Charles Relyea, Benjamin Storms and Democratic Supervisors John J. Gaffney and George Mollenhauer, the proposition for a county building was agreed upon by all members of the committee.

However, in order to float a

Trio Held For Theft At Laundry

Trapped in Block By Local Police

Three Schenectady men arrested by Kingston police in a roadblock early this morning and charged with burglary, third degree, involving the theft of approximately $30 in coins from a Saugerties laundromat, waived examination at a preliminary hearing and were committed to Ulster County jail pending grand jury action.

Arraigned before Saugerties Village Police Justice G. Thomas Rea Jr., this morning were:

Harvey Griffin, 26; Richard Chandler, 24; and William Bradley, 23.

The three were caught at Albany Avenue interchange by one of three roadblocks set up following an alert from Saugerties Police Department.

$208 on Rear Seat

Although only approximately $30 was reported taken in a coin box ripped from the wall of the Saugerties Laundromat at Partition and West Bridge Streets, a total of $208 in coins was found on the back seat of the 1957 sedan the men were driving, Saugerties Chief Arthur H. Richter reported. He said police are checking further to determine the origin of the remainder of the money.

Patrolman Gordon Keeley said at 3:10 a. m. a truck driver reported that burglars were using a crowbar to break into a coin machine at the laundromat. When Keeley arrived at the

Worry, Confusion Shown In Poll on Space Flight

By THE ASSOCIATED PRESS

Joe Smith, average American, is both worried and confused about the Soviet announcement that they orbited a man around the earth.

This was the reaction reported in a nationwide poll by 11 newspapers to find out what the man in the street thinks of the Soviet space achievement.

In each city reporters called Joe Smiths, picked at random from the telephone directory.

The poll was conducted in Miami, Detroit, Akron, Charlotte, Denver, Dallas, Minneapolis, Los Angeles, Oklahoma City and Washington, D.C.

He'd Send Them All

Joe Smith, 72, retired tool and die maker in Detroit, said, "They can put all the Russians into space as far as I'm concerned. We can still take care of ourselves, don't worry."

Joe J. Smith, 23, of Charlotte, N.C., said, "I just wish we had done it first. Maybe we're not spending enough money to perfect it right."

Miamian Joe W. Smith, 68, a retired World War I veteran, called it "a bunch of Russian Lies." He said "I think it's propaganda to break us down, but they won't break down (President) Kennedy. Flying in space is against God's wishes."

Hard to Believe

"If it is true that Russia brought the man back and he's well, then it's a great achievement," said Joe C. Smith, 55, rubber plant worker in Akron, Ohio. "But it's hard to believe what the Russians say."

"I doubt that they did it," said Joe Smith, 61, draftsman for the U.S. Bureau of Reclamation in Denver.

"I think it's a pretty great feat myself," said Joe Smith, 47, Dallas electrician. "The flight shows a lot of skill on the part of the Russians and I believe it is the

Bridge Is Planned To Replace One On Chapel Street

Plans for widening the Chapel Street bridge roadway at Wilbur Avenue were discussed, bids for new equipment for the Board of Public Works were opened and recorded, and a labor foreman for the department was appointed, at Tuesday night's meeting of the Board held in the office of Mayor Edwin F. Radel.

The mayor recommended that drawings and estimates for the demolition of portions of the existing bridge structure crossing Chapel Street at Wilbur Avenue be submitted to general contractors for bids on the project to be started this summer.

In a letter to the Board members, the mayor said the bridge project has been under study for some time since communications from residents and Alderman William Davis of the Thirteenth Ward noted that large vehicles, especially fire apparatus experienced difficulty in crossing the span because of the narrow condition.

Alderman Davis, the mayor

There's Fear, Doubt, Hope and Despair

People of Non-Communist World Shaken by Soviet Space Victory

LONDON (AP)—"It won't buy me no more frijoles," said the taxi driver in Mexico City.

But from London to Hong Kong to South America, men and women of the non-Communist world were shaken by the Soviet Union's successful launching of history's first man in space—shaken by exhilaration or fear, disappointment or doubt, hope or despair.

Most viewed the Soviet achievement as a tremendous victory over the United States.

"We are doomed," exclaimed a Chinese elevator operator in Hong Kong. "Comes the next war, we will all be wiped out. The trouble with Americans is they talk too much and do practically nothing."

Considers World Growth

But to Giovanni Batista Cardinal Montini, Roman Catholic archbishop of Milan, Soviet man's conquest of space meant "the stature of man is growing. The contemplation of the universe is growing. The hopes of the world are growing."

A young Swedish couple about to be married, Per Grogren and Christina Lindqvist, said excitedly, "Maybe our children will go to the moon for their honeymoon. But for us it will have to be Germany."

Walter Huber, a Viennese printer sounded a theme heard over and again in the Western world—"It's thrilling news to me, but a big disappointment that the Communists are there first and so far ahead of the West."

Fears for Berlin

Michael Gapimski, 22, commercial artist whose studio in Berlin is inside the Communist ring, said: "As a Berliner, in the center of the cold war, I can only fear an intensification of the rivalry between the United States and Russia. This is a knock at American prestige and will probably encourage the Russians to be even more adventurous in their foreign policy. And that could lead to trouble for us here in Berlin."

And in West Germany, a refugee from an East European country now ruled by the Communists, commented: "The Russians should pay a little more attention to things on earth rather than worrying about space."

Comment in London

"I was shocked," said London cab driver Dennis W. McCann, 28. But Mary Kinsey, 23, London schoolteacher, said: "I wasn't really surprised but all the same I was excited and fascinated."

American humorist James Thurber, 66, in London to put on a play, ran his fingers through his grey hair and said he felt very low.

"Man is very trange," said the blind author and artist. "Why are we knocking ourselves out to

JOHN W. BODE

A Kingston High School graduate, John W. Bode, son of Mrs. Helen L. Bode of 46 Sterling Street, was recently promoted to the rank of corporal with the U. S. Marines at Marine Corps Supply Center, Albany, Ga. The advancement was due to meritorious service. In February Cpl. Bode was named Marine of the Month in competition with 1,300 Marines. He graduated from Kingston High in 1959 and enlisted in the Marine Corps July 1, 1959 for a four-year tour of duty. Cpl. Bode completed recruit training in October 1959 and was assigned to Albany, Ga.

First U. S. coin containing nickel was a small one-cent piece issued in 1857.

Deaths

By THE ASSOCIATED PRESS

COLUMBUS, Ga. (AP)—Cason Jewell Callaway, 66, industrialist and planter, died Wednesday after an illness of several weeks. Callaway turned over most of his fortune to a foundation named for his mother after he retired as president of the Callaway Mills in 1938.

SOUTH BEND, Ind. (AP)—The Rev. Eugene P. Burke, 77, retired professor of religion and English at the University of Notre Dame, died Wednesday after a long illness.

HONOLULU (AP) — Ingram M. Stainback, 77, governor of Hawaii from 1942-1951, died Wednesday, apparently of a heart attack. Stainback, who was born in Somerville, Tenn., and came to Hawaii in 1912.

SEBRING, Fla. (AP)—Charles H. Maston, 67, a retired executive of Socony Vacuum Oil Co., of Indiana, died Wednesday.

NEWTON ABBOT, England (AP)—Herbert Lomas, 74, veteran actor of the British stage and screen, died Tuesday of a stroke.

Glancing Over TV Bill of Fare

By CYNTHIA LOWRY
AP TV-Radio Writer

New York (AP)—"I hate applause," said comedian Jack Carter. "Not at the end, of course, but applause for jokes and bits. I want laughs—just laughs—and I'll do anything to keep the audience with me."

Carter is considered one of the brightest, most energetic men in the business. He also sings, dances, acts and is a wicked mimic.

"Every TV show is different," Carter says. "Every show has a different audience. When I'm doing a Como show, it's not a bit like a Sullivan show. With Como you know you're going to be running all through the program. You're not under pressure and you can take your time. But with Sullivan, you've got an audience geared to a vaudeville type of thing, and there isn't time to waste a single word—you've got at the outside only eight minutes and everything has to count."

Jack Paar's return Tuesday night, following an exciting White House news show and amid all the space man excitement, started with a dull thud: "I feel like a mosquito in a nudist camp," began Paar. "I don't know where to begin." And he began an extended travelogue.

Recommended tonight: 10-11 (Eastern Standard Time), "CBS Reports,"—Howard K. Smith explains the Soviet man-in-space shot; "Silents Please," ABC 10:30-11—a resume of the film career of Will Rogers.

KINGSTON, NEW YORK, APRIL 13, 1961

CHILDREN AT PLAY

Because springtime is playtime for children, motorists are urged to be extra alert when driving through residential areas and near schools and playgrounds.

Pointing out that children have an amazing capacity to concentrate, especially when they are occupied at their games, C. J. Murphy, director of the Automobile Club of New York, says this often makes them oblivious to the dangers of passing traffic.

Feeling it is the responsibilities of motorists to watch out for playing youngsters, the following rules for drivers are offered:

Slow down when driving near parks, playgrounds and in residential areas where children are likely to be playing.

Be on the look-out for such signals of possible danger in the making as a rolling ball or a toy in the roadway. It could be pursued into the street by a running child.

Always make certain a driveway is clear and the children are in a protected area before backing up.

Observe all police and traffic rules for designated play streets and areas.

Parents also have a responsibility in making certain their children have safe places to play away from moving traffic. Preschoolers should be kept under continual supervision when playing on sidewalks.

Failure of the U. S. rocket to work successfully was blamed on a faulty 10-cent part. Remember the battle lost for want of a horseshoe nail?

THE SIGNS OF SPRING

One man's intimation of spring, that sign above all others makes the heart leap with joy, may not so much as lift another man's eyebrow. In this matter, as in others, there are preferences. There is no accounting for them.

The changing hue of willows, that magical transformation from the fullness of winter to a wonderful pale yellow-green, may seem to one person the very essence of spring, whereas another may scarcely notice it. Although the robin and the turtle dove are widely regarded as harbingers of spring, in some circles the season cannot properly begin until boys have been seen flying kites and playing marbles.

THE STAGNATING CITIES

Americans who do not live in one of the nation's giant cities are inclined to suppose that big city problems are no concern of theirs. This is only partly true. For if the trend toward more and more concentration in huge urban areas continues, as there are good reasons to think it will, city problems will inevitably affect more and more Americans. This will include even those who live in smaller communities and go to the big town only occasionally.

It is important, then, that the cities should be vital and functional. If vigorous effort is not made to get them that way and keep them that way, they will be in danger of stagnating.

This process of stagnation already has begun in many cities. Prosperous business and shopping districts are running down; people are turning more and more to the suburbs, not for residential purposes alone, but also as business areas. The task of revamping rundown urban districts is, as an architect recently put it, neither easy nor impossible. The job can be done. But it will require imagination and steady purpose as well as hard work.

SHORT-CUT SOLUTIONS

One of the current angers of our people is the income tax, which unquestionably takes too much of each individual's earnings. Only the very rich and the well serviced by lawyers and accountants can afford to engage in what are called tax-avoidances. However, everybody tries to chisel, which has the moral effect of making us a nation of thieves.

What precisely is to be done about it? We spend $45,000,000,000 on war alone; we spend about $5,000,000,000 a year on veterans pensions, hospitalization and other welfare costs; we have an interest charge of about $9,000,000,000 a year. Then there are all the other costs of government. It has been suggested that we drop the income tax and try some other form of taxation. But who is in favor of dropping the costs of government that he wants supported? For instance, the Department of Defense is abolishing obsolete air fields. Don't abolish anything in my district, no matter how useless!

Now along come those who call our monetary system "a swindle." For instance, a correspondent in the State of Washington has this to say:

". . . I am having a hard time trying to convince our intellectual ignoramuses how dangerous they are to our free institutions which they so vociferously pretend to be for. The Communists do not have to do very much to undermine any nation's economy which is based upon the swindling nature of its money system. . . ."

In the first place, the public and private debt are different. Much of the private debt in this country has to do with instalment buying which is a method of paying for a commodity while using it. For instance, a man buys a car on time. He uses that car while he is paying for it. If he had to postpone buying the car until he had the cash in his pocket, he might not have the use of that car for 18 months or two years. In a word, instalment buying is an ingenious device which makes it possible to live on a higher standard of life, perhaps on annual income while being paid weekly. It also creates more work, stimulates manufacturing and sales. Homes purchased on mortgages are economically sounder than paying rent. The mortgage is, of course, a debt but translate it into rent and the end result is that the home is owned whereas after paying rent, one still has nothing of his own.

These kinds of debts are very different from the public debt. Public debt involves the sale of bonds by the government to pay expenses which cannot be met by taxes. Our enormous current debt of about $286,000,000,000 is a product of five specific episodes; World War I, the Depression of 1929 to 1938, World War II, the Korean War and the Cold War.

It is possible to argue that all these events were historical errors. The wars, however, did occur and cost lives and money. The expended lives are buried and we shed a tear over them. The cost of the money continues on.

It is possible to reduce the debt by an automatic device; that is, to devalue the dollar; to make it worth say 10 cents. By that means we make the bonds worth one tenth of the value we paid for them. This has been done by governments in history. We used to have a currency that was "not worth a continental." I wonder if our friend in Washington would like the United States to print so much paper money that our dollar is worth 10 cents or nothing. We could pay off our debt overnight by this means.

Or there is a simpler way: Congress can pass an act repudiating the debt. We owe nothing to anybody in any form of currency. Those who bought the bonds can go chase themselves. Foreigners and foreign banks that hold United States securities could then go into bankruptcy and our friend in the State of Washington could shout, "Three Cheers!"

No! No economic short-cuts are possible. We have assumed these obligations for our own national purposes and the people elected members of Congress, who, in a republican system of government, voted in favor of the various steps taken. How would our correspondent repeal World War I and World War II? How would he repeal the consequences and costs of the Great Depression? Just how does one do these things?

Immunity to Tuberculosis Easy With BCG Vaccine

By HAROLD T. HYMAN, M.D.

I have explained the meaning of tuberculin tests. In brief, the negative test simply means the absence of protective antibody, the positive test the presence of protective antibodies.

Today, I want to speak of what can be done to stimulate the manufacture of protective antibodies in the case of the negative reactor. And what can be done to protect the positive reactor whose antibody content does not seem to be sufficiently protective under existing circumstances.

Stimulation of protective antibodies in amounts sufficient to convert the negative to a positive reaction may be accomplished by injection of BCG vaccine.

BCG vaccine is a suspension of very much weakened tubercle bacilli of a strain isolated by Drs. Calmette and Guerin, after whom it is named. These bacilli are alive, just as the virus in smallpox vaccine is alive. But they, like the cowpox virus, are unable to produce human disease.

You should know, however, that years ago infections were produced by imperfectly processed vaccine, and that alarmists still refer to these unfortunate experiences today. But every batch in present use in the United States is tested and approved by our very proficient Public Health Service and, in the millions of doses thus far given, there has been no accident such as previously occurred.

BCG vaccination is simply induced by placing a drop of suspension on the skin and then making multiple perforation in the skin so that vaccine is introduced into the superficial skin layers. It is as painless as smallpox inoculation and just as safe.

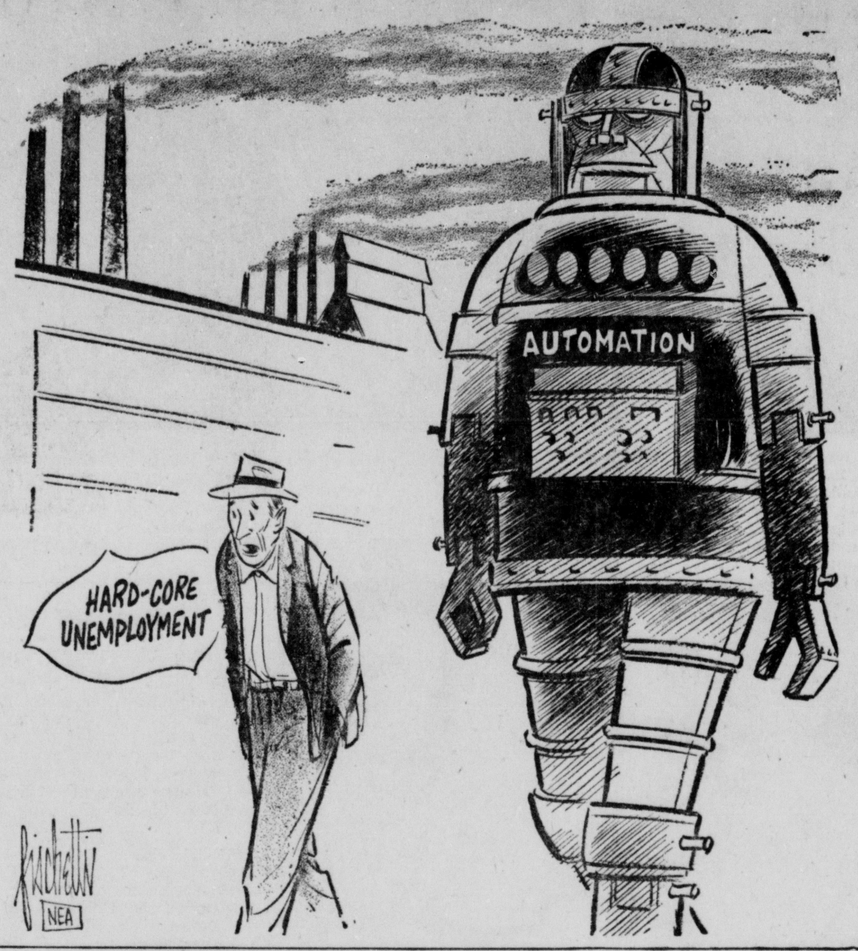

The successful BCG "take" does not appear for two to six weeks. It looks not unlike a smallpox "take" and it may be accompanied by some soreness and swelling of local lymph nodes.

After about a month, the skin test that was previously negative turns positive. And this indicates that the body has manufactured enough protective antibody to guard against most invasions by tubercule bacilli.

Now in certain countries, BCG vaccination is compulsory. The World Health Organization has used it with great success in backward countries where tuberculosis is still the White Plague and a leading cause for invalidism and death. Fortunately, we do not require compulsory BCG vaccination in the United States. But, if you are apt to be heavily exposed, you may give it your consideration. And by heavy exposure, I mean those who live in congested areas or barracks, those who live in a home with someone who has or has had a tuberculous infection, those who come from families known to be susceptible to tuberculosis and those who are occupationally exposed, like nurses, doctors, dentists, laboratory technicians and hospital workers or volunteers.

Now, of course, you will realize that there's no sense giving BCG vaccine to positive reactors who already have circulating antibody. However, in the rare instance of the person whose negative reaction is being converted to a positive by BCG vaccine and who may need protection until antibodies form, an antituberculous drug, (tuberculocide) can be given in tablet form. And these same tablets can be given the positive reactor whose antibodies may need a bit of an assist in the battle against invading bacilli.

WASHINGTON — (NEA) — Before relaxing too much over the prospects from a British-Russian-arranged cease-fire and peace conference on Laos, it might be advisable to recall some of the background as set down in military records here.

On Aug. 7, 1960, when most of the officials of the royal Laotian government were absent from the city arranging for the funeral of the late King Sisavang Vong, a smart young paratroop captain named Kong Le led his company into the administrative capital city of Vientianne, and took over.

KONG LE HAD BEEN TRAINED by the French and Americans and had shown a high degree of military aptitude. What was not realized at the time was that he had also been trained by the Communists.

Kong Le had a tank driven up to the building in which the legislative caucus was meeting. A gun muzzle was forced into the room. And Kong Le, came down from his balcony seat to demand that Prince Souvanna Phouma be made premier of a new, neutralist government.

In 1957 and '58 the United States had also backed his Souvanna Phouma as premier in the hope he could run a stable government. His principal actions were forcing out the old International Control Commission and arranging for the incorporation of the Communist Pathet Lao forces into the Royal Laotian army.

Actually, only one battalion of Pathet Lao joined up. The other marched across the border into Communist North Vietnam. It was trained there under Souvanna Phouma's half brother, Prince Souvanouphong, for all the trouble it's now causing. Kong Le immediately invited them to come back to Laos to support him.

After the new king, Sri Savang Vatthana, had approved Souvanna Phouma's reappointment as premier in 1960, his first act was to establish diplomatic relations with Moscow. Then he invited the Russians to ship in food and gasoline.

THIS WAS THE START of the Russian airlift of arms from Hanoi, in northern Viet Nam, into Laos, for the support of Kong Le and the Pathet Lao Communist forces.

This is when artillery was introduced into the Laotian fighting. Previously, it had been just small arms guerrilla fighting.

Some of the Russian transports were observed to have the same numbers as planes that carried arms to support the late Patrice Lumumba in the Congo.

Souvanna Phouma's "neutralist" government lasted from August to December. Then he was driven out of the capital by Laotian loyalist forces under Brig. Gen. Phoumi Nosavan, the defense minister, who was known to be anti-Communist and pro-Western. He was supported by French and American military missions.

The Russian airlift then began in earnest. Since last December it has flown 10 to 15 missions a day in all kinds of weather. It has recently carried Pathet Lao paratroopers deep into Laotian territory for operations that will give the Communist forces a maximum hold on the country before the ceasefire can be arranged and the 14-nation peace conference can be convened in Cambodia. This is an old Communist trick.

There are now cadres of Communist North Viet Nam veterans in every unit of Pathet Lao, to lead it and stiffen it. This is one reason given for their recent successes. They now hold nearly all of the central territory up to the ancient capital of Luang Prabang. And they will be hard to get out, no matter what kind of a peace settlement is made.

SINCE LEAVING LAOS, Souvanna Phouma has visited India, where he won the backing of Prime Minister Nehru. He has been well received in Paris, and in London he was urged to return to his country and work for a broadly based neutralist government.

As this is written, Souvanna Phouma is headed for Moscow. The Russians recognize him as head of the Laotian government, though he hasn't been home for over three months.

If he is now airlifted by the Russians back ito Laos to become head of another neutralist government, the above background may give some idea of what it will be like.

Propriety of Sponsored TV For Kennedy Is Questioned

By DAVID LAWRENCE

WASHINGTON, Apr. 12 — President Kennedy did Tuesday night on a television network what no other President of the United States has ever done—he participated in a program whose commercial sponsor urged the American people to buy its products. The cost of the time used was not contributed by the television company, but was paid for by a toothpaste manufacturer.

Many observers feel that the dignity of the Presidency was impaired when Mr. Kennedy appeared in the role of a television performer in a pre-recorded and rehearsed program.

Five times the hour-long show was interrupted for commercial advertising of a toothpaste and, in the final section of the film, the President's picture was repeatedly used as a background for the presentation of the names of those who edited and produced the show—the television personnel of the program itself.

It will be argued that newspapers and other publications carry advertising matter alongside Presidential pronouncements, but, in rebuttal, it must be said that no story of White House news is interrupted in the middle of a news column while the reader is told in the same column about the merits of a particular toothpaste.

Effect of a TV Show

The show had to be rehearsed and pre-recorded two weeks ago. The President sat at the table in the Cabinet room of the White House with a pile of photographs before him. As he held them up for the viewer to see, the broadcasting company flashed them in full length on the screen. Mr. Kennedy then discussed each of his Presidential assistants and also described the operations of his Cabinet. So the whole effect was that of a television show.

Up to now, a President's appearances on television have been confined to the showing of his unrehearsed press conferences or his public addresses or of pictures of spontaneous news events in which he happens to be participating. There has been a tacit understanding with the broadcasting companies that Presidential press conferences would not be commercially sponsored. No prearranged show has ever been put on with a President in the manner of the Tuesday night performance.

One wonders whether the other toothpaste companies are going to have the opportunity to put on a television show in which the vast audience collected for a Presidential appearance will be made available to them to sell their wares.

President Did Well

Actually, the President did a good job, and the television ratings on his performance should be high. Indeed, he acted his dramatic role well, and so did Mrs. Kennedy, who followed him in the closing fifteen minutes of the same program. In fact, it can be said that Mrs. Kennedy, with her calm and restrained manner, was the hit of the show.

Plainly a President and his wife have every right to appear on television or to contribute articles to printed publications, selecting those they want to favor with exclusive stories. It may sometimes be unwise politically to do so, but there's no practical argument against playing favorites, especially if it wins a plug needed perhaps for the next election. Thus, the National Broadcasting Company commentator who narrated the program spoke of the reverses as well as the successes of the President in his first eighty-two days, but did insert a very nice plug for the Kennedy Administration when he said:

"If you had to sum up in one word the general reaction to President Kennedy, it would have to be favorable. You could not say that Mr. Kennedy has electrified the country, but the public, from available evidence, approves of what he is doing, and appears to believe that, so far at least, he has been calm, competent and serious."

No Compensation

There was, to be sure, no financial compensation to President Kennedy in connection with the TV program. But would it be proper for a President to accept compensation and donate it to charity? It will be recalled that Congressional hearings in 1937 revealed that Mrs. Franklin D. Roosevelt, while in the White House, had made a contract in 1935 for ten radio broadcasts for a total of approximately $30,000, which she had designated should go as contributions to charity. At first, the Treasury did not consider these payments to be taxable to her, but in 1942 ruled that they should be included in her personal income, subject to deductions for charitable contributions within the legally specified limits.

Back in the spring of 1933, the late Louis Howe, private secretary and press-relations officer at the White House — in fact, the righthand man of the late President Franklin D. Roosevelt— appeared on a commecially-sponsored radio program every Sunday night. It was said at the time that he received $1,500 weekly for his talks. The commercial sponsor was a public utility and oil company. It is estimated that Mr. Howe was paid a total of around $30,000 that year for his radio talks.

The basic question, of course, is whether a President or other high officials—whose salaries are paid by the taxpayers of the United States—should allow the prestige of their respective positions to be used to advertise any commercial product, even though they themselves receive no remuneration and do not accept any compensation whatsoever.

AS PEGLER SEES IT

By WESTBROOK PEGLER

A political vapor called the John Birch Society is being had up for ruin by ridicule at the hands of those who bait Red-baiters. The opposition arises as usual in New York and Washington. The chief criticism lies against Robert Welch, of Boston, who impugned the patriotism of General Eisenhower and Chief Justice Earl Warren but who hedged when accused. The political gravity of such a comment on these two is exaggerated by the clamor against Welch and the society. The very Constitution of the United States, far from precluding as unthinkable the proposition that a president, ex-president or chief justice could be guilty of impeachable misconduct, did contemplate that possibility in Article II, Section 4, as follows:

"The president, vice president and all civil officers shall be removed on impeachment and conviction of treason, bribery or other high crimes and misdemeanors."

The founding fathers knew men.

The common political literature of the last campaign included one routine book which contained an emphatic implication, if not, indeed, in a lawyer's judgment, a flat charge, that both Ike and Warren made a deal that planted Warren on the bench as chief. The truth of the transaction by which Warren got the job with the highest pay of his life, for the rest of his life, plus a legal but undeserved pension of $16,000 a year from the state of California as an ex-governor, is not adjudicated here. It might be good for our morals and our understanding to clarify for history the facts of that business and remind every individual in the nation that presidents and all members of the court are still accountable under law for aberrations away from the code laid down to control the administration of their jobs.

It would be fair to examine Warren's attitude toward money in his personal affairs all the way from his first political position. He frequently disclosed shrewd, practical and, you may say, admirable sense. He couldn't afford to accept the job of vice president at the going pay the first time the nomination was available to him because he had a large family of daughters who were just entering the most expensive age of daughters. We had no honest way to sweeten the pot and Warren backed off until four years later when he may have been just as glad he lost as sorry he didn't win. The pay still was insufficient.

Eisenhower was one of the worst presidents we ever had. It was clear to anyone who ever shot golf or pined for the leisure to play while Ike was idling his days away, that he was neglecting the job he was paid to do. The skulduggery in the 1952 convention in Chicago was, Ike could not plead stupidity as an excuse for this deal.

The John Birch Society's interest runs to communism in the United States. Ike's most emphatic action was favorable to this evil for all he really did was exclude Joe and Jeannie McCarthy from two of his boresome pours for members of Congress at the White House. The snub was uncouth, personal and an affront to the many Americans who had a better opinion of McCarthy than of Ike.

The furor over the John Birch Society arose from the showing across the nation of an anti-Communist film based on the Red riot in the San Francisco City Hall which disrupted a session of the House Committee on Un-American Activities. Congress itself was sitting in that city hall at the time in the person of that committee and the Communist commotion was just as offensive to Congress as though it had occurred on Capitol Hill. Yet the rioters, not the committe nor Congress, have received the toleration and mitigation. And the committee has been vilified with familiar formulated Red propaganda.

Birch was a hero of the OSS who died bravely at Chinese Communist hands in China ten days after V-J Day. General Claire Chennault acclaimed him in his biography, "Way of a Fighter," and yet, after all these years, Birch's name is fouled with scurrilities by individuals who claimed that he had died not as a brave patriot but as a brash fourflusher.

The heat and vigor of the campaign tempt me to study the society's program. Maybe that's for me.

CHILDREN AT PLAY

Because springtime is playtime for children, motorists are urged to be extra alert when driving through residential areas and near schools and playgrounds.

Pointing out that children have an amazing capacity to concentrate, especially when they are occupied at their games, C. J. Murphy, director of the Automobile Club of New York, says this often makes them oblivious to the dangers of passing traffic.

Feeling it is the responsibilities of motorists to watch out for playing youngsters, the following rules for drivers are offered:

Slow down when driving near parks, playgrounds and in residential areas where children are likely to be playing.

Be on the look-out for such signals of possible danger in the making as a rolling ball or a toy in the roadway. It could be pursued into the street by a running child.

Always make certain a driveway is clear and the children are in a protected area before backing up.

Observe all police and traffic rules for designated play streets and areas.

Parents also have a responsibility in making certain their children have safe places to play away from moving traffic. Preschoolers should be kept under continual supervision when playing on sidewalks.

Failure of the U. S. rocket to work successfully was blamed on a faulty 10-cent part. Remember the battle lost for want of a horseshoe nail?

THE SIGNS OF SPRING

One man's intimation of spring, that sign above all others makes the heart leap with joy, may not so much as lift another man's eyebrow. In this matter, as in others, there are preferences. There is no accounting for them.

The changing hue of willows, that magical transformation from the fullness of winter to a wonderful pale yellow-green, may seem to one person the very essence of spring, whereas another may scarcely notice it. Although the robin and the turtle dove are widely regarded as harbingers of spring, in some circles the season cannot properly begin until boys have been seen flying kites and playing marbles.

One of our favorite signs has been the return of golfers to the local links after the long winter. The news that they have teed off may make some of the softies shiver, but it touches off the vernal vibrations as few other things do. For us, anyway. Every man to his own intimations of spring.

Now in certain countries, BCG vaccination is compulsory. The World Health Organization has used it with great success in backward countries where tuberculosis is still the White Plague and a leading cause for invalidism and death. Fortunately, we do not require compulsory BCG vaccination in the United States. But, if you are apt to be heavily exposed, you may give it your consideration. And by heavy exposure, I mean those who live in congested areas or barracks, those who live in a home with someone who has or has had a tuberculous infection, those who come from families known to be susceptible to tuberculosis and those who are occupationally exposed, like nurses, doctors, dentists, laboratory technicians and hospital workers or volunteers.

Now, of course, you will realize that there's no sense giving BCG vaccine to positive reactors who already have circulating antibody. However, in the rare instance of the person whose negative reaction is being converted to a positive by BCG vaccine and who may need protection until antibodies form, an antituberculous drug (tuberculocide) can be given in tablet form. And these same tablets can be given the positive reactor whose antibodies may need a bit of an assist in the battle against invading bacilli.

WASHINGTON — (NEA) — Before relaxing too much over the prospects from a British-Russian-arranged cease-fire and peace conference on Laos, it might be advisable to recall some of the background as set down in military records here.

On Aug. 7, 1960, when most of the officials of the royal Laotian government were absent from the city arranging for the funeral of the late King Sisavang Vong, a smart young paratroop captain named Kong Le led his company into the administrative capital city of Vientianne, and took over.

KONG LE HAD BEEN TRAINED by the French and Americans and had shown a high degree of military aptitude. What was not realized at the time was that he had also been trained by the Communists.

Kong Le had a tank driven up to the building in which the legislative caucus was meeting. A gun muzzle was forced into the room. And Kong Le, came down from his balcony seat to demand that Prince Souvanna Phouma be made premier of a new, neutralist government.

In 1957 and '58 the United States had also backed his Souvanna Phouma as premier in the hope he could run a stable government. His principal actions were forcing out the old International Control Commission and arranging for the incorporation of the Communist Pathet Lao forces into the Royal Laotian army.

Actually, only one battalion of Pathet Lao joined up. The other marched across the border into Communist North Vietnam. It was trained there under Souvanna Phouma's half brother, Prince Souvanouphong, for all the trouble it's now causing. Kong Le immediately invited them to come back to Laos to support him.

After the new king, Sri Savang Vatthana, had approved Souvanna Phouma's reappointment as premier in 1960, his first act was to establish diplomatic relations with Moscow. Then he invited the Russians to ship in food and gasoline.

THIS WAS THE START of the Russian airlift of arms from Hanoi, in northern Viet Nam, into Laos, for the support of Kong Le and the Pathet Lao Communist forces.

This is when artillery was introduced into the Laotian fighting. Previously, it had been just small arms guerrilla fighting.

Some of the Russian transports were observed to have the same numbers as planes that carried arms to support the late Patrice Lumumba in the Congo.

Souvanna Phouma's "neutralist" government lasted from August to December. Then he was driven out of the capital by Laotian loyalist forces under Brig. Gen. Phoumi Nosavan, the defense minister, who was known to be anti-Communist and pro-Western. He was supported by French and American military missions.

The Russian airlift then began in earnest. Since last December it has flown 10 to 15 missions a day in all kinds of weather. It has recently carried Pathet Lao paratroopers deep into Laotian territory for operations that will give the Communist forces a maximum hold on the country before the cease-fire can be arranged and the 14-nation peace conference can be convened in Cambodia. This is an old Communist trick.

There are now cadres of Communist North Viet Nam veterans in every unit of Pathet Lao, to lead it and stiffen it. This is one reason given for their recent successes. They now hold nearly all of the central territory up to the ancient capital of Luang Prabang. And they will be hard to get out, no matter what kind of a peace settlement is made.

SINCE LEAVING LAOS, Souvanna Phouma has visited India, where he won the backing of Prime Minister Nehru. He has been well received in Paris, and in London he was urged to return to his country and work for a broadly based neutralist government.

As this is written, Souvanna Phouma is headed for Moscow. The Russians recognize him as head of the Laotian government, though he hasn't been home for over three months.

If he is now airlifted by the Russians back ito Laos to become head of another neutralist government, the above background may give some idea of what it will be like.

Propriety of Sponsored TV For Kennedy Is Questioned

By DAVID LAWRENCE

WASHINGTON, Apr. 12 — President Kennedy did Tuesday night on a television network what no other President of the United States has ever done—he participated in a program whose commercial sponsor urged the American people to buy its products. The cost of the time used was not contributed by the television company, but was paid for by a toothpaste manufacturer.

Many observers feel that the dignity of the Presidency was impaired when Mr. Kennedy appeared in the role of a television performer in a pre-recorded and rehearsed program.

Five times the hour-long show was interrupted for commercial advertising of a toothpaste and, in the final section of the film, the President's picture was repeatedly used as a background for the presentation of the names of those who edited and produced the show—the television personnel of the program itself.

It will be argued that newspapers and other publications carry advertising matter alongside Presidential pronouncements, but, in rebuttal, it must be said that no story of White House news is interrupted in the middle of a news column while the reader is told in the same column about the merits of a particular toothpaste.

Effect of a TV Show

The show had to be rehearsed and pre-recorded two weeks ago. The President sat at the table in the Cabinet room of the White House with a pile of photographs before him. As he held them up for the viewer to see, the broadcasting company flashed them in full length on the screen. Mr. Kennedy then discussed each of his Presidential assistants and also described the operations of his Cabinet. So the whole effect was that of a television show.

Up to now, a President's appearances on television have been confined to the showing of his unrehearsed press conferences or his public addresses or of pictures of spontaneous news events in which he happens to be participating. There has been a tacit understanding with the broadcasting companies that Presidential press conferences would not be commercially sponsored. No prearranged show has ever been put on with a President in the manner of the Tuesday night performance.

One wonders whether the other toothpaste companies are going to have the opportunity to put on a television show in which the vast audience collected for a Presidential appearance will be made available to them to sell their wares.

President Did Well

Actually, the President did a good job, and the television ratings on his performance should be high. Indeed, he acted his dramatic role well, and so did Mrs. Kennedy, who followed him in the closing fifteen minutes of the same program. In fact, it can be said that Mrs. Kennedy, with her calm and restrained manner, was the hit of the show.

Plainly a President and his wife have every right to appear on television or to contribute articles to printed publications, selecting those they want to favor with exclusive stories. It may sometimes be unwise politically to do so, but there's no practical argument against playing favorites, especially if it wins a plug needed perhaps for the next election. Thus, the National Broadcasting Company commentator who narrated the program spoke of the reverses as well as the successes of the President in his first eighty-two days, but did insert a very nice plug for the Kennedy Administration when he said:

"If you had to sum up in one word the general reaction to President Kennedy, it would have to be favorable. You could not say that Mr. Kennedy has electrified the country, but the public, from available evidence, approves of what he is doing, and appears to believe that, so far at least, he has been calm, competent and serious."

No Compensation

There was, to be sure, no financial compensation to President Kennedy in connection with the TV program. But would it be proper for a President to accept compensation and donate it to charity? It will be recalled that Congressional hearings in 1937 revealed that Mrs. Franklin D. Roosevelt, while in the White House, had made a contract in 1935 for ten radio broadcasts for a total of approximately $30,000, which she had designated should go as contributions to charity. At first, the Treasury did not consider these payments to be taxable to her, but in 1942 ruled that they should be included in her personal income, subject to deductions for charitable contributions within the legally specified limits.

Back in the spring of 1933, the late Louis Howe, private secretary and press-relations officer at the White House—in fact, the righthand man of the late President Franklin D. Roosevelt— appeared on a commecially-sponsored radio program every Sunday night. It was said at the time that he received $1,500 weekly for his talks. The commercial sponsor was a public utility and oil company. It is estimated that Mr. Howe was paid a total of around $30,000 that year for his radio talks.

The basic question, of course, is whether a President or other high officials—whose salaries are paid by the taxpayers of the United States—should allow the prestige of their respective positions to be used to advertise any commercial product, even though they themselves receive no remuneration and do not accept any compensation whatsoever.

AS PEGLER SEES IT

By WESTBROOK PEGLER

A political vapor called the John Birch Society is being had up for ruin by ridicule at the hands of those who bait Red-baiters. The opposition arises as usual in New York and Washington. The chief criticism lies against Robert Welch, of Boston, who impugned the patriotism of General Eisenhower and Chief Justice Earl Warren but who hedged when accused. The political gravity of such a comment on these two is exaggerated by the clamor against Welch and the society. The very Constitution of the United States, far from precluding as unthinkable the proposition that a president, ex-president or chief justice could be guilty of impeachable misconduct, did contemplate that possibility in Article II, Section 4, as follows:

"The president, vice president and all civil officers shall be removed on impeachment and conviction of treason, bribery or other high crimes and misdemeanors."

The founding fathers knew men.

The common political literature of the last campaign included one routine book which contained an emphatic implication, if not, indeed, in a lawyer's judgment, a flat charge, that both Ike and Warren made a deal that planted Warren on the bench as chief. The truth of the transaction by which Warren got the job with the highest pay of his life, for the rest of his life, plus a legal but undeserved pension of $16,000 a year from the state of California as an ex-governor, is not adjudicated here. It might be good for our morals and our understanding to clarify for history the facts of that business and remind every individual in the nation that presidents and all members of the court are still accountable under law for aberrations away from the code laid down to control the administration of their jobs.

It would be fair to examine Warren's attitude toward money in his personal affairs all the way from his first political position. He frequently disclosed shrewd, practical and, you may say, admirable sense. He couldn't afford to accept the job of vice president at the going pay the first time the nomination was available to him because he had a large family of daughters who were just entering the most expensive age of daughters. We had no honest way to sweeten the pot and Warren backed off until four years later when he may have been just as glad he lost as sorry he didn't win. The pay still was insufficient.

Eisenhower was one of the worst presidents we ever had. It was clear to anyone who ever shot golf or pined for the leisure to play while Ike was idling his days away, that he was neglecting the job he was paid to do. The skulduggery in the 1952 convention in Chicago was, Ike could not plead stupidity as an excuse for this deal.

The John Birch Society's interest runs to communism in the United States. Ike's most emphatic action was favorable to this evil for all he really did was exclude Joe and Jeannie McCarthy from two of his boresome pours for members of Congress at the White House. The snub was uncouth, personal and an affront to the many Americans who had a better opinion of McCarthy than of Ike.

The furor over the John Birch Society arose from the showing across the nation of an anti-Communist film based on the Red riot in the San Francisco City Hall which disrupted a session of the House Committee on Un-American Activities. Congress itself was sitting in that city hall at the time in the person of that committee and the Communist commotion was just as offensive to Congress as though it had occurred on Capitol Hill. Yet the rioters, not the committe nor Congress, have received the toleration and mitigation. And the committee has been vilified with familiar formulated Red propaganda.

Birch was a hero of the OSS who died bravely at Chinese Communist hands in China ten days after V-J Day. General Claire Chennault acclaimed him in his biography, "Way of a Fighter," and yet, after all these years, Birch's name is fouled with scurrilities by individuals who claimed that he had died not as a brash fourflusher.

The heat and vigor of the campaign tempt me to study the society's program. Maybe that's for me.

Appeal for Teachers' Home Directed by Earl F. Soper

DR. EARL F. SOPER

Dr. Earl F. Soper, superintendent of schools here, has been named regional chairman for the statewide Teachers Home Fund Appeal. Dr. Soper's area of representation will embrace 21 counties in eastern New York from Westchester County to the Adirondacks and westward to the Mohawk Valley.

The drive, which has the endorsement of the New York State Teachers Association and the Retired Teachers Association, will raise $750,000 to establish resident facilities for retired teachers in the state of New York. Plans call for the home to be located at DeWitt near Syracuse. It is anticipated that this structure will be one of several to be erected.

Details of the home and its operation will be outlined at a series of statewide meetings now being scheduled. The campaign will run through the spring and end just before the close of the current school year.

A former teacher and principal, Soper has been head of the Kingston Schools since 1955. He is a member of such educational organizations as the New York State Teachers Association, National Education Association, American Association of School Administrators, and Council of City and Village Superintendents. Dr. Soper is active in Kiwanis, Congress of Parents and Teachers, and Mid-Hudson School Study Council. He is a director of his area Cerebral Palsy unit and local YMCA.

"Indications are that eastern New York will participate actively in this Home Fund drive," Dr. Soper said. "Teachers, principals, and other school personnel of the Hudson Valley and nearby areas will want to have a direct hand in providing for the future. There is no doubt that our people in this part of the state will give their support generously."

Senate Opens Debate On Minimum Pay Bill

WASHINGTON (AP)—The Senate opens debate on President Kennedy's minimum wage bill today with Democratic leaders reasonably confident they can beat back any major amendments.

Senate Democratic Leader Mike Mansfield of Montana called his colleagues in an hour early to begin consideration of the measure —one of the major items on the administration's 1961 congressional priority list.

Mansfield planned an even earlier session Friday and reiterated hope the bill could be passed by Friday night. Republican leaders said they were agreeable but some strong foes of the measure declared they were not.

Administration lieutenants said they had a good chance to get the bill through in the form desired by Kennedy and thus reverse a licking which the administration took in the house last month.

It will be up to a Senate-House conference to write the final form of the legislation.

The administration's bill as sent to the floor by the Senate Labor Committee calls for a $1.25 minimum wage by 1963, as compared with the present $1.

It also would bring an additional 4 million workers under the wages and hours act, the first extension of coverage since the law first was passed in 1938. The principal new coverage would be in employes of large retail stores and service establishments and in construction.

The House bill, written by a Republican-Southern Democratic coalition, would raise the wage floor to $1.15 and cover an extra 1.2 million workers, all in chain stores.

Jet Pilots Finish 30-Day 'Dry Run'

SAN ANTONIO, Tex. (AP) — Two Air Force jet pilots finished a 30-day simulated space flight today, to learn that a Soviet flier had made an actual trip into space.

Capt. Ramon C. Horinek, 28, of Atwood, Kan., and Lt. Eugene R. Carlson, 27, of Fargo, N.D., emerged pale and a few pounds lighter than when they entered simulated space ship.

They stepped from an 8-by-12-foot steel tank at Brooks Air Force Base at 6:30 a.m. to greetings from their wives, both expectant mothers. Newsmen and Aerospace Medical Center personnel also were present.

The fliers and officials in charge of the experiment pronounced it a success.

Carlson said news of the Soviet space achievement came as a considerable surprise.

"I hope one of these days we'll be there," he said. "Our hats are off to the Russians."

He said he would not be ready to undertake a real space flight "without the proper indoctrination—my fears probably would get the best of me."

Horinek learned only after emerging that his wife Mary expects their sixth child in October.

The pilots talked to newsmen and their wives and posed for pictures for 15 minutes. Then, sitting in wheel chairs, they were taken to a clinic for five days of extensive and physical and mental tests.

Tool Engineers Hear Technical Talk Wednesday

A technical lecture was delivered by Charles Walker of the Allen Bradley Milwaukee plant, Wednesday night at a meeting of the local chapter of American Society of Tool and Manufacturing Engineers at the Stuyvesant-Kingston Hotel.

His topic Controls for Automation dealt with the application of proper type switches for specific electric motors. Every motor, Mr. Walker said, has certain unsafe characteristics which must be counteracted by overload protectors, failure devices and re-sets which can be built into the switch.

Guests attending were Albert Kurdt, of the Kingston Area Chamber of Commerce who briefly mentioned his satisfaction with the work of the chapter which he says "lends tone to the community."

Also as a guest was Richard Whelan, general manager of IBM, Kingston who received an associate membership on behalf of IBM.

The butterscotch and chocolate sauces usually used for topping ice cream are also delicious served with a simple cornstarch pudding.

Senate Opens Debate On Minimum Pay Bill

WASHINGTON (AP)—The Senate opens debate on President Kennedy's minimum wage bill today with Democratic leaders reasonably confident they can beat back any major amendments.

Senate Democratic Leader Mike Mansfield of Montana called his colleagues in an hour early to begin consideration of the measure —one of the major items on the administration's 1961 congressional priority list.

Mansfield planned an even earlier session Friday and reiterated hope the bill could be passed by Friday night. Republican leaders said they were agreeable but some strong foes of the measure declared they were not.

Administration lieutenants said they had a good chance to get the bill through in the form desired by Kennedy and thus reverse a licking which the administration took in the house last month.

It will be up to a Senate-House conference to write the final form of the legislation.

The administration's bill as sent to the floor by the Senate Labor Committee calls for a $1.25 minimum wage by 1963, as compared with the present $1.

It also would bring an additional 4 million workers under the wages and hours act, the first extension of coverage since the law first was passed in 1938. The principal new coverage would be in employes of large retail stores and service establishments and in construction.

The House bill, written by a Republican-Southern Democratic coalition, would raise the wage floor to $1.15 and cover an extra 1.2 million workers, all in chain stores.

Lawyer Addresses Area Appraisers At Dinner Meeting

Henry Temes, Woodridge attorney addressed the Mid-Hudson Chapter of the Society of Residential Appraisers Wednesday night at Governor Clinton Hotel, Kingston, explaining in particular the relationship between attorneys and appraisers in highway and public utility Condemnation hearings conducted in New York State Court of Claims and before Commissioners of Appraisers.

Abe Goldstein, president of Mid-Hudson Chapter presided at the meeting following the dinner. Goldstein announced the next meeting will be held May 10, at Grossingers, Ferndale, where a 10-course dinner will be served followed by the business meeting. More information on this meeting will be announced.

Those attending were Goldstein, Alvin O. Benton Sr., Alvin Benton Jr., I. Samuel Levine, Herman A. Machson, all of Monticello; John Thoben, H. W. Glanz, Robert D. Glanz, New Paltz; A. Santogada, Karl Jurgens, Edward Skyer, Neil Callahan all of Newburgh.

Mr. and Mrs. Edward C. Macaulay of Yorktown Heights, Herbert Branch, Monticello; Sedrey W. Dromond, James E. Gardner, Poughkeepsie. Those attending from Kingston were Adele Royael, Dewey Logan, James Divine, Peter Weider, Helen Williams, Marguerite Logan, Raymond Korzendorfer, Kenneth Groat, Judge John B. Sterley, Louis DiDonna, and Vernon Murphy.

Milk Truck Damaged

A milk truck was damaged at 7 a. m. today when the brakes apparently failed and the vehicle rolled down Sycamore Street and knocked over a street sign at East Union Street.

Tyrone D. Perry, 19, of 19 Lindsley Avenue, told Police Lieutenant Charles Hoehing the truck was parked near 49 Sycamore Street when it moved and hit the sign. The right front fender of the vehicle was damaged, according to the report.

Panic Follows Quake

SAN SALVADOR, El Salvador (AP) — Hundreds of houses in this capital today showed cracks in their walls, mute testimony of Wednesday's heavy earthquake. No casualties were reported.

The shocks lasted 45 seconds, caused panic and thousands fled their homes.

Jet Pilots Finish 30-Day 'Dry Run'

SAN ANTONIO, Tex. (AP) — Two Air Force jet pilots finished a 30-day simulated space flight today, to learn that a Soviet flier had made an actual trip into space.

Capt. Ramon C. Horinek, 28, of Atwood, Kan., and Lt. Eugene R. Carlson, 27, of Fargo, N.D., emerged pale and a few pounds lighter than when they entered simulated space ship.

They stepped from an 8-by-12-foot steel tank at Brooks Air Force Base at 6:30 a.m. to greetings from their wives, both expectant mothers. Newsmen and Aerospace Medical Center personnel also were present.

The fliers and officials in charge of the experiment pronounced it a success.

Carlson said news of the Soviet space achievement came as a considerable surprise.

"I hope one of these days we'll be there," he said. "Our hats are off to the Russians."

He said he would not be ready to undertake a real space flight "without the proper indoctrination—my fears probably would get the best of me."

Horinek learned only after emerging that his wife Mary expects their sixth child in October.

The pilots talked to newsmen and their wives and posed for pictures for 15 minutes. Then, sitting in wheel chairs, they were taken to a clinic for five days of extensive and physical and mental tests.

Tool Engineers Hear Technical Talk Wednesday

A technical lecture was delivered by Charles Walker of the Allen Bradley Milwaukee plant, Wednesday night at a meeting of the local chapter of American Society of Tool and Manufacturing Engineers at the Stuyvesant-Kingston Hotel.

His topic Controls for Automation dealt with the application of proper type switches for specific electric motors. Every motor, Mr. Walker said, has certain unsafe characteristics which must be counteracted by overload protectors, failure devices and re-sets which can be built into the switch.

Guests attending were Albert Kurdt, of the Kingston Area Chamber of Commerce who briefly mentioned his satisfaction with the work of the chapter which he says "lends tone to the community."

Also as a guest was Richard Whelan, general manager of IBM, Kingston who received an associate membership on behalf of IBM.

The butterscotch and chocolate sauces usually used for topping ice cream are also delicious served with a simple cornstarch pudding.

So Close, Yet So Far

U. S. Rocket on Pad As Reds Orbit Man

CAPE CANAVERAL, Fla. (AP) —The Redstone rocket which the United States had hoped would boost the first man into space stands on a launching pad here. The Soviet Union beat its firing date by at least two weeks.

"So close, yet so far," commented a technician who is helping groom the Redstone to send one of America's astronauts on a short suborbital flight, hopefully late this month or early in May.

Gives Credit to Soviet

"If we hadn't had those troubles last fall and on the chimp and Little Joe shots this year, we might have made it," the technician said.

"But you have to give the Russian scientists credit. They've accomplished a remarkable breakthrough."

Project Mercury officials had hoped to achieve a manned Redstone flight last December or January. A series of launch mishaps necessitated additional launchings to qualify the system.

On Nov. 8, a space capsule failed to separate from a Little Joe rocket fired from Wallops Island, Va., in a test of the escape system.

Two weeks later, a Redstone fizzeld because of a faulty connection which caused the escape tower to fire, leaving the rocket and capsule on the pad. This test had to be repeated before Ham the space chimpanzee was sent up on a short trip Jan. 31.

An engine thrust regulator stuck on the chimp shot, creating excessive thrust which lofted the chimp, Ham, higher and farther than intended. Another Redstone was fired to prove out corrections made in the regulator, again delaying the manned trip.

New Try April 20

Another setback occurred March 18 when a repeat of the Little Joe escape test fizzled. Another try is set for about April 20 and must succeed before the Redstone now on the pad hurls aloft a nastronaut.

Dr. Hugh Dryden, deputy director of the National Aeronautics and Space Administration, told the House Space Committee in Washington Tuesday that the earliest possible date for the manned launching is about April 28.

Business Name

BUFFALO, N. Y. (AP) — George A. Bury has a good name for business. He is an undertaker in suburban Kenmore.

Why We Say--

THE ROCK: This Federal State prison, located in San Francisco Bay; is known affectionately by inmates as "The Rock". Alcatraz was named by the Spanish "Isla de Alcatraces" (Island of the Pelicans) because large flocks of these birds nested there ... oddly enough a different type of bird (the "Jailbird") is now there.

MODENA NEWS

MODENA — William Doolittle observed a birthday Monday, April 10, and on Sunday was honored with a surprise party at his home, by members of his family. Attending were Mr. and Mrs. Joseph Doolittle and sons, Jerry, David and Kenneth of Wallkill; Mr. and Mrs. Wilfred Doolittle and daughters Louanne, Christine and Patti of Rosendale; Mr. and Mrs. Harold West and sons, Roger and Ronald of Modena; Mr. and Mrs. Edward Burke and children, Marianne and Billy, of Poughkeepsie. Another daughter, Mrs. Frank Keeser and her family reside in El Paso, Texas.

Mr. and Mrs. Roy H. DuBois attended a birthday surprise party given their daughter, Mrs. Anthony Wild, Friday evening at her home in Montgomery, by Miss Helen Wild. On Sunday, Mr. and Mrs. Wild were dinner guests of Mr. and Mrs. DuBois.

Mr. and Mrs. Burton Ward have returned from Philadelphia, Pa.

Mrs. Anna Tonnesen was a recent visitor of Mrs. Anna L. Miller, formerly of Modena, at the Home for the Aged, Kingston.

William Doolittle, Mr. and Mrs. Harold West and sons, Roger and Ronald, were recent dinner guests of Mr. and Mrs. Edward Burke and family, in Poughkeepsie.

Mrs. Jomes E. Palen and Mrs. Harold West have been appointed to attend meetings of the advisory committee of the Wallkill Central School Board meetings, when curriculum of the school plans are made.

Mrs. Jean Kalamucki has been appointed on the advisory committee, of the Wallkill Central School Board, replacing Fred A. Fowler, whose term has expired.

Mr. and Mrs. Roy H. DuBois visited Mr. and Mrs. Arthur Seymour at Tillson Sunday evening.

Comedy Tougher

HOLLYWOOD (AP) — Glenn Ford says it's easier to do drama than comedy. "Any soap opera type of dialogue can cause a person to reach for a handful of handkerchiefs. But nothing is so unpredictable as dialogue supposed to be funny. "For no reason at all it can lay an egg as large as a medicine ball. That's why getting laughs is a serious business."

So Close, Yet So Far

U. S. Rocket on Pad As Reds Orbit Man

CAPE CANAVERAL, Fla. (AP) —The Redstone rocket which the United States had hoped would boost the first man into space stands on a launching pad here. The Soviet Union beat its firing date by at least two weeks.

"So close, yet so far," commented a technician who is helping groom the Redstone to send one of America's astronauts on a short suborbital flight, hopefully late this month or early in May.

Gives Credit to Soviet

"If we hadn't had those troubles last fall and on the chimp and Little Joe shots this year, we might have made it," the technician said.

"But you have to give the Russian scientists credit. They've accomplished a remarkable breakthrough."

Project Mercury officials had hoped to achieve a manned Redstone flight last December or January. A series of launch mishaps necessitated additional launchings to qualify the system.

On Nov. 8, a space capsule failed to separate from a Little Joe rocket fired from Wallops Island, Va., in a test of the escape system.

Two weeks later, a Redstone fizzeld because of a faulty connection which caused the escape tower to fire, leaving the rocket and capsule on the pad. This test had to be repeated before Ham the space chimpanzee was sent up on a short trip Jan. 31.

An engine thrust regulator stuck on the chimp shot, creating excessive thrust which lofted the chimp, Ham, higher and farther than intended. Another Redstone was fired to prove out corrections made in the regulator, again delaying the manned trip.

New Try April 20

Another setback occurred March 18 when a repeat of the Little Joe escape test fizzled. Another try is set for about April 20 and must succeed before the Redstone now on the pad hurls aloft a nastronaut.

Dr. Hugh Dryden, deputy director of the National Aeronautics and Space Administration, told the House Space Committee in Washington Tuesday that the earliest possible date for the manned launching is about April 28.

Business Name

BUFFALO, N. Y. (AP) — George A. Bury has a good name for business. He is an undertaker in suburban Kenmore.

Why We Say--

THE ROCK: This Federal State prison, located in San Francisco Bay; is known affectionately by inmates as "The Rock". Alcatraz was named by the Spanish "Isla de Alcatraces" (Island of the Pelicans) because large flocks of these birds nested there ... oddly enough a different type of bird (the "Jailbird") is now there.

MODENA NEWS

MODENA — William Doolittle observed a birthday Monday, April 10, and on Sunday was honored with a surprise party at his home, by members of his family. Attending were Mr. and Mrs. Joseph Doolittle and sons, Jerry, David and Kenneth of Wallkill; Mr. and Mrs. Wilfred Doolittle and daughters Louanne, Christine and Patti of Rosendale; Mr. and Mrs. Harold West and sons, Roger and Ronald of Modena; Mr. and Mrs. Edward Burke and children, Marianne and Billy, of Poughkeepsie. Another daughter, Mrs. Frank Keeser and her family reside in El Paso, Texas.

Mr. and Mrs. Roy H. DuBois attended a birthday surprise party given their daughter, Mrs. Anthony Wild, Friday evening at her home in Montgomery, by Miss Helen Wild. On Sunday, Mr. and Mrs. Wild were dinner guests of Mr. and Mrs. DuBois.

Mr. and Mrs. Burton Ward have returned from Philadelphia, Pa.

Mrs. Anna Tonnesen was a recent visitor of Mrs. Anna L. Miller, formerly of Modena, at the Home for the Aged, Kingston.

William Doolittle, Mr. and Mrs. Harold West and sons, Roger and Ronald, were recent dinner guests of Mr. and Mrs. Edward Burke and family, in Poughkeepsie.

Mrs. Jomes E. Palen and Mrs. Harold West have been appointed to attend meetings of the advisory committee of the Wallkill Central School Board meetings, when curriculum of the school plans are made.

Mrs. Jean Kalamucki has been appointed on the advisory committee, of the Wallkill Central School Board, replacing Fred A. Fowler, whose term has expired.

Mr. and Mrs. Roy H. DuBois visited Mr. and Mrs. Arthur Seymour at Tillson Sunday evening.

Comedy Tougher

HOLLYWOOD (AP) — Glenn Ford says it's easier to do drama than comedy. "Any soap opera type of dialogue can cause a person to reach for a handful of handkerchiefs. But nothing is so unpredictable as dialogue supposed to be funny. "For no reason at all it can lay an egg as large as a medicine ball. That's why getting laughs is a serious business."

Says Communists Are Moving Into Church Ministry

LOS ANGELES (AP) — Robert Welch, founder of the John Birch Society, says: "Protestant ministers do not become Communists —but Communists do become Protestant ministers."

He told a capacity audience of 6,000 at the Shrine Auditorium Tuesday night that Communists and their sympathizers are infiltrating the Protestant ministry—because it is the last place where Americans would expect to find them.

"There are about 200,000 ministers, and only about 7,000 of them could be called 'comsymps,'" he added.

"Nobody is accusing the other 97 per cent of anything except the gullibility and apathy with which Americans as a whole are afflicted."

He defined a "comsymp" as a "Communist or a sympathizer with Communist purposes."

About 35 persons picketed the auditorium, but there was no violence. The meeting was sponsored by the Freedom Club of the Los Angeles First Congregational church. The John Birch Society, which describes itself as a militantly anti-Communist organization, is named after an American intelligence officer killed by Chinese Communists 10 days after World War II ended.

Today's Business Mirror

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP) — Better times ahead are the soothing words being passed out these days at many stockholders meetings.

The annual gatherings of the owners of American businesses are in full swing. In many cases soothing words are needed.

Bitter Fights Loom

Some meetings are seeing, and more will see, bitter fights on management by dissidents who say they could do better.

Many others are hearing sobering accounts of shrinking profit margins last year. They are being warned that profit and loss statements on operations in the first three months of this year often will make a sad showing against year ago figures when corporate affairs had yet to feel the recession.

But running like a common thread through the opening speeches of many company executives to the stockholders is the assurance: The worst is over, we'll look better from now on.

Part of this optimism is based on internal housekeeping. Many companies have cut costs or modernized equipment so that plants can now operate more profitably. And many have perked up their sales departments so that outlook for orders is much better.

Much of the optimism is based on the general expectation of a pickup in business activity. Many stockholders are being told there is nowhere to go but up.

Stock market activity is drawn on heavily in these arguments as indicating there is a better tone in public opinion. And that is a prime factor in the health of most companies.

Stockholders are also being told that however they may regard the new climate in Washington, the efforts at pump priming are likely to have some effect before many more months. And the prospects of more of the same to come will affect both business and consumer planning.

And any company providing one or more of the endless products used in the many phases of national defense can at least hope for more orders.

The Soviet triumph in orbiting a man around the earth seems sure to loosen congressional pursestrings even more. The race to catch up with and surpass the Russians, when translated into dollars, means more spending — certainly not less.

Anfuso Urges Space Inquiry

WASHINGTON (AP)—Rep. Victor Anfuso, D-N.Y., a member of the House Space Committee, today called for a congressional investigation of the nation's man-in-space program.

"I want to see this country mobilized to a wartime basis "because we are at war," he said.

"I want to see schedules cut in half. I want to see what NASA says it's going to do in 10 years done in five. I want to see some first coming out of NASA such as a landing on the moon which I know can be done if we go immediately into development of a solid fuel booster."

Anfuso's statement was issued as the House Space Committee discussed the Soviet feat of sending a man around the world in 89 minutes as reported by Tass, the Soviet news agency.

Bridge Is Planned

said, requested some time ago that the Department of Public Works and the city engineer consider demolition of the bridge and construction of a wider bridge.

City Engineer Arthur F. Hallinan, at the mayor's request, submitted plans for widening the bridge, constructing a sidewalk and installation of culvert pipes to carry the flow of water in the brook.

The Board directed the city engineer to complete specifications for advertisement for bids. It was decided that the widening of the bridge roadway would be included in the 1961 road program and that the work would be done by contractors to relieve the work burden of Supt. Charles J. Cole and department work crews in order that they might continue with other street improvement programs throughout the city.

Bids were received for four dump trucks, a compressor, a street sweeper and two pickup trucks, which the board feels are needed to carry on the operation of the department. Fourteen bids were received and read to the Board and 15 representatives of several agencies.

After the bid estimates were recorded, Mayor Radel appointed Commissioners John W. Lawson and Ernest Heppner a committee to appraise the estimates and select the successful bidders based on compliance with specification on the equipment and the lowest bids.

George Dempsey, who qualified for appointment to the position of labor foreman in a recent examination with a mark of 90 per cent, was named to that post on a probationary basis. Dempsey has served the last year and a half as the department stock clerk. His appointment becomes effective April 24.

6 Attorneys Recommended For Federal Bench by Bar

At a meeting of the Ulster County Bar Association this week at Kirkland Hotel, a report of the Judiciary Committee recommending six local attorneys as possible candidates for appointment to Federal Judgeships in the Southern District of New York, was adopted by the Association members.

Some time ago when it became apparent that enactment of law might provide for appointment of six additional Federal Judges for the Southern District, Senators Jacob K. Javits (R) and Kenneth B. Keating (R) called on Bar Associations to submit names of attorneys with ability and qualifications required for appointment. These recommendations were sought on a non-partisan basis.

At the meeting the Ulster County Bar Association approved the recommendations of the Judiciary Committee and recommended three Republicans and three Democrats.

The names to be submitted to Senators Javits and Keating for transmission to the U. S. Attorney General are:

Hugh R. Elwyn, (R) president of Ulster County Bar Association; Assistant District Attorney Harry Gold, (R) and Clarence F. Kaiser (R) of Ellenville; William A. Kelly, (D) Ulster County Democratic County chairman and a former Ulster County judge; Abraham Streifer, (D) legal assistant to former Supreme Court Justice Harry E. Schirick, who is now serving as an official referee in Supreme Court; Arthur B. Ewig, (D) special Kingston City judge.

The speaker of the evening was U. S. District Judge of the Southern District of New York, Hon. Irving R. Kaufman, who presided over the Julius and Ethel Rosenberg trial and the conspiracy trial of persons attending the famous gathering at Apalachin as well as the trial to enjoin segregation of Negroes at the Lincoln School in New Rochelle. His talk was most instructive and interesting, his topic being Federal Practice and Procedure."

Hugh R. Elwyn, president of the Bar presided. He presented Abraham Streifer who in turn presented former Ulster County Judge John M. Cashin, now an associate of Judge Kaufman on the Federal Court Bench, who introduced Judge Kaufman.

bond issue, a two-thirds vote of the board is required. Whether sufficient Democratic support can be mustered for that vote remains unknown.

Should the resolution for a bond issue be approved the matter of site will have to be settled as well as architect and other pertinent questions.

May Discuss College

Another matter to come up tonight is that of the community college. It is expected a resolution may be offered by the college committee calling for the appointment of three trustees.

This is preliminary to establishment of a college in Ulster County.

Three sites have been under consideration, two in the Kingston area, and one in Saugerties. The two sites under consideration in Kingston are one on Linderman Avenue, and one on Flatbush Avenue.

The matter of naming members to the Mental Health Board to fill vacancies may also face the board tonight.

What will happen no the important question of a new county building apparently now depends on the outcome of a Democratic caucus to precede the board meeting.

A letter for Ulster-Sullivan-Dutchess-Greene County Building and Construction Trades Council, George E. Yerry Jr., president, has been sent to each supervisor.

The letter state that the 6,000 members of the council favor construction of a building to provide employment. However they are also interested in efficient government.

Space Lead . . .

Soviet Union gained an important advantage in securing these large (rocket) boosters, which were able to put up greater weights, and that advantage is going to be with them for some time.

"However tired anybody may be, and no one is more tired than I am, it is a fact that it is going to take some time."

As for the U.S. effort, it will be carried out "with due regard to the problem of the life of the men involved," Kennedy said.

The news conference questions and answers ranged over these other matters:

Other Topics

Cuba — In ruling out intervention in Cuba by U.S. armed forces Kennedy said, "This government will do everything it possibly can, and I think it can meet its responsibilities, to make sure that there are no Americans involved in any actions inside Cuba."

Asked whether he regards Castro as a Communist, the President replied he did not want to characterize the Cuban leader, but "he has associated himself most intimately with the Sino-Soviet bloc and has indicated his desire to spread the influence of that bloc throughout this hemisphere."

Powers — The government has no information on whether the Soviet Union may be planning to release Francis Gary Powers, the American pilot jailed in the Soviet Union after his U2 spy plane was downed by the Soviets last May 1.

Discounts Sharp Buildup

Laos — Kennedy discounted reports that there recently has been a sharp step-up in Soviet airlift delivery of supplies to Communist led forces in Laos. He added that the United States is continuing to help supply the royalist forces, but is hopeful the Soviet Union will reply this week to cease-fire proposals.

Border — The President said anew that the question of the German-Polish frontier can be settled only in a peace treaty between Germany and the allied powers of World War II.

United Nations — Kennedy voiced opposition to Soviet demands for a reorganization of the United Nations, but made no direct reply to a question whether he will resist with equal vigor, as a newsman put it, French President Charles de Gaulle's call for changes in the U.N. structure. Kennedy did say he hopes the new member nations can be given a greater voice in the Security Council.

Denies London Report

Red China — Kennedy termed "not accurate" a London report saying his administration had decided not to oppose U.N. debate next fall on Communist China's bid for a seat in the United Nations. The President said he had made it very clear, in talks last week with Britain's Prime Minister Harold Macmillan, that the United States intends to honor its commitments on recognition and defense of Chinese Nationalist Formosa.

Military Installations—A newsman asked Kennedy how he reconciled concern about unemployment with government plans to close down about 50 military installations which no longer contribute to the general defensive strength of the country.

"I am hopeful," he said, "that the country's economy generally will be strong enough to absorb those who may be thrown out of work because of structural changes in our defense system."

Medicine — Kennedy said he hopes it may be possible to "take some action executively" to reduce the cost of medicines. Apart from possible presidential action, he added, "the Federal Trade Commission also, I am sure, will concern itself with this problem."

The President also put in another plug for congressional approval of his program to provide through the Social Security system—for the aged. He called the program another facet of the problem of helping our people afford good health.

Hecht Renamed By Dutchess Dems

POUGHKEEPSIE, N. Y. (AP) —Albert L. Hecht again has been elected Dutchess County Democratic chairman. Hecht's first election to the post resulted in a legal squabble.

Hecht, of Poughkeepsie, was county Democratic elections commissioner.

He had been elected to the county chairmanship March 18, the day outgoing chairman Joseph Hawkins resigned.

A Beacon group contested the election on grounds it was improper to accept a resignation and hold an election at the same meeting. The state supreme court upheld the objection and ordered a new election.

At Wednesday night's meeting, Hecht defeated Daniel J. Mahoney, commissioner of finance in Beacon, by a vote of 150 to 41.

scene he discovered a coin machine had been ripped from the wall and was missing. Keeley returned to the police station with the truck driver, William Sissler of Schenectady, and alerted Kingston police that a 1957 two-tone blue sedan with three occupants, the driver wearing a red and black checkered shirt, were heading south on Route 9W.

Kingston Patrolman Meyer Levy was told by Keeley that the trio was wanted in connection with a laundromat burglary a few minutes before at Saugerties.

Set Up Road Blocks

Patrolmen Richard J. Demsey and James Amato were directed to set up a roadblock at the Albany Avenue interchange. Patrolmen Frank Kennelly Jr., Vincent Eckert and Richard Scherer were told to set up roadblocks at East Chester and Flatbush Avenue.

Minutes later, Levy received a radio report from Dempsey and Amato that the wanted car was crossing the city line. Kennelly, Eckert and Scherer were dispatched to the area and the car and men were halted.

The trio was taken to police headquarters and questioned by Detectives Leonard Ellsworth and Charles McCullough. Fingerprints and photographs of the men were taken and later city police turned the suspects over to Saugerties authorities and Trooper David Wachtel of Lake Katrine Barracks.

Finds Coin Box

Trooper Wachtel hearing the radio report proceeded to head off the car on Route 9W. On his way north he discovered the empty coin box reportedly dumped by the trio near Schoentag's Restaurant at Glasco Turnpike.

Chief Richter, Patrolman Keeley and Trooper Wachtel returned the prisoners to Saugerties.

The driver of the car was later identified as Chandler, who was operating the vehicle belonging to his father, Richard Chandler.

Ulster Has Okay on Business

Inspection Made By State of Books

Many matters of importance were discussed at the regular meeting of the town board of the Town of Ulster Wednesday evening at Lake Katrine Grange hall, including site for town recreational purposes, consent for Army engineers to enter on property in the town in connection with Esopus Creek flood control, permits to burn rubbish in the town, town dump problems, purchase of a new loader-sweeper and matters pertaining to the water district.

Supervisor Alexander Banyo, who presided, opened the meeting with a moment of silent prayer, then proceeded with long agenda of business.

Records in Order

Supervisor Banyo reported to the board that an inspection of the town's affairs for the past five years had been made by the state auditors and that the manner in which the town's affairs had been conducted and the manner in which town funds had been expended had been found to be in order.

It was reported that at a joint meeting Monday of the Planning Board and town board a resolution had been passed by the Planning Board to submit an application to the State for participation in the recently approved State plan setting aside $75 million for recreational purposes. The town board Wednesday empowered Supervisor Banyo to submit three sites for State approval. If approval is given by the State the board feels the matter should then be submitted to public referendum to ascertain whether the residents of the township want such a recreation area or not.

Permission for Survey

Supervisor Banyo read a letter from the Army Corps of Engineers requesting permission to enter upon property along Esopus Creek in the town and conduct a survey pertaining to clearing and deepening Esopus Creek to prevent flood condition in the area. Permission was granted.

A communication was received from the Mt. Marion-Ruby Fire Company submitting the matter of consideration for granting burning permits. The board felt more information should be gathered and opinion of fire companies secured. Named to a committee to make this study was Ted Musialkiewicz and Robert Stedge. The matter will be discussed shortly with all fire companies in the town.

Town Superintendent of Highways Courtland Van Etten reported a new roller which had been authorized by the town board in March had been received.

To Hold Hearing

A communication was also read to the board pertaining to the town dump as well as dumping refuse in other sections of town. A committee was appointed by Supervisor Banyo to meet with the town attorney and discuss this matter and when a decision is arrived at a public hearing will be held.

The board was notified by Chairman Paul Werner of the Town of Ulster Fire Company that the annual fair of the fire company would be held August 10, 11, 12 on Albany Avenue Extension.

Supervisor Banyo set May 10 at 7 p. m. as time for a public hearing on purchase of a loader-sweeper for the town highway department. That same evening at 7:15 a hearing will also be held on purchase of a truck for the Ulster Water Department of the Ulster Water District.

To Seek Data on Water

Supervisor Banyo was authorized to secure information from the Board of Health on an emergency water supply plan in the event the present equipment failed in some manner. A secondary measure for solution of this problem will be discussed with the Board of Health, to assure a full water supply to the Ulster Water District in the event of failure of existing equipment.

Information will also be sought from the County Health Board on control of rodents in the town dump.

A report was received from Albert Cross, superintendent of the Water District, as requested by the town board. He reported the water meters for the first quarter had been read at a saving of $120 to the district, this saving being accomplished by him and his helper reading the meters. He also reported a clean-up program had been commenced in the area of the pump house.

2 Ellenville Men Held for Thefts

Two Ellenville men were arrested Wednesday by Ellenville police and state troopers on burglary, third degree charges as the result of investigation of reported burglaries at the Ellenville Floor Covering Store and The Sugar Bowl, both on Center Street.

Police Chief Abe Rand, who was in charge of village police during the investigation, and BCI troopers in charge of Corporal Michael Lisman, made the arrests.

The defendants were identified as Joseph Orson Luis, 22, of 6 Church Street and Robert Larry Wolpinski, 23, of 27 Market Street, both of Ellenville.

Arraigned before Acting Police Justice Lawrence Levine the youths requested a preliminary examination. Luis was committed to the county jail in lieu of $1,000 bail. Wolpinski was released on $1,000 bail.

The case was adjourned until Monday, April 17.

Authorities said it was reported about $300 was missing from the Floor Covering store.

Chief Rand said both youths were questioned in connection with reported breaks at the Terminal diner on March 23 and the Terrace Restaurant, April 2.

Points to Propaganda

Thurber said he was "convinced the Russians have done this for its propaganda value against the Americans."

Italian actress Sophia Loren said in Rome she was thrilled—"It hit me more than the burglary of all my jewels in London last year."

"The United States has been dealt another lump on the head," said Filomena Labay, 27, a vendor of cigarettes and sweepstakes tickets in Manila.

Yang Hao Jan, 9, a schoolboy in Formosa, wanted to know "What is the United States going to do about it now that bad egg Russia has a spaceman?

And a Chinese ricksaw driver in Taipei asked anxiously, "Why can't we shoot a man up there also?"

"Castro, and now a cosmonaut," shrugged the bartender in a Mexico City hotel. "Yankees take a beating, no?"

"Why don't the Russians put themselves and Fidel and the rest of the Cuban Communists in a big rocket and never come back?" said the bartender in a Havana hotel.

Sportsman Drowns

ST. CATHERINES, Ont. (AP)—John Digby Chick, Windsor businessman and former president of the American Hockey League, drowned early today when his car plunged into 25 feet of water from the east wall of nearby Port Dalhousie harbor on Lake Ontario.

The 69-year-old sportsman retired as AHL president two years ago, and the car he was driving had been presented to him at a testimonial function on his retirement.

Vicevich Named Planning Board Head for Village

Anthony Vicevich, local optometrist, was elected chairman of the Saugerties village planning board at a meeting at the village clerk's office Tuesday night. Vicevich, who has been a member of the board, fills the recently created vacancy caused by the resignation of Cornelius M. Cox.

Other members attending the session were Dr. Richard Messina, Mrs. Carroll Nieffer, Mrs. Rita Gavigan, Albert Giannotti and Nathan Aaron. Kenneth Beadle and John Kaminski did not attend.

Nat Aaron was appointed chairman of a committee to gather pertinent information and compile a fact sheet listing all churches, industries, professional people and other data of interest to people desiring to move into the community.

Events Scheduled

The American Legion Auxiliary will meet tonight 8 o'clock at the Legion Hall. Mrs. Julia Cox, cancer control chairman, has requested that members bring their collection of material and old stockings to this meeting, as the auxiliary will be working on projects in accordance with the demand during the month of April designated as Cancer Control Month.

The April meeting of the Saugerties Area Chamber of Commerce will be held at Schoentag's Colonial Tavern, Route 32, Tuesday, April 18, at 8 p. m. Plans for the betterment of the Saugerties area will be discussed.

The chamber office is at 123 Partition Street in the Amrod building and the public may visit there and make use of the many bulletins which are available for information concerning local businesses. Alfred R. MacMullen, secretary, is at the office Monday through Friday, 10 to 11 a. m. and 1 to 3 p. m. or by appointment.

St. Mary's of the Snow Parochial School will hold open house Sunday 1:30 and 4:30 p. m. Parents will have an opportunity to talk with teachers.

Parent-Teacher Association

There will be no meeting at St. Mary's School this month as the open house program will serve in its place.

St. Mary's CYO Schedules Events

The monthly meeting of St. Mary's CYO executive committee was held Monday night, at which time plans were completed for dances to be held this Friday and Saturday nights.

On April 14, the sixth, seventh and eighth grade members of the CYO may attend from 7:30 to 10:30 p. m. and the teen-age members will be guests at the dance April 15. The Catskill Mountaineers will play for both dances.

A schedule for roller skating at St. Mary's Hall was also set as follows:

Friday, April 21, fifth, sixth grades; Friday, April 28, seventh and eighth grades. Skating will be from 7 to 10 p. m. each night.

A pet show will be held April 30 on the St. Mary's school grounds. Complete details will be announced later.

Mrs. Virginia Lamb was appointed to complete the CYO scrapbook.

Tentative plans for the annual graduation dance June 22 were discussed. A May meeting is planned for the parents of pupils graduating from St. Mary's School to enlist assistance for the graduation dance.

New members, Russell O'Dea and Mrs. Lamb were welcomed into the CYO organization.

Anfuso Urges Space Inquiry

WASHINGTON (AP)—Rep. Victor Anfuso, D-N.Y., a member of the House Space Committee, today called for a congressional investigation of the nation's man-in-space program.

"I want to see this country mobilized to a wartime basis "because we are at war," he said.

"I want to see schedules cut in half. I want to see what NASA says it's going to do in 10 years done in five. I want to see some first coming out of NASA such as a landing on the moon which I know can be done if we go immediately into development of a solid fuel booster."

Anfuso's statement was issued as the House Space Committee discussed the Soviet feat of sending a man around the world in 89 minutes as reported by Tass, the Soviet news agency.

6 Attorneys Recommended For Federal Bench by Bar

At a meeting of the Ulster County Bar Association this week at Kirkland Hotel, a report of the Judiciary Committee recommending six local attorneys as possible candidates for appointment to Federal Judgeships in the Southern District of New York, was adopted by the Association members.

Some time ago when it became apparent that enactment of law might provide for appointment of six additional Federal Judges for the Southern District, Senators Jacob K. Javits (R) and Kenneth B. Keating (R) called on Bar Associations to submit names of attorneys with ability and qualifications required for appointment. These recommendations were sought on a non-partisan basis.

At the meeting the Ulster Conuty Bar Association approved the recommendations of the Judiciary Committee and recommended three Republicans and three Democrats.

The names to be submitted to Senators Javits and Keating for transmission to the U. S. Attorney General are:

Hugh R. Elwyn, (R) president of Ulster County Bar Association; Assistant District Attorney Harry Gold, (R) and Clarence F. Kaiser (R) of Ellenville; William A. Kelly, (D) Ulster County Democratic County chairman and a former Ulster County judge; Abraham Streifer, (D) legal assistant to former Supreme Court Justice Harry E. Schirick, who is now serving as an official referee in Supreme Court; Arthur B. Ewig, (D) special Kingston City judge.

The speaker of the evening was U. S. District Judge of the Southern District of New York, Hon. Irving R. Kaufman, who presided over the Julius and Ethel Rosenberg trial and the conspiracy trial of persons attending the famous gathering at Apalachin as well as the trial to enjoin segregation of Negroes at the Lincoln School in New Rochelle. His talk was most instructive and interesting, his topic being Federal Practice and Procedure."

Hugh R. Elwyn, president of the Bar presided. He presented Abraham Streifer who in turn presented former Ulster County Judge John M. Cashin, now an associate of Judge Kaufman on the Federal Court Bench, who introduced Judge Kaufman.

said, requested some time ago that the Department of Public Works and the city engineer consider demolition of the bridge and construction of a wider bridge.

City Engineer Arthur F. Hallinan, at the mayor's request, submitted plans for widening the bridge, constructing a sidewalk and installation of culvert pipes to carry the flow of water in the brook.

The Board directed the city engineer to complete specifications for advertisement for bids. It was decided that the widening of the bridge roadway would be included in the 1961 road program and that the work would be done by contractors to relieve the work burden of Supt. Charles J. Cole and department work crews in order that they might continue with other street improvement programs throughout the city.

Bids were received for four dump trucks, a compressor, a street sweeper and two pickup trucks, which the board feels are needed to carry on the operation of the department. Fourteen bids were received and read to the Board and 15 representatives of several agencies.

After the bid estimates were recorded, Mayor Radel appointed Commissioners John W. Lawson and Ernest Heppner a committee to appraise the estimates and select the successful bidders based on compliance with specification on the equipment and the lowest bids.

George Dempsey, who qualified for appointment to the position of labor foreman in a recent examination with a mark of 90 per cent, was named to that post on a probationary basis. Dempsey has served the last year and a half as the department stock clerk. His appointment becomes effective April 24.

bond issue, a two-thirds vote of the board is required. Whether sufficient Democratic support can be mustered for that vote remains unknown.

Should the resolution for a bond issue be approved the matter of site will have to be settled as well as architect and other pertinent questions.

May Discuss College

Another matter to come up tonight is that of the community college. It is expected a resolution may be offered by the college committee calling for the appointment of three trustees.

This is preliminary to establishment of a college in Ulster County.

Three sites have been under consideration, two in the Kingston area, and one in Saugerties. The two sites under consideration in Kingston are one on Linderman Avenue, and one on Flatbush Avenue.

The matter of naming members to the Mental Health Board to fill vacancies may also face the board tonight.

What will happen no the important question of a new county building apparently now depends on the outcome of a Democratic caucus to precede the board meeting.

A letter for Ulster-Sullivan-Dutchess-Greene County Building and Construction Trades Council, George E. Yerry Jr., president, has been sent to each supervisor.

The letter state that the 6,000 members of the council favor construction of a building to provide employment. However they are also interested in efficient government.

Space Lead . . .

Soviet Union gained an important advantage in securing these large (rocket) boosters, which were able to put up greater weights, and that advantage is going to be with them for some time.

"However tired anybody may be, and no one is more tired than I am, it is a fact that it is going to take some time."

As for the U.S. effort, it will be carried out "with due regard to the problem of the life of the men involved," Kennedy said.

The news conference questions and answers ranged over these other matters:

Other Topics

Cuba — In ruling out intervention in Cuba by U.S. armed forces Kennedy said, "This government will do everything it possibly can, and I think it can meet its responsibilities, to make sure that there are no Americans involved in any actions inside Cuba."

Asked whether he regards Castro as a Communist, the President replied he did not want to characterize the Cuban leader, but "he has associated himself most intimately with the Sino-Soviet bloc and has indicated his desire to spread the influence of that bloc throughout this hemisphere."

Powers — The government has no information on whether the Soviet Union may be planning to release Francis Gary Powers, the American pilot jailed in the Soviet Union after his U2 spy plane was downed by the Soviets last May 1.

Discounts Sharp Buildup

Laos — Kennedy discounted reports that there recently has been a sharp step-up in Soviet airlift delivery of supplies to Communist led forces in Laos. He added that the United States is continuing to help supply the royalist forces, but is hopeful the Soviet Union will reply this week to cease-fire proposals.

Border — The President said anew that the question of the German-Polish frontier can be settled only in a peace treaty between Germany and the allied powers of World War II.

United Nations — Kennedy voiced opposition to Soviet demands for a reorganization of the United Nations, but made no direct reply to a question whether he will resist with equal vigor, as a newsman put it, French President Charles de Gaulle's call for changes in the U.N. structure. Kennedy did say he hopes the new member nations can be given a greater voice in the Security Council.

Denies London Report

Red China — Kennedy termed "not accurate" a London report saying his administration had decided not to oppose U.N. debate next fall on Communist China's bid for a seat in the United Nations. The President said he had made it very clear, in talks last week with Britain's Prime Minister Harold Macmillan, that the United States intends to honor its commitments on recognition and defense of Chinese Nationalist Formosa.

Military Installations—A newsman asked Kennedy how he reconciled concern about unemployment with government plans to close down about 50 military installations which no longer contribute to the general defensive strength of the country.

"I am hopeful," he said, "that the country's economy generally will be strong enough to absorb those who may be thrown out of work because of structural changes in our defense system."

Medicine — Kennedy said he hopes it may be possible to "take some action executively" to reduce the cost of medicines. Apart from possible presidential action, he added, "the Federal Trade Commission also, I am sure, will concern itself with this problem."

The President also put in another plug for congressional approval of his program to provide through the Social Security system—for the aged. He called the program another facet of the problem of helping our people afford good health.

Hecht Renamed By Dutchess Dems

POUGHKEEPSIE, N. Y. (AP) —Albert L. Hecht again has been elected Dutchess County Democratic chairman. Hecht's first election to the post resulted in a legal squabble.

Hecht, of Poughkeepsie, was county Democratic elections commissioner.

He had been elected to the county chairmanship March 18, the day outgoing chairman Joseph Hawkins resigned.

A Beacon group contested the election on grounds it was improper to accept a resignation and hold an election at the same meeting. The state supreme court upheld the objection and ordered a new election.

At Wednesday night's meeting, Hecht defeated Daniel J. Mahoney, commissioner of finance in Beacon, by a vote of 150 to 41.

scene he discovered a coin machine had been ripped from the wall and was missing. Keeley returned to the police station with the truck driver, William Sissler of Schenectady, and alerted Kingston police that a 1957 two-tone blue sedan with three occupants, the driver wearing a red and black checkered shirt, were heading south on Route 9W.

Kingston Patrolman Meyer Levy was told by Keeley that the trio was wanted in connection with a laundromat burglary a few minutes before at Saugerties.

Set Up Road Blocks

Patrolmen Richard J. Demsey and James Amato were directed to set up a roadblock at the Albany Avenue interchange. Patrolmen Frank Kennelly Jr., Vincent Eckert and Richard Scherer were told to set up roadblocks at East Chester and Flatbush Avenue.

Minutes later, Levy received a radio report from Dempsey and Amato that the wanted car was crossing the city line. Kennelly, Eckert and Scherer were dispatched to the area and the car and men were halted.

The trio was taken to police headquarters and questioned by Detectives Leonard Ellsworth and Charles McCullough. Fingerprints and photographs of the men were taken and later city police turned the suspects over to Saugerties authorities and Trooper David Wachtel of Lake Katrine Barracks.

Finds Coin Box

Trooper Wachtel hearing the radio report proceeded to head off the car on Route 9W. On his way north he discovered the empty coin box reportedly dumped by the trio near Schoentag's Restaurant at Glasco Turnpike.

Chief Richter, Patrolman Keeley and Trooper Wachtel returned the prisoners to Saugerties.

The driver of the car was later identified as Chandler, who was operating the vehicle belonging to his father, Richard Chandler.

Ulster Has Okay on Business

Inspection Made By State of Books

Many matters of importance were discussed at the regular meeting of the town board of the Town of Ulster Wednesday evening at Lake Katrine Grange hall, including site for town recreational purposes, consent for Army engineers to enter on property in the town in connection with Esopus Creek flood control, permits to burn rubbish in the town, town dump problems, purchase of a new loader-sweeper and matters pertaining to the water district.

Supervisor Alexander Banyo, who presided, opened the meeting with a moment of silent prayer, then proceeded with long agenda of business.

Records in Order

Supervisor Banyo reported to the board that an inspection of the town's affairs for the past five years had been made by the state auditors and that the manner in which the town's affairs had been conducted and the manner in which town funds had been expended had been found to be in order.

It was reported that at a joint meeting Monday of the Planning Board and town board a resolution had been passed by the Planning Board to submit an application to the State for participation in the recently approved State plan setting aside $75 million for recreational purposes. The town board Wednesday empowered Supervisor Banyo to submit three sites for State approval. If approval is given by the State the board feels the matter should then be submitted to public referendum to ascertain whether the residents of the township want such a recreation area or not.

Permission for Survey

Supervisor Banyo read a letter from the Army Corps of Engineers requesting permission to enter upon property along Esopus Creek in the town and conduct a survey pertaining to clearing and deepening Esopus Creek to prevent flood condition in the area. Permission was granted.

A communication was received from the Mt. Marion-Ruby Fire Company submitting the matter of consideration for granting burning permits. The board felt more information should be gathered and opinion of fire companies secured. Named to a committee to make this study was Ted Musialkiewicz and Robert Stedge. The matter will be discussed shortly with all fire companies in the town.

Town Superintendent of Highways Courtland Van Etten reported a new roller which had been authorized by the town board in March had been received.

To Hold Hearing

A communication was also read to the board pertaining to the town dump as well as dumping refuse in other sections of town. A committee was appointed by Supervisor Banyo to meet with the town attorney and discuss this matter and when a decision is arrived at a public hearing will be held.

The board was notified by Chairman Paul Werner of the Town of Ulster Fire Company that the annual fair of the fire company would be held August 10, 11, 12 on Albany Avenue Extension.

Supervisor Banyo set May 10 at 7 p. m. as time for a public hearing on purchase of a loader-sweeper for the town highway department. That same evening at 7:15 a hearing will also be held on purchase of a truck for the Ulster Water Department of the Ulster Water District.

To Seek Data on Water

Supervisor Banyo was authorized to secure information from the Board of Health on an emergency water supply plan in the event the present equipment failed in some manner. A secondary measure for solution of this problem will be discussed with the Board of Health, to assure a full water supply to the Ulster Water District in the event of failure of existing equipment.

Information will also be sought from the County Health Board on control of rodents in the town dump.

A report was received from Albert Cross, superintendent of the Water District, as requested by the town board. He reported the water meters for the first quarter had been read at a saving of $120 to the district, this saving being accomplished by him and his helper reading the meters. He also reported a clean-up program had been commenced in the area of the pump house.

2 Ellenville Men Held for Thefts

Two Ellenville men were arrested Wednesday by Ellenville police and state troopers on burglary, third degree charges as the result of investigation of reported burglaries at the Ellenville Floor Covering Store and The Sugar Bowl, both on Center Street.

Police Chief Abe Rand, who was in charge of village police during the investigation, and BCI troopers in charge of Corporal Michael Lisman, made the arrests.

The defendants were identified as Joseph Orson Luis, 22, of 6 Church Street and Robert Larry Wolpinski, 23, of 27 Market Street, both of Ellenville.

Arraigned before Acting Police Justice Lawrence Levine the youths requested a preliminary examination. Luis was committed to the county jail in lieu of $1,000 bail. Wolpinski was released on $1,000 bail.

The case was adjourned until Monday, April 17.

Authorities said it was reported about $300 was missing from the Floor Covering store.

Chief Rand said both youths were questioned in connection with reported breaks at the Terminal diner on March 23 and the Terrace Restaurant, April 2.

Points to Propaganda

Thurber said he was "convinced the Russians have done this for its propaganda value against the Americans."

Italian actress Sophia Loren said in Rome she was thrilled—"It hit me more than the burglary of all my jewels in London last year."

"The United States has been dealt another lump on the head," said Filomena Labay, 27, a vendor of cigarettes and sweepstakes tickets in Manila.

Yang Hao Jan, 9, a schoolboy in Formosa, wanted to know "What is the United States going to do about it now that bad egg Russia has a spaceman?

And a Chinese ricksaw driver in Taipei asked anxiously, "Why can't we shoot a man up there also?"

"Castro, and now a cosmonaut," shrugged the bartender in a Mexico City hotel. "Yankees take a beating, no?"

"Why don't the Russians put themselves and Fidel and the rest of the Cuban Communists in a big rocket and never come back?" said the bartender in a Havana hotel.

Sportsman Drowns

ST. CATHERINES, Ont. (AP)—John Digby Chick, Windsor businessman and former president of the American Hockey League, drowned early today when his car plunged into 25 feet of water from the east wall of nearby Port Dalhousie harbor on Lake Ontario.

Vicevich Named Planning Board Head for Village

Anthony Vicevich, local optometrist, was elected chairman of the Saugerties village planning board at a meeting at the village clerk's office Tuesday night. Vicevich, who has been a member of the board, fills the recently created vacancy caused by the resignation of Cornelius M. Cox.

Other members attending the session were Dr. Richard Messina, Mrs. Carroll Nieffer, Mrs. Rita Gavigan, Albert Giannotti and Nathan Aaron. Kenneth Beadle and John Kaminski did not attend.

Nat Aaron was appointed chairman of a committee to gather pertinent information and compile a fact sheet listing all churches, industries, professional people and other data of interest to people desiring to move into the community.

Events Scheduled

The American Legion Auxiliary will meet tonight 8 o'clock at the Legion Hall. Mrs. Julia Cox, cancer control chairman, has requested that members bring their collection of material and old stockings to this meeting, as the auxiliary will be working on projects in accordance with the demand during the month of April designated as Cancer Control Month.

The April meeting of the Saugerties Area Chamber of Commerce will be held at Schoentag's Colonial Tavern, Route 32, Tuesday, April 18, at 8 p. m. Plans for the betterment of the Saugerties area will be discussed.

The chamber office is at 123 Partition Street in the Amrod building and the public may visit there and make use of the many bulletins which are available for information concerning local businesses. Alfred R. MacMullen, secretary, is at the office Monday through Friday, 10 to 11 a. m. and 1 to 3 p. m. or by appointment.

St. Mary's of the Snow Parochial School will hold open house Sunday 1:30 and 4:30 p. m. Parents will have an opportunity to talk with teachers.

Parent-Teacher Association

There will be no meeting at St. Mary's School this month as the open house program will serve in its place.

St. Mary's CYO Schedules Events

The monthly meeting of St. Mary's CYO executive committee was held Monday night, at which time plans were completed for dances to be held this Friday and Saturday nights.

On April 14, the sixth, seventh and eighth grade members of the CYO may attend from 7:30 to 10:30 p. m. and the teen-age members will be guests at the dance April 15. The Catskill Mountaineers will play for both dances.

A schedule for roller skating at St. Mary's Hall was also set as follows:

Friday, April 21, fifth, sixth grades; Friday, April 28, seventh and eighth grades. Skating will be from 7 to 10 p. m. each night.

A pet show will be held April 30 on the St. Mary's school grounds. Complete details will be announced later.

Mrs. Virginia Lamb was appointed to complete the CYO scrapbook.

Tentative plans for the annual graduation dance June 22 were discussed. A May meeting is planned for the parents of pupils graduating from St. Mary's School to enlist assistance for the graduation dance.

New members, Russell O'Dea and Mrs. Lamb were welcomed into the CYO organization.

Area Notes

Mrs. Paul Kruger and daughter Hilda of Katsbaan returned on Tuesday from a week's vacation visiting relatives at St. Petersburgh, Fla.

Mrs. Catherine Schaffer of Main Street is a patient in the Benedictine Hospital where she underwent surgery Tuesday.

Kingston Rotary Hears of Nigeria

The international phase of Rotary was given significance by a distinguished Rotarian, John Hall Blackburn, of Albany, at the luncheon-meeting Wednesday of the Kingston Rotary Club.

Rotarian Blackburn, who conceived The International Center at Albany, an official project of the Rotary Club, gave a graphic account of his recent trip to Africa. A special guest at the celebration of independence by the new government of Nigeria in West Africa, the speaker gave a first-hand account of the country, its preparation for independence, its democratic processes and its customs.

Nigerian diplomats were among the 138 different countries who were represented at The International Center during the past year. It was during the visit of the Nigerian officials that an invitation was extended to Mr. and Mrs. Blackburn to visit their country and to attend the celebration.

Prefacing his introductory remarks, Rotarian Snyder called attention to his news analysis and forecast about man in space, which has been accomplished by the Russians and credited by them to communism. On this subject, Rotarian Snyder reiterated his original thought that "God was more interested in inner grace than in outer space."

Painter Succumbs In Fall From Burning Scaffold

TROY, N.Y. (AP) — A paint-removing solvent burst into flames, setting their scaffold on fire.

Albert George, 57, of Watervliet, stepped back and fell 50 feet to the concrete pavement. He died shortly afterwards in a hospital.

Francis Rondeau, 43, of Troy, climbed to the roof and escaped with burned hands and wrists.

The two men were removing paint Wednesday from the front of the downtown Troy Theater. Police said the solvent apparently was ignited by a blow torch.

Kingston Rotary Hears of Nigeria

The international phase of Rotary was given significance by a distinguished Rotarian, John Hall Blackburn, of Albany, at the luncheon-meeting Wednesday of the Kingston Rotary Club.

Rotarian Blackburn, who conceived The International Center at Albany, an official project of the Rotary Club, gave a graphic account of his recent trip to Africa. A special guest at the celebration of independence by the new government of Nigeria in West Africa, the speaker gave a first-hand account of the country, its preparation for independence, its democratic processes and its customs.

Nigerian diplomats were among the 138 different countries who were represented at The International Center during the past year. It was during the visit of the Nigerian officials that an invitation was extended to Mr. and Mrs. Blackburn to visit their country and to attend the celebration.

Realist in Tough Situation

Reasoning Behind Kennedy's Non-Belligerent Laos Stand

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — President Kennedy has avoided shrill notes ever since his show of toughness last month when he indicated this country would act if the Communists didn't stop trying to gobble up Laos.

He used a soft-pedal again Wednesday. This may displease those who want him to get tougher with Russia. But the fact is he's up against a tough situation and he is a realist.

Waiting on Kremlin

Since last month, when he called on the Soviet-backed Reds in Laos to agree to a cease-fire, he's been waiting for the Russians, who pull the strings, to halt the Communist rebel attacks on the American-backed Laotian government.

Two days ago a State Department spokesman said the United States now is concerned about a step-up in Soviet arms deliveries to the rebels and about any further delay in a cease-fire.

This was tougher than Kennedy wanted to sound. At his news conference Wednesday he threw cold water on it. He said there hasn't been a marked increase in Soviet supplies and expressed hope for a cease-fire answer this week.

These are some reasons that can explain Kennedy's non-belligerent attitude:

In the first place, the United States is not quite an innocent party in Laos. In a fashion it has been doing on one side what the Russians have been doing on the other.

In a land where a majority of the people reportedly are neutral and apathetic about who wins, this country has been backing and supplying the right-wing government.

Russia has been doing the same for the Communist-led rebels trying to overthrow the government. The rest of the world knows this and the United States has made no secret of it.

Another Korea Possible

If the United States persuaded its Southeast Asian allies to go in and fight the rebels—perhaps with direct American participation in some form—Red China and North Viet Nam Communists next door might move in.

This could become another Korea, but under even worse conditions because of the jungle-mountain terrain. In short, the United States might well wind up embroiled in Asia.

This could have two effects, neither of them good for the United States:

1. With the United States up to its neck in a Laotian fight, the Russians and Red Chinese might consider it timely to start a crisis elsewhere.

Could Split Allies

2. The Asians themselves and the neutrals everywhere might later, if not right away, sour badly on this country for a war next door to them.

Further, if the United States did get embroiled, some of the Western allies, particularly the French might stand aloof.

Any weakening in the Western alliance would be so much gravy for the Communists who have been trying for years to shake and wreck the alliance.

Still further, if there is a cease-fire and the West seeks to create a single government for all of Laos, the Communists, who hold half the country anyway, will almost certainly insist on being part of it.

This would open the door to continued, even though peaceful, Red pressure from the inside and perhaps their eventual take-over of all Laos anyway. It's not a pretty prospect for this country.

But the only alternative to it—short of continued fighting—would seem to be a splitting in half of Laos, with the Communists holding the northern half, a neutral or American-backed government in the south.

That wouldn't solve anything. The United States doesn't want communism to get another inch of real estate in Southeast Asia.

Before Kennedy gets tough—unless he wants to risk getting this country up to its neck in a war in Asia—he has to try for some other, more peaceful way of ending the fighting. That's what he seems to be doing.

Worry, Confusion

first step toward interplanetary transportation if we are going to have it."

Foolishness, He Says

Joe Smith, 85, an attorney in Pasadena, Calif., said "I think it's a lot of damned foolishness. I don't see that any good can come of it."

"To be fair about it, it's a great thing," said Joe P. Smith, 75, milling company worker in Minneapolis. "They were there ahead of everybody else. They were first, and if they had the ability to do it first, then they're entitled to all the credit."

"I'm certainly very impressed by the accomplishment," said Joe Max Smith, 22, Washington, D.C., law student. "The United States is going to have to speed up its efforts to keep on top of the race."

Sorry Reds First

Joe W. Smith, a retired worker in Oklahoma City, said "I think it's a great accomplishment, but I wish our nation had been first."

In Seattle, Wash., Joseph B. Smith, an attorney for 36 years, said, "I don't think it makes any difference whether the Russians are a little ahead of us. We'll have a man up there, but we want to be more careful, more sure. We think more of a human being than the Russians do."

Newspapers cooperating in the poll were the Miami Herald, Detroit Free Press, Charlotte Observer, Akron Beacon Journal, Dallas Times Herald, Denver Post, Los Angeles Examiner, Minneapolis Tribune, Washington Post, Oklahoma City Oklahoman and Seattle Post Intelligencer.

Reports Ambushing

JOHANNESBURG, South Africa (AP)—African terrorists are ambushing and killing Portuguese soldiers and waging a campaign of destruction in northern Angola, the South African Press Association reported today.

A Portuguese army captain, a lieutenant and a number of soldiers recently were trapped and killed north of Luanda, the new agency reported in a dispatch from the capital of the Portuguese territory.

Financial and Commercial

NEW YORK (AP)—The stock market was mixed in fairly active trading early this afternoon as prices recovered somewhat from an initial decline.

The Associated Press average of 60 stocks at noon was off .20 at 244.60 with industrials unchanged, rails up .20 and utilities down .50.

Most of the major steels were up following news that some companies are planning to speed up production.

Gains and losses of fractions to about a point were scattered throughout the list. Tobaccos, oils and airlines edged off and utilities sagged. A string of small losses was shown by electronics.

Soviet writers interviewed him at an air center somewhere in the interior. He told of the wonders he had seen from the space ship, of the earth appearing blue beneath him, the sky black overhead.

Still Wears Space Suit

He still wore his blue space suit and helmet as he spoke to a correspondent for the armed forces newspaper Red Star.

"I feel well, as you can see. I am safe and sound. The flight proceeded successfully. The equipment worked extremely well. I am boundlessly happy that it has fallen to my lot to open to mankind the way into space." Red Star quoted him as saying.

Both Khrushchev and the space pilot who made history hurled a challenge to the capitalist countries to "try and catch up with us."

Felt Extremely Well

The Communist party newspaper Pravda said Gagarin, as he stepped from his space ship, declared: "I am ready to carry out any new assignment for our glorious Communist party, our own Soviet government and our great motherland."

The youthful pilot — promoted from senior lieutenant to major only Wednesday as he left to make his epic flight—said he felt "well, extremely well" all during his journey into space and his landing back on earth.

"There was almost no trace of fatigue on his young face," reported the Pravda correspondent who interviewed him after the landing.

The space ship was reported to have come down "exactly in the designated area." The only clue to its location was that it was in farm country, for tractor drivers were reported among the first to congratulate Gagarin and a helicopter flew him to the nearest town.

Few Details Given

Soviet scientists and newspapers so far have given few technical details of the flight.

But a hint on the separation of Gagarin's space capsule from the cosmic ship came from a scientist named U. Suskov, who told the newspaper Soviet Russia:

"At an altitude of some kilometers over the present area of landing the velocity of the cosmic ship appears to have been low enough in order to catapult, or to separate, the chamber from the cosmic ship and to lower it with the usual parachute."

The word Suskov used to describe the number of kilometers was "neskolko," which is somewhat similar to the English word "several" but generally means anything under 10.

In Air 1.48 Minutes

Otherwise the Soviets have said of Gagarin's flight that he was in the air for one hour and 48 minutes and spent one hour and 29.1 minutes in outer space, the time it took the five-ton space ship to circle the globe. It traveled at a speed of about 17,000 miles an hour, six times as fast as man ever flew before.

Gagarin's minimum distance (perigree) from the earth in making the globe-girdling swing was 110 miles and his maximum (apogee) 188 miles. The angle of the orbit to the equator was 65 degrees 4 minutes. And the flight passed over South America and Africa.

Gagarin was quoted as saying "I felt very well, very unconstrainedly in flight. The ship was to me a home where I felt calm

"And what is the sky like up there, in space?" he was asked.

"Dark, comrades, very dark," he replied.

"And the earth?"

"Blue, like a blue globe. A wonderful picture."

At one point he radioed, "I see land covered with haze."

When he landed he told Pravda that the flight was only the beginning of many cosmic flights.

Dedication Ceremony

Dedication of the Yad Vashem Memorial, an impressive structure of steel and reinforced concrete, was marked by the laying to final rest of the ashes of concentration camp victims in the vault.

Paratroopers, popularly called "Poppy Flowers" for their red berets, marched in the cortege forming behind the large urn covered with the Israeli flag.

A cantor, chanting prayers for the dead, walked in front of the procession moving into the tent-shaped memorial through a heavy portal of steel.

On the floor of the vast, rectangular memorial room were the names which once spelled horror, Auschwitz, Treblinka, Bergen-Belsen—21 of them.

Then Rabbi Mordecai Nurock, 80, oldest member of the Knesset, (the National Parliament), kindled the eternal flame fed by natural gas from Israeli soil and framed by a modernistic sculpture symbolizing the fire. It was Rabbi Nurock who initiated in Parliament the legislation under which Eichmann is being tried.

The paratroopers, submachine-guns slung over their shoulders, stood stone-faced during the rabbi's eulogy of the dead. And the prayers echoed from the huge blocks of natural stone forming the wall of the memorial building.

Through one square-shaped opening in the ceiling came the sunlight.

Exhibition Opened

The ceremony was followed by the opening of a Yad Vashem exhibition to commemorate the deeds against the Jewish people. It showed photographs, documents and the yellow scraps of rag, shaped like the Star of David which Hitler forced the Jews to wear in German-occupied Europe.

Among the documents were some which bore the name of the man now on trial: Adolf Eichmann. In one, he was quoted as rejecting the freeing of Jewish children "on reasons of principle."

Sirens blowing at 8 a.m. marked two minutes of silence for the city and the nation.

Eichmann spent the day in his secret court house cell, reportedly reading, and poring over the few notes he made for himself at the opening hearings.

Book Value Alone Won't Raise Price of a Stock

A) "I recently purchased Dresser Industries shares under 25. The book value of the stock is $26.69, and the shares looked cheap to me on that basis. What is the significance of book value here and in other cases?" J.B.

A) I'm afraid you are putting a lot of emphasis on a factor which is relatively unimportant as regards the price of a stock. In making an investment, the important thing is to keep your eye peeled for its earning power and growth. Book value—which is what the net assets per share are worth — can act as a floor under a declining situation. But it won't lift the share price by itself unless there is a chance of liquidation or at least a partial distribution of assets to shareholders.

Singer Manufacturing is a good example of the inability of book value to influence the price of a stock. For many years it traded far below its very conservatively stated net asset worth. It finally broke out on the upside in 1959, solely because of a change in management policy designed to lift earning power.

On the other hand, because oil exploitation has slowed down somewhat, it seems unlikely that well-managed Dresser can show any early improvement in profits or share prices. This is the controlling factor here, and the reason why I have recommended sale of the shares in this column.

Q) "I would like to buy one strong stock for growth. Any suggestions?" C. McI.

A) I have a great many, but the difficulty is to narrow the choice down to one stock. As a single selection, I like Purex Corporation (OTC), which is an extremely smart merchandiser of toiletries and cleaning products. A share split and a higher dividend are expected here, and I believe that recent fast growth can be projected well into the future.

Court Dismisses Last Tax Count Against Powell

NEW YORK (AP) — A federal district court today dismissed, at the government's request, the third and last count of an indictment charging Rep. Adam Clayton Powell Jr., D-N.Y., with income tax fraud.

Two other counts had been dismissed during the Harlem Negro's trial on the three counts last April. A jury had deadlocked on the third count.

The government said it lacked sufficient evidence for a re-trial on the third count—that Powell wilfully filed a false income tax return in behalf of his then wife, Hazel Scott, a pianist, for 1951.

It involved income Miss Scott earned on a foreign tour.

The other two counts dismissed in April by Federal District Judge Frederick van Pelt Bryan charged that Powell evaded $3,063 in taxes on a 1951 return and on the Powells' joint 1952 return.

Realist in Tough Situation

Reasoning Behind Kennedy's Non-Belligerent Laos Stand

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — President Kennedy has avoided shrill notes ever since his show of toughness last month when he indicated this country would act if the Communists didn't stop trying to gobble up Laos.

He used a soft-pedal again Wednesday. This may displease those who want him to get tougher with Russia. But the fact is he's up against a tough situation and he is a realist.

Waiting on Kremlin

Since last month, when he called on the Soviet-backed Reds in Laos to agree to a cease-fire, he's been waiting for the Russians, who pull the strings, to halt the Communist rebel attacks on the American-backed Laotian government.

Two days ago a State Department spokesman said the United States now is concerned about a step-up in Soviet arms deliveries to the rebels and about any further delay in a cease-fire.

This was tougher than Kennedy wanted to sound. At his news conference Wednesday he threw cold water on it. He said there hasn't been a marked increase in Soviet supplies and expressed hope for a cease-fire answer this week.

These are some reasons that can explain Kennedy's non-belligerent attitude:

In the first place, the United States is not quite an innocent party in Laos. In a fashion it has been doing on one side what the Russians have been doing on the other.

In a land where a majority of the people reportedly are neutral and apathetic about who wins, this country has been backing and supplying the right-wing government.

Russia has been doing the same for the Communist-led rebels trying to overthrow the government. The rest of the world knows this and the United States has made no secret of it.

Another Korea Possible

If the United States persuaded its Southeast Asian allies to go in and fight the rebels—perhaps with direct American participation in some form—Red China and North Viet Nam Communists next door might move in.

This could become another Korea, but under even worse conditions because of the jungle-mountain terrain. In short, the United States might well wind up embroiled in Asia.

This could have two effects, neither of them good for the United States:

1. With the United States up to its neck in a Laotian fight, the Russians and Red Chinese might consider it timely to start a crisis elsewhere.

Could Split Allies

2. The Asians themselves and the neutrals everywhere might later, if not right away, sour badly on this country for a war next door to them.

Further, if the United States did get embroiled, some of the Western allies, particularly the French might stand aloof.

Any weakening in the Western alliance would be so much gravy for the Communists who have been trying for years to shake and wreck the alliance.

Still further, if there is a cease-fire and the West seeks to create a single government for all of Laos, the Communists, who hold half the country anyway, will almost certainly insist on being part of it.

This would open the door to continued, even though peaceful, Red pressure from the inside and perhaps their eventual take-over of all Laos anyway. It's not a pretty prospect for this country.

But the only alternative to it—short of continued fighting—would seem to be a splitting in half of Laos, with the Communists holding the northern half, a neutral or American-backed government in the south.

That wouldn't solve anything. The United States doesn't want communism to get another inch of real estate in Southeast Asia.

Before Kennedy gets tough—unless he wants to risk getting this country up to its neck in a war in Asia—he has to try for some other, more peaceful way of ending the fighting. That's what he seems to be doing.

Worry, Confusion

first step toward interplanetary transportation if we are going to have it."

Foolishness, He Says

Joe Smith, 85, an attorney in Pasadena, Calif., said "I think it's a lot of damned foolishness. I don't see that any good can come of it."

"To be fair about it, it's a great thing," said Joe P. Smith, 75, milling company worker in Minneapolis. "They were there ahead of everybody else. They were first, and if they had the ability to do it first, then they're entitled to all the credit."

"I'm certainly very impressed by the accomplishment," said Joe Max Smith, 22, Washington, D.C., law student. "The United States is going to have to speed up its efforts to keep on top of the race."

Sorry Reds First

Joe W. Smith, a retired worker in Oklahoma City, said "I think it's a great accomplishment, but I wish our nation had been first."

In Seattle, Wash., Joseph B. Smith, an attorney for 36 years, said, "I don't think it makes any difference whether the Russians are a little ahead of us. We'll have a man up there, but we want to be more careful, more sure. We think more of a human being than the Russians do."

Newspapers cooperating in the poll were the Miami Herald, Detroit Free Press, Charlotte Observer, Akron Beacon Journal, Dallas Times Herald, Denver Post, Los Angeles Examiner, Minneapolis Tribune, Washington Post, Oklahoma City Oklahoman and Seattle Post Intelligencer.

Reports Ambushing

JOHANNESBURG, South Africa (AP)—African terrorists are ambushing and killing Portuguese soldiers and waging a campaign of destruction in northern Angola, the South African Press Association reported today.

A Portuguese army captain, a lieutenant and a number of soldiers recently were trapped and killed north of Luanda, the new agency reported in a dispatch from the capital of the Portuguese territory.

Financial and Commercial

NEW YORK (AP)—The stock market was mixed in fairly active trading early this afternoon as prices recovered somewhat from an initial decline.

The Associated Press average of 60 stocks at noon was off .20 at 244.60 with industrials unchanged, rails up .20 and utilities down .50.

Most of the major steels were up following news that some companies are planning to speed up production.

Gains and losses of fractions to about a point were scattered throughout the list. Tobaccos, oils and airlines edged off and utilities sagged. A string of small losses was shown by electronics.

Through one square-shaped opening in the ceiling came the sunlight.

Exhibition Opened

The ceremony was followed by the opening of a Yad Vashem exhibition to commemorate the deeds against the Jewish people. It showed photographs, documents and the yellow scraps of rag, shaped like the Star of David which Hitler forced the Jews to wear in German-occupied Europe.

Among the documents were some which bore the name of the man now on trial: Adolf Eichmann. In one, he was quoted as rejecting the freeing of Jewish children "on reasons of principle."

Sirens blowing at 8 a.m. marked two minutes of silence for the city and the nation.

Eichmann spent the day in his secret court house cell, reportedly reading, and poring over the few notes he made for himself at the opening hearings.

Book Value Alone Won't Raise Price of a Stock

A) "I recently purchased Dresser Industries shares under 25. The book value of the stock is $26.69, and the shares looked cheap to me on that basis. What is the significance of book value here and in other cases?" J.B.

A) I'm afraid you are putting a lot of emphasis on a factor which is relatively unimportant as regards the price of a stock. In making an investment, the important thing is to keep your eye peeled for its earning power and growth. Book value—which is what the net assets per share are worth — can act as a floor under a declining situation. But it won't lift the share price by itself unless there is a chance of liquidation or at least a partial distribution of assets to shareholders.

Singer Manufacturing is a good example of the inability of book value to influence the price of a stock. For many years it traded far below its very conservatively stated net asset worth. It finally broke out on the upside in 1959, solely because of a change in management policy designed to lift earning power.

On the other hand, because oil exploitation has slowed down somewhat, it seems unlikely that well-managed Dresser can show any early improvement in profits or share prices. This is the controlling factor here, and the reason why I have recommended sale of the shares in this column.

Q) "I would like to buy one strong stock for growth. Any suggestions?" C. McI.

A) I have a great many, but the difficulty is to narrow the choice down to one stock. As a single selection, I like Purex Corporation (OTC), which is an extremely smart merchandiser of toiletries and cleaning products. A share split and a higher dividend are expected here, and I believe that recent fast growth can be projected well into the future.

Court Dismisses Last Tax Count Against Powell

NEW YORK (AP) — A federal district court today dismissed, at the government's request, the third and last count of an indictment charging Rep. Adam Clayton Powell Jr., D-N.Y., with income tax fraud.

Two other counts had been dismissed during the Harlem Negro's trial on the three counts last April. A jury had deadlocked on the third count.

The government said it lacked sufficient evidence for a re-trial on the third count—that Powell wilfully filed a false income tax return in behalf of his then wife, Hazel Scott, a pianist, for 1951.

It involved income Miss Scott earned on a foreign tour.

The other two counts dismissed in April by Federal District Judge Frederick van Pelt Bryan charged that Powell evaded $3,063 in taxes on a 1951 return and on the Powells' joint 1952 return.

WALLKILL NEWS

Legion Auxiliary Notes

WALLKILL — At the regular monthly meeting of the Ladies Auxiliary of the Rose-Sheeley Unit American Legion, Monday evening, Mrs. George Flockhart, president conducted the meeting.

Final plans have been made for the Penny social Friday evening, April 28, at the Legion Home. The Post will be open all Friday afternoon to accept donations.

A rummage sale is being planned for the future also.

Poppy Chairman, Mrs. Gertrude Eckert has received poppies and they will be distributed to the members. The poppies are made by the disabled veterans and the money is used for child welfare for veterans or their families.

A new wheel chair with leg extension was placed in the Public Health Loan Closet. The donation was made possible by the magazine drive conducted last fall by the Auxiliary. The chairman reported that all beds, chairs and walkers are now in use. They are available on loan free of charge to anyone living in the area, and having need of the equipment.

Women's Club Meets

The Wallkill Women's Club will hold its regular meeting Friday 7:30 p. m. at the Valley National Bank. This will be Walden and New Paltz Day and guests of the Wallkill group will be club members from these villages.

Mrs. Edmund Walther is program chairman for the afternoon with Mrs. John Scarzello as her co-chairman. Hobbies will be the topic for the afternoon; and all clubwomen are being contacted by card, asking that they bring a sample of their hobby to the meeting. Social chairman for the afternoon is Mrs. L. C. Edsall.

Vols Elect Officers

The Wallkill Fire Department held its annual election Monday evening.

John Washburn was voted as chief; Lawrence Mower, assistant chief; Kenneth Carr, assistant chief in charge of apparatus; Kenneth Berryann, assistant chief in charge of fire police; Francis Murphy, captain, Fred Roefer and Lee Totman, lieutenants.

Joseph Kazimir was voted president, Robert Roefer, vice president; Stanley Earle, financial secretary and treasurer; Fred Earl, recording secretary. Directors elected were Andrew Harcher, Peter Sowa, Joseph Doolittle, Lawrence Mower and Anthony Byczek.

A committee was formed for the summer auction to be held on the firehouse grounds.

Events Scheduled

The Wallkill Home Demonstration Unit regular meeting scheduled for Tuesday, April 18, has been postponed one week to April 25.

At that time, the business meeting will be held at 11 a. m. in the Valley National Bank Community Room, and at 1 p. m., the program will consist of a film showing Princess Beatrix of Holland during her trip to this country for the Hudson-Champlain celebration. The public may attend.

The regular monthly meeting of the Wallkill Chamber of Commerce will be held Monday evening, April 17th, at 8 p. m. in the central school cafeteria. President Thomas K. Wilson will preside at the business meeting, at which new directors will be elected, and also at the Board of Directors meeting 7:30 p. m.

The Wallkill Bible Study Group of the Wallkill Reformed Church will hold its monthly meeting Tuesday, April 18, at 8 p. m. in the church hall. The Bible word is Seek, and Mrs. George Brach will lead the devotions.

The Rosary Altar Society of St. Benedict's Church will hold its monthly meeting at the Valley National Bank Community Room Tuesday, April 18 at 8 p. m.

The Ivanhoe Lodge of Knights of Pythias have postponed its annual roast beef dinner originally announced for Wednesday, April 19. The dinner will be rescheduled later.

Brownies of Mrs. Margaret Mack's troop have made and donated scrapbooks to entertain children at the Wallkill Public Health Clinic.

ReformedChurchNotes

Thursday, 3 p. m., the junior choir will hold a regular choir rehearsal, and at 7:30 p. m., the senior choir will rehearse at the Wallkill Reformed Church.

Sunday, the service will be conducted by the Rev. Sharon Scholten, a former pastor of New Prospect Church at 11 a. m.

Sunday school will be at the regular time, 10 a. m. with Superintendent Harry Vogt in charge.

Tuesday, April 18, the spring meeting of the Women's Classical Union of Orange will be held at Warwick Estates.

Tuesday Bible study group will meet 8 p. m. in the church hall. The Bible word is Seek, and Mrs. George Brach will be the leader of devotions.

THEY'LL DO IT EVERY TIME (Registered U. S. Patent Office) **By JIMMY HATLO**

Do You Remember *by Sophie Miller*

It is often strange how museums and libraries get a start. The world famous British Museum got started because of an Irishman. His name was Sir Hans Sloane, a physician and naturalist, who was born in Ireland in 1660.

He had devoted many years to collecting valuable books and manuscripts and other important items, spending some $250,000 on his collection. In his will he stated, that if the government would pay some $100,000 to his heirs, they could have his $250,000 collection. Perhaps we need something like that to start a Marine Museum in Kingston, although so many other places have one going and are making millions on it, by the time we get around to it, folks will be interested in something else.

At the time the British government looked favorably on Sloane's collection and even bought at the same time, the Harleian manuscripts, and the Cottonain library of manuscripts. Where to put it was the question, so using a very popular idea, they ran a lottery to raise some $500,000. In this fashion they bought the famous collections, and bought Montague's House, a house and gardens covering some seven acres and spent about $65,000 for repairs.

This British museum was first opened on January 15, 1759, which was to be followed by a finer edifice begun in 1823.

The architect chosen was born in London on Oct. 1, 1781, and when he was only 26 he was appointed architect to the Board of Trade, and that year began to build the Mint on Tower Hill, besides beautiful castles, theatres and other buildings but the British Museum made him famous.

Locally we talk about a new Main Post Office, and other changes. Sir Robert Smirke at the time was working on several biuldings and one was the General Post Office, the famous St. Martin's-le-Grand.

To make room for this building he had to pull down some 131 old houses, in which nearly 1,000 people lived. When finished, it was known as the largest post-office in the world, and since then has ben greatly extended. Those who wish to make so many changes in Kingston know some of these famous buildings in London, perhaps as soldiers visiting there or just visitors.

Smirke's task was not so easy for they insited that the Montague House which was to be taken down and the British Museum put up, had to be done little by little so that people could come in and read and study day by day while one building was carefully taken down and the other magnificent structure put up so it would not disturb the people too much.

It was not one of those hurry up jobs of quick pouring cement and blocks, the British Empire and Sir Robert Smirke wanted it to be a structure such as the great builders of the Roman Empire made. For the front of the museum they used some 800 solid pieces of stone weighing from five to nine tons each. Sir Robert Smirke worked on it until 1846, then his brother, Syndney Smirke, another gifted architect took over. The British Museum cost about four million which was some $250,000 more than the cost of St. Paul's Caethedral.

Around about our own Ulster County, Rondout Creek and other parts we have some interesting rocks. I often wonder why they are not used for foundations and other parts of buildings nowadays so they can be admired for centuries to come.

No Easy Solution in Sight

Intra-Party Fight Could Hurt Democrats in N.Y.C.

By ROBERT T. GRAY

ALBANY, N. Y. (AP) — The problems of the New York State Democratic organization are growing worse, and no quick or easy solutions are in sight.

A recent move to resolve the leadership battle that has rent the party failed. The present state chairman, Michael H. Prendergast, refused to step aside in favor of Peter J. Crotty, Erie County chairman.

Crotty had the backing of President Kennedy, who wants new Democratic leadership in New York State.

Strife to Continue

But, in refusing to budge, Prendergast gave forceful evidence that he means it when he says he is not going to quit for anyone.

As a result, it appears that the party strife will go on at least until June 1962, when Prendergast's present term as state chairman expires.

Tammany Leader Carmine DeSapio is at the center of the party fight, which broke out when a group of insurgents called for his ouster.

The insurgents maintain that DeSapio has become a symbol of old-fashioned political bossism and is out of place in 1961 politics.

Prendergast stood by DeSapio and shortly thereafter became a chief target himself.

In attempting to force Prendergast out, the Kennedy administration bypassed him on federal patronage and is dealing directly with county chairmen in some instances.

Patronage Held Back

But many chairmen are said to fear that the national administration is withholding the bulk of patronage until Prendergast is replaced.

There are other party problems. Democrats face a key election in New York City this year. The intra-party fighting is at its peak there.

Mayor Robert F. Wagner has split with Tammany Hall, the regular Manhattan Democratic organization.

The insurgents, headed by former Gov. Herbert H. Lehman, have not yet said whether they would support Wagner, who is expected to seek re-election.

There remains the possibility of a primary fight that could weaken the party.

Republicans are watching developments closely. They hope to organize a fusion drive to win control of New York's city hall from the Democrats but they are in no hurry to move so long as the Democrats continue to widen party rifts.

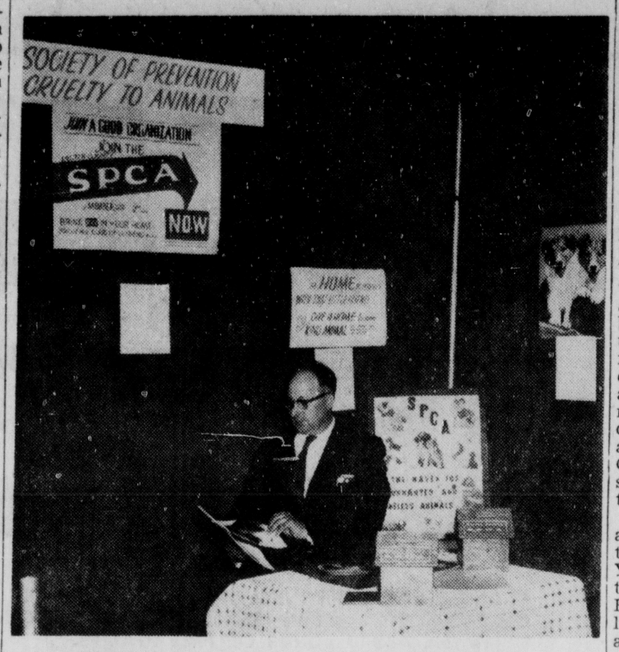

The GOP leaders hope to include Republicans, dissident Democrats and Liberals in a fusion movement.

Potential opponents for Wagner in the Democratic primary in September are the city comptroller, Lawrence E. Gerosa, and former police commissioner Stephen Kennedy. Wagner has broken with both men in policy disputes.

To Address Accountants

Dr. Charles Reitell, executive director, The Zurn Foundation, New York City, will be the principal speaker at the regular dinner meeting of the Mid-Hudson Chapter of National Association of Accountants on Monday, April 17 at 6:30 p. m. at the Nelson House, Poughkeepsie. His subject will be "Direct Cost of Small Enterprise." Dr. Reitell is also a management consultant. He received his education at the Wharton School of Finance, University of Pennsylvania where he was awarded the B. S. degree. Graduate work earned him an M.A. from the University of Wisconsin and the Ph.D. degree from the University of Pennsylvania.

Largest and finest palace in England is Hampton Court, near London.

KINDNESS TO ANIMALS STRESSED—James Stoutenburgh of the Ulster County Chapter, association for Prevention of Cruelty to Animals, is ready with literature and advice on how to have smart, healthy and happy pets at the association's booth, one of those featured at the Kingston Lions Club Exposition at the 156th Artillery Armory, Manor Avenue. Doors open at 7 p. m. (Freeman photo).

Old Timer's Civil War Notes

One of the best known Ulster County veterans of the Civil War was Dwight Divine, Ellenville merchant, banker and industrialist who was born at Divine's Corners, son of John H. and Maria Childs Divine. Enlisting in the 143rd Regiment, N. Y. State Volunteers, he was made a captain at the Battle of Bentonville and later was commissioned brevet-major. Divine first was under fire at Suffolk, Va., and from that time on the 143rd was constantly at the front and in active service. The regiment moved up the peninsula in a demonstration against Richmond around Fredericksburg and Chancellorsville. They also were sent on the trying forced march to Gettysburg.

Captain Divine was sent with a detachment to help cope with the great draft riots in New York City and during his absence the 143rd was transferred to Hooker's Army of the Cumberland. They were in the fighting at Lookout Mountain, Missionary Ridge and the almost continuous engagements below Chattanooga. Rejoining his comrades, Divine participated in Sherman's March to the Sea and was constantly with the regiment until Johnston's surrender at the end of the war. General Hooker in the course of a farewell address in front of the Astor House, remarked that he could truthfully say of the 143rd Regiment, "The Johnnies never saw their backs." The regiment's aggregate losses at Peach Tree Creek and Golgotha alone were 48 and 76 men respectively.

Brevet-Major Divine was commander of Ward Post, 191, Grand Army of the Republic. He married Millicent J. Hatch of Monticello and their children were Allie, Charles D., Jennie and John H. Divine. He possibly was a resident of Sullivan County at the time of his enlistment as practically all recruiting for the 143rd was done there. Enlistment stations not far from the Ulster County line included Grahamsville, Neversink and Wurtsborough. John C. Holly had received authority to raise the regiment, Companies A to K, and it was organized and mustered in with Col. David P. Dewitt as its first commander. The regiment's six commissioned officer deaths included Lt. Col. Joseph P. Taft, killed Nov. 25, 1863 in action at Chattanooga, Tenn.

Other veterans who lived over Ellenville way included Jacob Dewitt, Leibhardt man who married Delight Hornbeck. The couple had five children. One of Jacob's grandsons, Arlington Brown, was also a grandson of another veteran, Wm. S. Brown. Another old soldier at Leibhardt, a Town of Rochester lumbering sector a few miles below Samsonville, was Jack Quick, sawmill man who lived next to the schoolhouse. He was father of Albert Quick. There are still a lot of Quicks over in the hills around Leibhardt, Tabasco, Pataukunk, Mettacahonts and Mombaccus, and possibly each and every one of them is a descendent of Tom Quick, redoubtable Indian fighter who made considerable progress in his dedicated purpose of exterminating Redskins in the wilds of the upper Rondout Valley.

'Masked' Burglars

LATHAM, Ill. (AP) — Robbers were stopped in their effort to open a grain elevator office when a smoke bomb exploded. But they weren't stopped for long. They broke into a nearby fire station, stole some gas masks and finished the job of opening the safe. The take: $150.

matter of FACT

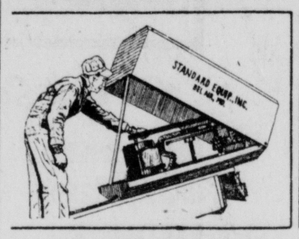

After the first atomic bomb exploded, the saying was that the third world war would be fought with atomic weapons and the fourth with bows and arrows. But bows and arrows are becoming important equipment sooner than many expected. Some U.S. Army units are practicing with them already. The lightness and silence of the bow and arrow make it perfect for guerrilla operations in "limited" wars.

Doom crabgrass the day you seed

One-day way to improve your lawn

It doesn't take hard work or expert skill to transform a frustrating lawn into a satisfying one. It doesn't even take a lot of time. In just one afternoon you can keep crabgrass from plaguing you again this year, *and* plant that better lawn you want. The answer to crabgrass is HALTS®. It lies in wait, kills crabgrass *as it sprouts*. Yet HALTS lets good grass sprout unharmed, so you can sow all-perennial Scotts seed the same day. Non-burning TURF BUILDER® completes the job, gives new and established grass the protein-building nutrition it needs to thrive.

Ask us about the Scotts guarantee... a better lawn or your money back!

Old Timer's Civil War Notes

One of the best known Ulster County veterans of the Civil War was Dwight Divine, Ellenville merchant, banker and industrialist who was born at Divine's Corners, son of John H. and Maria Childs Divine. Enlisting in the 143rd Regiment, N. Y. State Volunteers, he was made a captain at the Battle of Bentonville and later was commissioned brevet-major. Divine first was under fire at Suffolk, Va., and from that time on the 143rd was constantly at the front and in active service. The regiment moved up the peninsula in a demonstration against Richmond around Fredericksburg and Chancellorsville. They also were sent on the trying forced march to Gettysburg.

Captain Divine was sent with a detachment to help cope with the great draft riots in New York City and during his absence the 143rd was transferred to Hooker's Army of the Cumberland. They were in the fighting at Lookout Mountain, Missionary Ridge and the almost continuous engagements below Chattanooga. Rejoining his comrades, Divine participated in Sherman's March to the Sea and was constantly with the regiment until Johnston's surrender at the end of the war. General Hooker in the course of a farewell address in front of the Astor House, remarked that he could truthfully say of the 143rd Regiment, "The Johnnies never saw their backs." The regiment's aggregate losses at Peach Tree Creek and Golgotha alone were 48 and 76 men respectively.

Brevet-Major Divine was commander of Ward Post, 191, Grand Army of the Republic. He married Millicent J. Hatch of Monticello and their children were Allie, Charles D., Jennie and John H. Divine. He possibly was a resident of Sullivan County at the time of his enlistment as practically all recruiting for the 143rd was done there. Enlistment stations not far from the Ulster County line included Grahamsville, Neversink and Wurtsborough. John C. Holly had received authority to raise the regiment, Companies A to K, and it was organized and mustered in with Col. David P. Dewitt as its first commander. The regiment's six commissioned officer deaths included Lt. Col. Joseph P. Taft, killed Nov. 25, 1863 in action at Chattanooga, Tenn.

Other veterans who lived over Ellenville way included Jacob Dewitt, Leibhardt man who married Delight Hornbeck. The couple had five children. One of Jacob's grandsons, Arlington Brown, was also a grandson of another veteran, Wm. S. Brown. Another old soldier at Leibhardt, a Town of Rochester lumbering sector a few miles below Samsonville, was Jack Quick, sawmill man who lived next to the schoolhouse. He was father of Albert Quick. There are still a lot of Quicks over in the hills around Leibhardt, Tabasco, Pataukunk, Mettacahonts and Mombaccus, and possibly each and every one of them is a descendent of Tom Quick, redoubtable Indian fighter who made considerable progress in his dedicated purpose of exterminating Redskins in the wilds of the upper Rondout Valley.

'Masked' Burglars

LATHAM, Ill. (AP) — Robbers were stopped in their effort to open a grain elevator office when a smoke bomb exploded. But they weren't stopped for long. They broke into a nearby fire station, stole some gas masks and finished the job of opening the safe. The take: $150.

matter of FACT

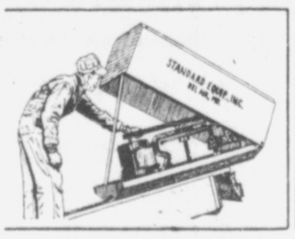

After the first atomic bomb exploded, the saying was that the third world war would be fought with atomic weapons and the fourth with bows and arrows. But bows and arrows are becoming important equipment sooner than many expected. Some U.S. Army units are practicing with them already. The lightness and silence of the bow and arrow make it perfect for guerrilla operations in "limited" wars.

Dudleys to Get Hearing Tuesday

ASHLAND, Va. (AP)—Mr. and Mrs. Kenneth E. Dudley, itinerant carnival workers charged with murder by starvation of their 8-year-old daughter, will get a preliminary hearing in county court here Tuesday.

The Dudleys are charged in the death of Carol Ann Dudley, who authorities say died at a Hanover County truck stop the night of Feb. 1-2. Her body was found near Lawrenceville on Feb. 9.

The couple told police four other children died and their bodies were disposed of during a 2½-year trip across the country. One other child's body has been recovered.

Dudley, 47, and his wife Irene, 44, are in jail in Richmond in lieu of $2,500 bond each.

GM Plea On Indictment Due Monday

NEW YORK (AP) — General Motors Corp. has been indicted on a charge of criminally monopolizing production and sale of diesel locomotives and suppressing competition in the industry.

A one-count indictment against GM was returned here Wednesday by a federal grand jury, acting on evidence presented by the Justice Department's antitrust division.

Frederick G. Donner, chairman of the GM board, commented: "General Motors is not guilty of the monopolistic practices charged in the indictment. This will be clearly established at the trial."

The corporation is scheduled to plead in federal district court next Monday. If convicted, it could be fined up to $50,000.

Atty. Gen. Robert F. Kennedy said in Washington that the charge against GM—violation of the Sherman Antitrust Act—resulted from a two-year investigation.

The indictment says GM used illegal sales methods to suppress competition and capture more than 84 per cent of the locomotive business for its electromotive division.

Citing GM as "probably the nation's largest shipper of freight," the indictment charges that GM routed shipments to favor purchasers of its locomotives, and withheld or reduced patronage to lines buying diesel locomotives from GM competitors.

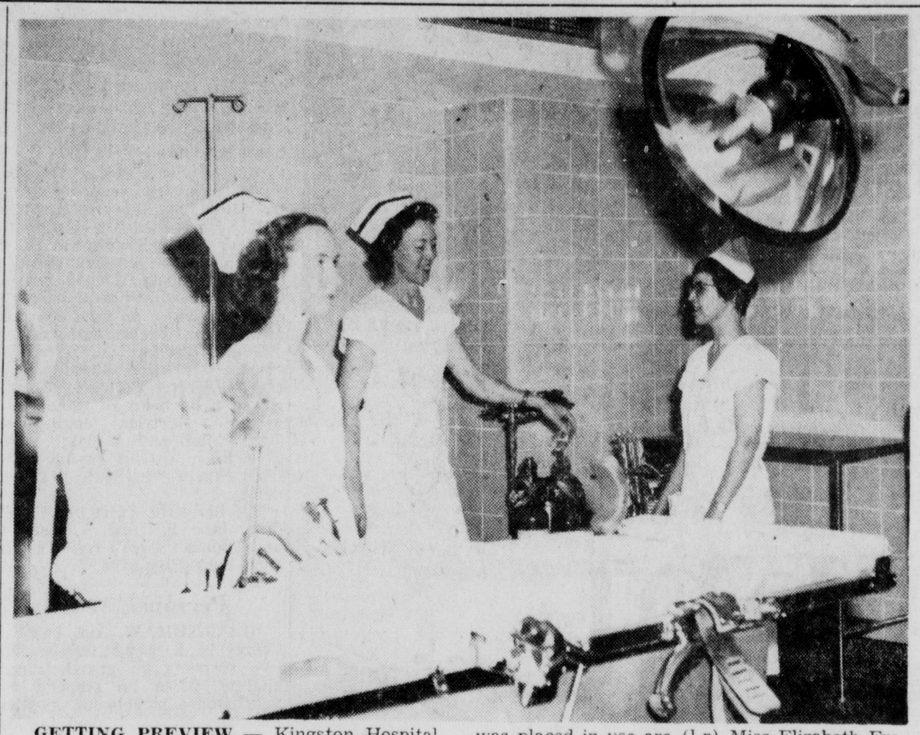

Other accusations are that GM took part in drawing up specifications for use in bidding—shutting off other manufacturers from competition—and selling locomotives at a loss wherever it had competition.

GM entered the locomotive industry in 1930. In 1960, it had total net sales of $12.7 million. The government charges that GM had acquired 84 per cent of the locomotive business, and since 1946 sold locomotives with a total value of $2,681,545,429.

GETTING PREVIEW — Kingston Hospital staff nurses familiarizing themselves with new delivery room and equipment shortly before it was placed in use are (l-r) Miss Elizabeth Freligh, Mrs. Catherine Atkinson and Mrs. Arlene Breitung.

Kingston Hospital Using New Labor, Delivery Room

A new labor and delivery suite has been placed in service at The Kingston Hospital, marking completion of the present construction contract, it was announced today by Robert M. Schnitzer, administrator.

The new maternity department facilities are located in the rear section of the third floor and contain two delivery rooms, five labor beds, and ancillary facilities such as piped oxygen and suction, conductive flooring and air conditioning.

Previous work in that department resulted in establishment of new nursery units and an increase in capacity from 18 beds to 31.

The new delivery rooms are located at the juncture of an "L" with the new section of patient bedrooms in the new wing on the one leg, and the completely remodeled rooms in the older maternity section on the other.

The entire suite was designed with the patient—and the husband—in mind. For instance, a telephone in the delivery room enables the new mother to flash the word to her anxious husband even before she gets back to her own room. Everything has been done to avoid the "clinical" look about the suite.

The nursery, opened late in 1959, consists of two nursery rooms entered from a workroom unit in between. A "picture window" in each of the nursery rooms permits husbands to view their offspring.

The rooms for mothers are provided with modern attractive equipment, including a "high-low" bed which can be cranked down to the level of home beds to permit the patient to get in and out without groping for the elusive step-stool so long a feature in hospitals.

For the past several years, the number of births at Kingston Hospital has averaged about 800 a year. Sometimes as many as eight or more deliveries are made in a single day.

Supervising the maternity department is Mrs. Ethyl M. Montafia, RN, a former public health nurse who came to Kingston Hospital from the Ulster County Health Department in 1959.

Improvements in the maternity department are a part of the hospital's over-all development plan made possible by special community-wide fund raising efforts, by federal assistance and by bequests.

Washington Mum To Guard U. S. Tracking System

By FRED S. HOFFMAN

WASHINGTON (AP)—The Kennedy administration is keeping a tight lip on information about Soviet space shots and Pentagon officials said today the aim is to avoid giving the Soviets an idea of the effectiveness of U.S. tracking facilities and intelligence.

Officials, who told this to a reporter, said another purpose was to deny the Soviets what was termed advertising on their space achievements.

A Defense Department spokesman said that among other things, there would be no public disclosure when U.S. tracking stations pick up a Soviet rocket launching until after the Soviets announce it themselves.

The policy was developed in meetings among officials of the White House, the State and Defense departments, the National Aeronautics and Space Administration and the Central Intelligence Agency, officials said. They indicated it might possibly be changed at some future time.

The policy was described as an extension of one formed late in the Eisenhower administration. NASA then was assigned as the outlet for unclassified orbital information on satellites.

There was considerable confusion Wednesday when newsmen sought information from NASA on the Soviet manned space craft.

Space agency officials said they had been tracking an object in the approximate path of the vehicle, but that it presumably was the burned out casing of the rocket that carried the craft into orbit. The first contact they reported came some hours after the Soviets said their cosmonaut had returned to earth in his capsule.

During the past several days, while rumors of a Soviet man-in-space shot were growing, newsmen sought to find out whether any Soviet instrument ships had been spotted in the Pacific, a possible sign that some Soviet space try was in the wind.

While this information had been given freely in the past, the Navy this time declined comment. And even after the man-in-space feat had been announced by Moscow, the Pentagon still refused to say whether such this were in the Pacific.

Mexico City's national palace, begun in 1692, occupies the spot where Montezuma held court.

NELSON O. HEYER

Katrine Resident Is Named to IBM Post in New York

The appointment of Nelson O. Heyer, formerly of Lake Katrine, as administrative assistant to the IBM manager of employment and education, New York City, has been announced by Gordon Moodie, IBM director of personel.

Heyer joined IBM in 1947 as a customer engineer in New York City. He was named a technical engineer in test engineering at the IBM Poughkeepsie plant in 1953. He joined the Command Control Center two years later as manager of employment for field engineering. He was named field engineering personnel manager in 1956, a post he has held until his present appointment.

Heyer serves as his class treasurer of the Alumni Association, Union College. He received a bachelor of science degree in electrical engineering from Union and a master's degree in industrial management from Stevens Institute of Technology.

He, his wife, Nora, and children, Jane, 9, Anne, 8, Susan, 6, and Thomas, 4, will reside in the New York City area.

To Close Buffalo Plant

BUFFALO, N.Y. (AP) — The production of Wildroot Hair Tonic, conducted in Buffalo for 50 years, will end by mid-July, the Colgate Palmolive Co. says.

Colgate which purchased the business from the late Harry J. Lehman for $14 million two years ago, said Wednesday the operation would be conducted at its other plants.

Rising costs and duplication of operations was given as the reason for the shutdown of the plant. About 90 persons are employed here, but there was no indication that transfer of personnel would be made.

Teamsters Plan U.S. Drive to Amend ISC Law

Several meetings of Teamsters Local 445 have been held in Newburgh and Yonkers for the purpose of kicking off a nationwide campagin to amend the Interstate Commerce Act to prevent railroads from invading and pirating the trucking industry and destroying Teamster jobs, it was announced today.

Local 445 also plans a membership meeting in Newburgh Friday when this subject is scheduled to be the main topic of business.

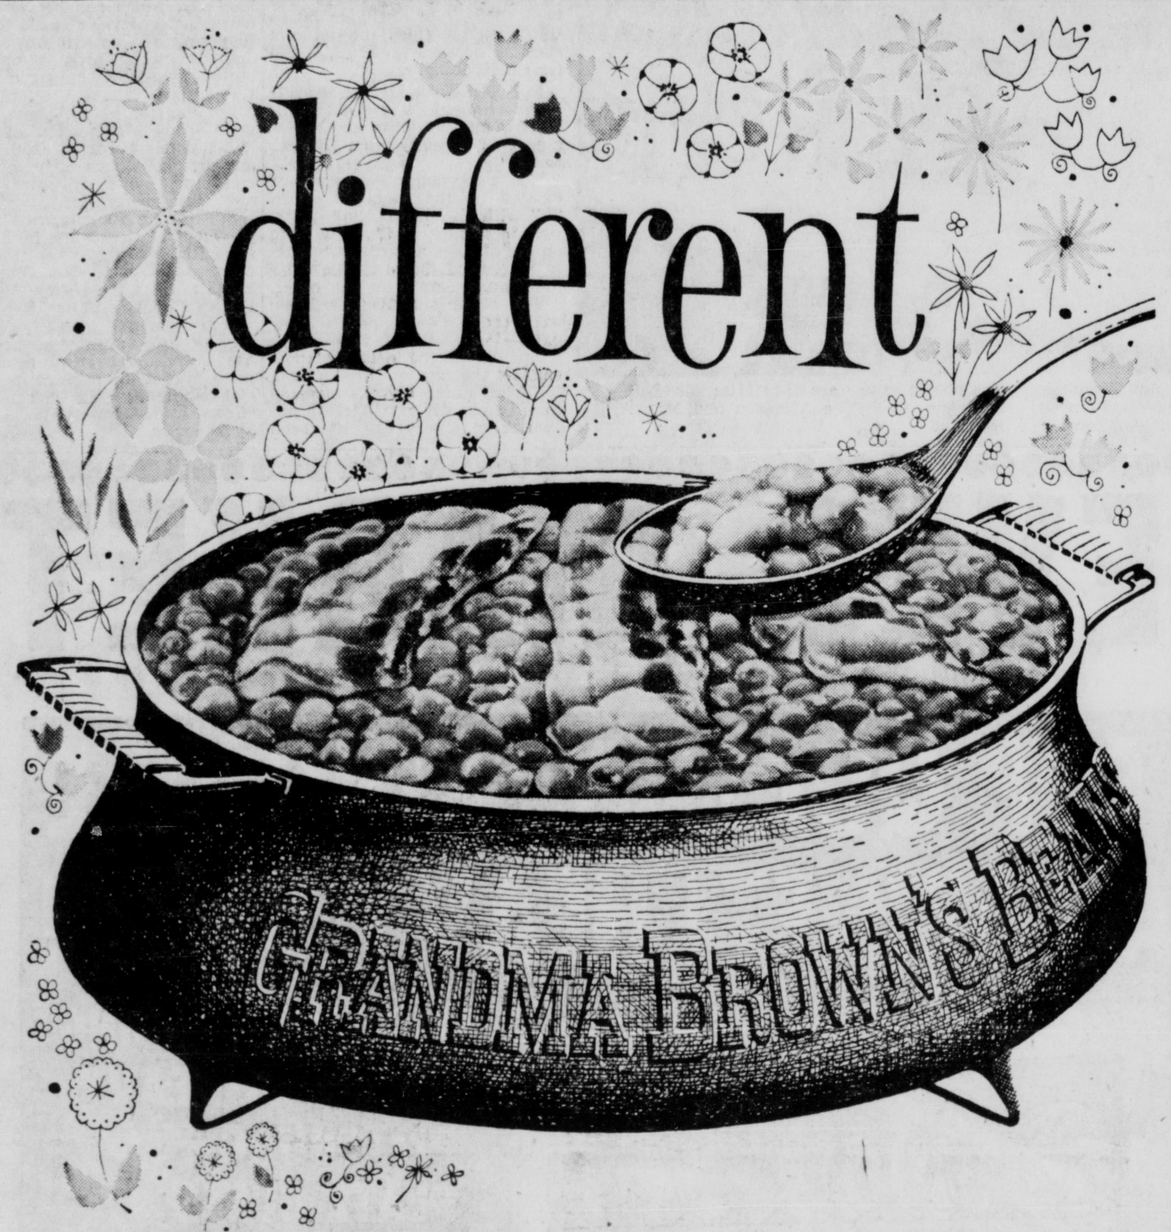

The announcement came from Theodore G. Daley, secretary-treasurer of Teamster Local 445. He said the meetings were the start of approximately 200 similar meetings of Teamster members in cities throughout the nation.

Messages from Senator A. S. (Mike) Monroney of Oklahoma and Teamster General President James R. Hoffa will highlight the meetings although neither will make a personal appearance, Daley added.

different

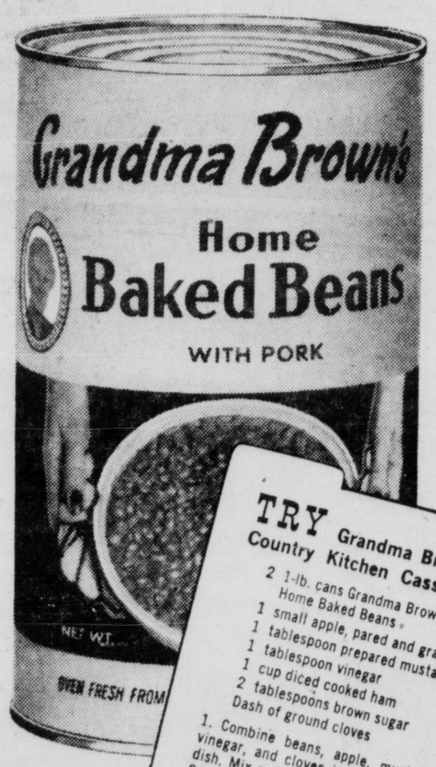

Entirely different from ordinary "City Beans" which have lost their natural flavor to tomato sauce!

* The instant you open a can of delicious Grandma Brown's Home Baked Beans and see that natural bean color . . . you'll know they're different from ordinary boiled beans drenched in liquid fillers.

These choice beans are prepared the old-fashioned way . . . soaked and simmered for hours, then s-l-o-w baked in small, open pans till they're soft, tender, and digestible.

The *taste* is even more surprising! . . . the wholesome, nourishing goodness of country-kitchen flavor.

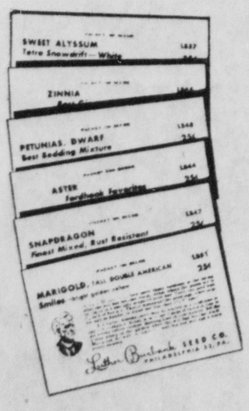

With Grandma Brown's Home Baked Beans add your own special touch! The wonderful *natural flavor* allows you to create all sorts of hearty bean casseroles. Sprinkle with brown sugar before heating or add onions if you like . . . or blend in morsels of ham, bacon, sausage, or salt pork. You can serve Grandma Brown's Home Baked Beans often because they lend themselves to endless variations. Unless you say, "Confidentially, they are Grandma Brown's," nobody will know they're not completely homemade. After all, the recipes are *yours*.

TRY Grandma Brown's Country Kitchen Casserole

Washington Mum To Guard U. S. Tracking System

By FRED S. HOFFMAN

WASHINGTON (AP)—The Kennedy administration is keeping a tight lip on information about Soviet space shots and Pentagon officials said today the aim is to avoid giving the Soviets an idea of the effectiveness of U.S. tracking facilities and intelligence.

Officials, who told this to a reporter, said another purpose was to deny the Soviets what was termed advertising on their space achievements.

A Defense Department spokesman said that among other things, there would be no public disclosure when U.S. tracking stations pick up a Soviet rocket launching until after the Soviets announce it themselves.

The policy was developed in meetings among officials of the White House, the State and Defense departments, the National Aeronautics and Space Administration and the Central Intelligence Agency, officials said. They indicated it might possibly be changed at some future time.

The policy was described as an extension of one formed late in the Eisenhower administration. NASA then was assigned as the outlet for unclassified orbital information on satellites.

There was considerable confusion Wednesday when newsmen sought information from NASA on the Soviet manned space craft.

Space agency officials said they had been tracking an object in the approximate path of the vehicle, but that it presumably was the burned out casing of the rocket that carried the craft into orbit. The first contact they reported came some hours after the Soviets said their cosmonaut had returned to earth in his capsule.

During the past several days, while rumors of a Soviet man-in-space shot were growing, newsmen sought to find out whether any Soviet instrument ships had been spotted in the Pacific, a possible sign that some Soviet space try was in the wind.

While this information had been given freely in the past, the Navy this time declined comment. And even after the man-in-space feat had been announced by Moscow, the Pentagon still refused to say whether such this were in the Pacific.

Mexico City's national palace, begun in 1692, occupies the spot where Montezuma held court.

NELSON O. HEYER

Katrine Resident Is Named to IBM Post in New York

The appointment of Nelson O. Heyer, formerly of Lake Katrine, as administrative assistant to the IBM manager of employment and education, New York City, has been announced by Gordon Moodie, IBM director of personel.

Heyer joined IBM in 1947 as a customer engineer in New York City. He was named a technical engineer in test engineering at the IBM Poughkeepsie plant in 1953. He joined the Command Control Center two years later as manager of employment for field engineering. He was named field engineering personnel manager in 1956, a post he has held until his present appointment.

Heyer serves as his class treasurer of the Alumni Association, Union College. He received a bachelor of science degree in electrical engineering from Union and a master's degree in industrial management from Stevens Institute of Technology.

He, his wife, Nora, and children, Jane, 9, Anne, 8, Susan, 6, and Thomas, 4, will reside in the New York City area.

INSURANCE MEN HONORED — Two local insurance men were honored recently at a testimonial dinner by insurance agents of Local A-93 and their wives. Principals at the dinner are (seated l-r) Mrs. LeRoy Vogt, Mrs. Max Shine and Mrs. James Rapp. Standing, LeRoy Vogt, who has been an agent for 30 years; Max Shine, vice president of the International Union of Insurance Agents who was guest speaker and James Rapp, who has 20 years service as an agent. Both men are representatives of the Prudential Insurance Company. (Photo Workshop photo)

To Close Buffalo Plant

BUFFALO, N.Y. (AP) — The production of Wildroot Hair Tonic, conducted in Buffalo for 50 years, will end by mid-July, the Colgate Palmolive Co. says.

Colgate which purchased the business from the late Harry J. Lehman for $14 million two years ago, said Wednesday the operation would be conducted at its other plants.

Rising costs and duplication of operations was given as the reason for the shutdown of the plant. About 90 persons are employed here, but there was no indication that transfer of personnel would be made.

Teamsters Plan U.S. Drive to Amend ISC Law

Several meetings of Teamsters Local 445 have been held in Newburgh and Yonkers for the purpose of kicking off a nationwide campagin to amend the Interstate Commerce Act to prevent railroads from invading and pirating the trucking industry and destroying Teamster jobs, it was announced today.

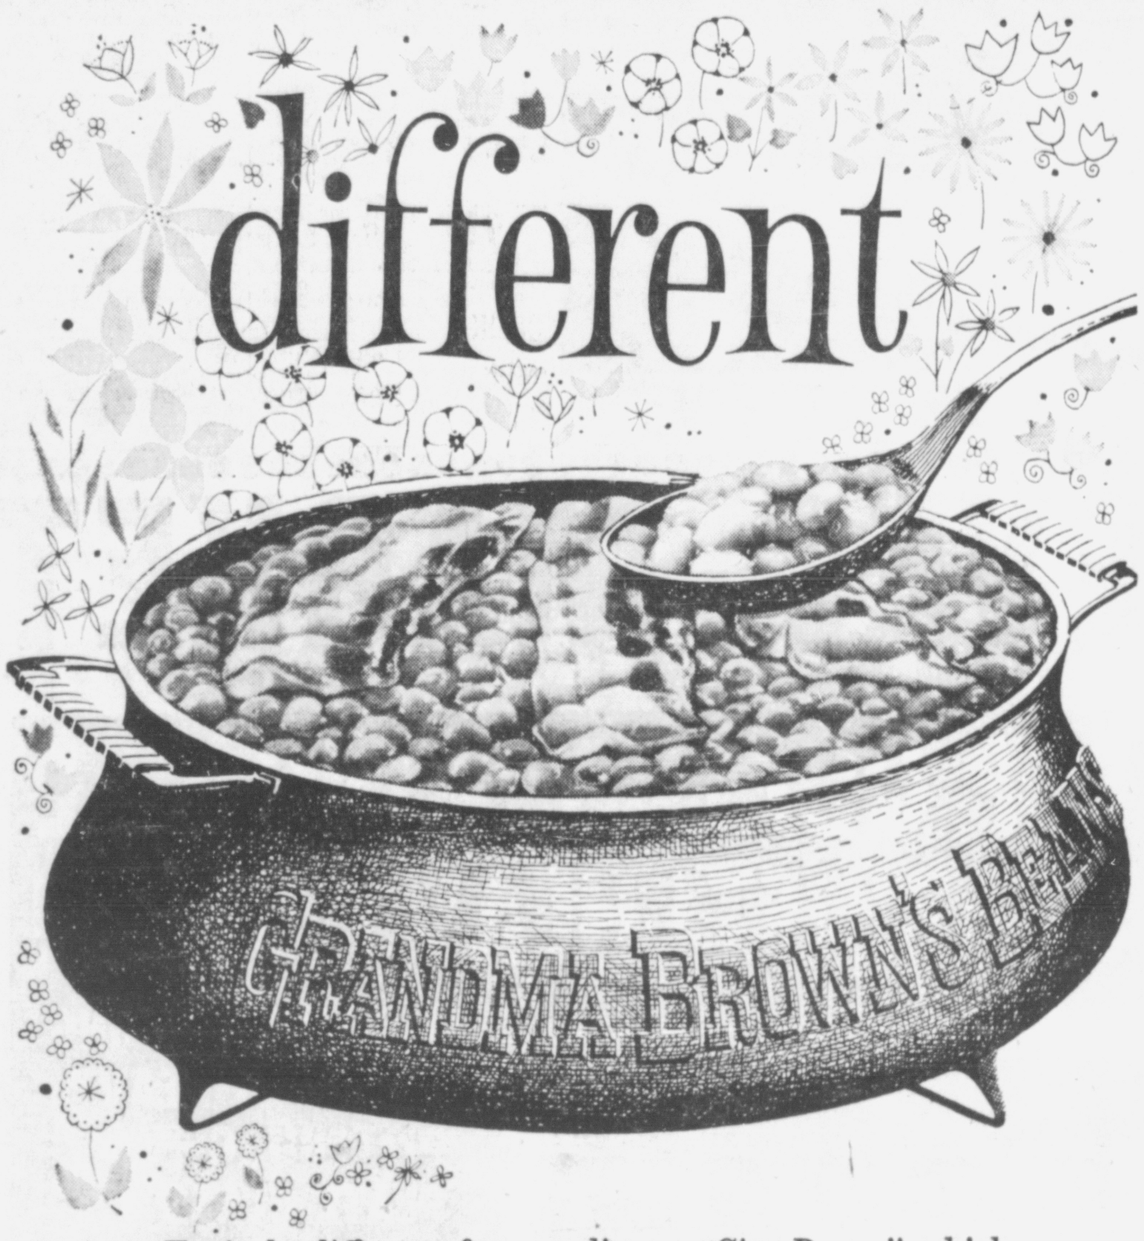

Local 445 also plans a membership meeting in Newburgh Friday when this subject is scheduled to be the main topic of business.

The announcement came from Theodore G. Daley, secretary-treasurer of Teamster Local 445. He said the meetings were the start of approximately 200 similar meetings of Teamster members in cities throughout the nation.

Messages from Senator A. S. (Mike) Monroney of Oklahoma and Teamster General President James R. Hoffa will highlight the meetings although neither will make a personal appearance, Daley added.

Sector to Expand Industrially Is Tip to YM Club

At its April meeting this week Kingston Industrial Management Club heard that between now and 1970 there will be an influx of new industries in and around Ulster County.

Principal speaker at a dinner in Aiello's was W. Dale Swartzmiller, regional director of the Department of Commerce, State of New York.

He told the club sponsored by the YMCA that there will be great growth in the Mid-Hudson Valley, including the Ulster County area.

Swartzmiller pointed out that the industrial expansion will mean a large addition to the population between now and 1970, which is bound to create more business.

With the expansion should come some trade schools, he said, as well as a community college. Railroads are also planning to improve facilities for the business boom, he added.

Officers elected besides those in the photo were Maurice Duffy, vice president; Charles Pugliese, treasurer; Thomas Turck and Clifford Every, immediate past president, directors.

It was announced that the May meeting will be in the YMCA with a buffet supper, a recreation period following, featuring swimming and games.

Two members of the local club were elected to office last week at the meeting of Yonkers Zone No. 4, Clifford Every, treasurer and Robert Anderson, a director. President Cuerdon and Y general secretary, Schafer, also attended the meeting.

There are nine YMCA Industrial Management clubs in Zone No. 4, which takes in territory from Hudson to Brooklyn.

INDUSTRIAL MANAGEMENT OFFICERS —At its 12th annual dinner this week, Kingston Industrial Management Club, sponsored by the YMCA, officers for 1961 assumed their duties, and the organization heard a talk on future development in the Mid-Hudson area, in and around Ulster County. At the head table in Aiello's Restaurant are (l-r) Louis H. Schafer, executive secretary of the YM; Alfred R. Cuerdon, new president; Clifford Every, retiring president; and W. Dale Swartzmiller, regional director of the Department of Commerce, State of New York, guest speaker. (Freeman photo).

Events Planned By Cub Pack 3

St. Joseph's Cub Scout Pack 3 held its committee meeting Sunday in the school hall. Plans were made for annual kite contest to be held at Hasbrouck Park April 23 at 3 p. m. Awards will be given.

It was also announced that the next round table would be held at the Reformed Church in Hurley. April 30 has been designated as charter night. Cubs will meet in the school hall and go to the church in a body at 6:45 p. m. The theme for the month of May is Indian Country. Plans are being made for the June picnic.

Dr. Clement Angstrom was awarded the Silver Beaver citation for his service.

Catskill Board Slates Meeting

John J. Whelan, district game manager of Stamford has announced that the spring regional meeting of the Catskill district advisory board will take place Tuesday, April 18, at the Delaware Inn, Stamford. The dinner will be served at 7:30 p. m. and reservations are urged to be in no later than tomorrow.

The purpose of the meeting is to decide what this district recommends for the small and big game hunting season this fall so that the district representative, Otto Franck can present the proposals at the council's game committee meetings.

Several other important items will need consideration at the time such as split opening dates vs. uniform opening, season dates for small game, bag limits, etc., party permit system, late bear season in certain counties plus other discussions concerning game recommendations.

The New York State Conservation council committee meetings on small and big game have been scheduled in Syracuse on April 29 and 30.

Any other information concerning the meetings can be obtained by contacting Frank Hornbeck, Ulster County federation game chairman, Elmendorf street, Kingston.

Student Essays Against Raising Driver Age Limit

Should the age for auto drivers' licenses be raised to 21?

A definite "no" is the answer of young people representing 90 per cent of the students in more than 200 public, private and parochial schools in New York State.

The remaining 10 per cent agrees that motor vehicle accidents can be curbed by raising the driving age to 21 .

The opinions of the students are contained in essays submitted by them in the annual contest sponsored by New York State Attorney General Louis J. Lefkowitz.

The winner of the contest, soon to be announced will serve as "Attorney-General-for-a-Day" and "hold office" in the State Capitol at Albany. The four runners-up will be "sworn-in" as solicitor general, executive assistant attorney general and first and second assistant attorneys general.

"Raising the minimum age requirement of new drivers would never guarantee emotional maturity and good judgment in the driver, since these qualities are not necessarily related to age," is the incisive comment of one high school student.

Dairymen Oppose New Milk Code, Declare It Vague

WASHINGTON (AP) — Proposed legislation for a national sanitation code for milk actually may serve to shake consumers' confidence in milk, three dairy organizations contend.

The organizations, claiming to represent 30,000 dairymen in the New York-New Jersey milkshed, registered their opposition to the measure Wednesday in a statement submitted at a hearing of a House subcommittee on agriculture.

They were the Metropolitan Cooperative Milk Producers Bargaining Agency, the Mutual Federation of Independent Cooperatives and the Dairymen's League Cooperative Association.

They said the proposed code, which would be administered by the Department of Agriculture, was vague, indefinite and "a poor substitute for the efficient and well established standards" of federal marketing orders.

The proposed legislation "gave no evidence that a uniform high level of sanitation would be achieved under its provisions," the statement said.

The groups said consumers had confidence in the quality of milk, and concluded:

"Any legislation that may, in reality, serve to lessen that consumer confidence would be an overwhelming disservice to milk producers throughout the ... nation."

Some Northeastern dairymen have expressed fears that the proposed code would open the way for dumping of surplus Midwestern milk in Eastern markets.

Steak will be the treat at some dinner tables Sunday, judging by the offerings of supermarkets and neighborhood groceries this week.

In the Middle West and Far West, the favorite seems to be round steak, while sirloin and porterhouse are played up in the East, Middle Atlantic regions and other sections of the Midwest. Prices in stores having steak sales are about unchanged from a year ago.

Chuck roast is offered as a bargain basement running mate for steak in some stores, while offerings of other meats are pretty well varied. Fryers are expected to become less expensive with the approach of summer, but prices are mixed this week with the birds up 1 to 8 cents a pound in some areas and down 2 to 4 cents in others.

Supplies of fish continue heavy in seaport and Great Lakes areas. Some of the offerings include haddock and fresh bass fillets, fried scallops, smelts and cod steaks.

Supplies of fresh fruits and vegetables this week are artichokes, topped beets, Florida and California celery, broccoli, cabbage, kale, lettuce, green onions and old crop Eastern potatoes.

New crop red and white potatoes from Florida are rated a good buy this week and the first California long whites are fairly expensive.

Other good buys among vegetables this week include asparagus, beans, bunched beets, carrots, cauliflower, chinese cabbage (longer and with more compact leaves), collards, eggplant, endive, escarole, leeks, mushrooms, onions, peas, parsley, radishes, tomatoes, cucumbers and some varieties of sweet potatoes.

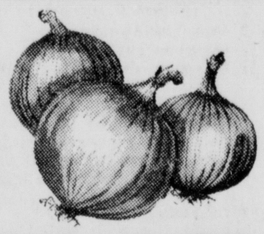

Bananas are the best buy among fruits.

Grapefruit also are an outstanding buy, while good buys listed are avocados, apples from regular storage bins, lemons, pineapples and coconuts.

Supplies of fresh fruits and vegetables this week are artichokes, topped beets, Florida and California celery, broccoli, cabbage, kale, lettuce, green onions and old crop Eastern potatoes.

New crop red and white potatoes from Florida are rated a good buy this week and the first California long whites are fairly expensive.

Other good buys among vegetables this week include asparagus, beans, bunched beets, carrots, cauliflower, chinese cabbage (longer and with more compact leaves), collards, eggplant, endive, escarole, leeks, mushrooms, onions, peas, parsley, radishes, tomatoes, cucumbers and some varieties of sweet potatoes.

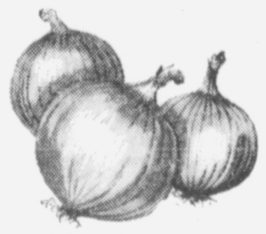

Bananas are the best buy among fruits.

Grapefruit also are an outstanding buy, while good buys listed are avocados, apples from regular storage bins, lemons, pineapples and coconuts.

Teacher Unions May Send Reports To Regents Board

ALBANY, N.Y. (AP)—Teacher organizations now may file with the Board of Regents, rather than the Labor Department, financial reports required under a state law designed to prohibit misuse of labor-union funds.

Gov. Rockefeller said today he had signed legislation permitting teachers' groups to be supervised by the Regents.

The Regents, Rockefeller said, are "sensitive to the aspirations and requirements of the teaching profession."

The 1959 Labor and Management Improper Practices Act requires union officers to report to the State Labor Department how they handle funds of their organizations.

Teachers groups were included in the act.

The new law gives the teachers the choice of dealing with the Labor Department or the Regents.

The governor took this action on other bills:

Urban Renewal — He signed legislation simplifying financing and other procedures for urban renewal projects, in which municipalities purchase slum areas, remove the buildings and sell the cleared land to private interests for development. The federal government pays two-thirds of the cost and the state and cities share the balance. The cost is the actual expenses involved, less the price for which the land is sold.

Under the procedure, the state will provide its share out of current issues, rather than by borrowing, thus saving interest charges.

Communities will be able to issue short-term notes to borrow funds, instead of floating bond issues that might turn out to be excessive.

The changes are effective Sept. 1.

Welfare — Rockefeller vetoed a bill that would have authorized the Public Welfare Classification Commission to hire its own staff. He said the law required the State Social Welfare Department to provide help for the commission, which sets standards for welfare workers.

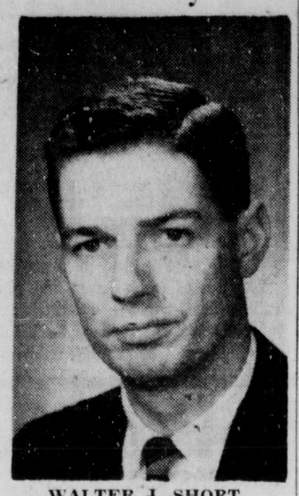

matter of FACT

Victorian standards for schoolmarms were still in vogue in the 1920s—at least it looks that way from a recent account of a teacher's contract signed in 1923. The poor girl promised not to go out with men, not to loiter in ice cream parlors, to be home nightly at eight, and not to leave town without permission. For all this — plus her teaching duties — she got $70 a month.

GAYNOR MADDOX
Newspaper Enterprise Assn.

Like pickles? Most folks do—certainly most teen-agers do. So try this off-beat pizza the next time the young crowd flocks to your house.

PICKLE PENNY PIZZA
(Makes 6 servings)

2 cups biscuit mix
½ teaspoon garlic powder
½ teaspoon dehydrated minced onion
⅔ cup milk
1 can (10 ounces) pizza sauce
1 package (8 ounces) Mazzarella cheese, cut into 12 slices
6 sweet gherkins, cut in lengthwise slices
1 frankfurter, sliced

Combine biscuit mix, garlic powder and onion; mix well. Add milk and stir until dough forms a ball. Turn out into lightly floured board and knead 10 to 15 times. Roll out to 15-inch circle. Line 12-inch pizza pan with biscuit mixture. Bake in a hot oven (425 degrees F.) 15 minutes.

Pour sauce over pizza. Arrange 6 cheese slices around outer edge of pizza. Arrange remaining cheese slices in a spoke fashion, toward the center. Top cheese with pickle slices between cheese slices. Bake in a hot oven (425 degrees F.) 15 to 20 minutes.

CHICKEN PICKLE SPREAD
(Makes about 1¼ cups)

¼ cup sour cream
2 tablespoons mayonnaise
1 cup finely chopped cooked chicken
⅓ cup sweet mixed pickles
Salt and pepper to taste
Assorted crackers

Combine cream, mayonnaise, chicken, pickles and salt and pepper; blend well. Spread on crackers. Top with additional chopped pickles, if desired.

South ruffed the second diamond in dummy and proceeded to run off seven spade tricks. He discarded down to the ace-jack-ten of clubs and a small heart in dummy, but since West held the guarded king of hearts and East the guarded queen of clubs South went down one trick.

"Criminal play," sputtered North. "All you had to do was to cash one trump and then play king-ace and a small club. As long as clubs broke 3-2 you would make the hand."

South pointed out that his play would have worked against many combinations of cards and was mathematically better than the one North suggested.

Actually, South's play was poor, but not criminal. The only crime in the hand was bad analysis by both players.

The correct play was to draw one round of trumps and then lead the queen of hearts from dummy. Put the king of hearts in the East hand and he would surely cover, whereupon South would have his 12 tricks. Since West held the king East would play low. Then South would rise with the ace and play clubs as North had suggested.

This line of attack would win against the actual holding and would also have won against a four-one club break if East held either the heart king of seven small hearts.

Bird Disobeys Officer, To Be Caged for Life

LOCKPORT, N.Y. (AP)—A surly bird who refused to move along on a policeman's order is now doing life.

Sgt. Raymond Townsend of the Niagara County sheriff's department encountered a large fat bird —later identified as a rare grebe, or hell diver —squatting in the middle of a highway.

It refused to move—so he ran it in. The bird spent the night in the radio room at the jail, dining on traditional bread and water. Next day it was given to the Oppenheim Zoo.

250 Auto Workers Back

BUFFALO, N.Y. (AP) — The Ford Motor Co., anticipating increased sales, has recalled 250 laid off workers at its stamping plant in nearby Woodlawn.

The recall boosts the present payroll to 3,905 and brings to 1,130 the number of workers returned to their jobs after layoffs. Peaks employment at the plant reached 4,200 last year.

New Paltz Central School District Meeting May 2

NEW PALTZ, April 12—The annual meeting of the New Paltz Central School District will be held Tuesday, May 2, when the budget for the coming year will be presented for approval. Copies may be obtained from the school office during the week prior to the meeting.

The election of members to the school board will be held Wednesday, May 3. This year three positions will be open due to the expiration of the terms of Charles Van Alst, Walter Dyer, and Richard Fall, all three-year terms. Anyone desiring his name on the ballot must file his petition before April 19. Each petition must be signed by at least 25 qualified voters of the district.

A release from the New York State School Boards Association suggests that the best qualified candidates can be selected by comparing them with this check list:

Has the candidate an unselfish interest in the public schools, the community, and in every child?

Has the candidate arrived at a position of recognized leadership in the community?

Is the candidate seeking the position only as an opportunity for service to the community?

Is the candidate a leader in his own occupation or community group?

Is the candidate a known quantity in the community?

Is the candidate able to think independently and objectively about a problem?

Will the candidate accede cheerfully to the decisions of the majority?

Has the candidate the kind of leadership that will represent the district as a whole rather than a record identifying him with a particular group, cause, or geographical area?

Will the candidate work to maintain unity among the members of the board, contributing to harmonious development of the program?

Will the candidate give the necessary time to this important position?

Is the candidate capable of recognizing and distinguishing between the policy-making functions of the board and administration?

Does the candidate know the political boundary and physical geography of the school district.

Does the candidate have the courage and ability to explain and enforce a rule which might not be popular but which is proper?

Does the candidate understand that leadership often involves the turning of public opinion from an erroneous attitude to the acceptance of a feasible rule?

Is the candidate aware of the cross currents of thinking pertaining to the basic concepts of public education and will remain loyal to his trust under stress?

Does the candidate have a layman's relationship to public education?

Does the candidate make a habit of withholding judgment on critical issues until the facts are available?

Is the candidate able to carry on cheerfully when public appreciation of his efforts seems to be lacking?

Does the candidate have a sense of humor?

Does the candidate show evidence of knowledge of moral and spiritual values?

Applause, Boos For Founder of Birch Society

SANTA BARBARA, Calif. (AP) — Applause liberally sprinkled with boos and hisses greeted a speech Wednesday night by Robert Welch, head of the right-wing John Birch Society.

A crowd of 1,100 — many heckling—jammed a high school auditorium as Welch gave essentially the same speech he had delivered to applause and cheers in Los Angeles the evening before. His theme: Communists and Communist sympathizers are infiltrating the government and Protestant ministry.

After the speech Welch held a question and answer session that he cut short when a college student began asking questions from the floor. Welch said he did not wish to turn the evening into a debate.

Welch, founder of the society which describes itself as militantly anti-Communist, was interrupted by applause 16 times. But there were also hisses and boos from a group of college students.

They were especially noisy when Welch attacked Chief Justice Earl Warren and when he reminded his audience that the Birch society has "been officially and publicly endorsed by (Richard J.) Cardinal Cushing. (Cushing, Roman Catholic prelate from Boston; recently endorsed the society's goals.

Welch also explained his opposition to Chief Justice Warren: "I don't like him. He has taken the lead in the long, continued effort to convert this republic into a democracy."

He said the Founding Fathers established this country as a representative republic, not a democracy—which he characterized as mob rule.

Cuba Conscripts Children for Red Service: Berle

NEW YORK (AP) — Cuban children are being conscripted for service in Communist countries, says Adolf A. Berle Jr., chairman of President Kennedy's task force on Latin America.

In a speech at the Pan American Day meeting of the New York Bar Association, Berle compared the present Communist program for Latin America with "the attempted seizure of Greece in 1947."

Terrorists Kill 13

LISBON, Portugal (AP)—Waves of Negroes with scarlet-painted faces attacked the Ucua district of northern Angola Tuesday, killing at least 13 of the 20 European inhabitants, the Portuguese Lusitania news agency reported today.

The attack was discovered by a low-flying military plane that sighted bodies and burned houses Wednesday.

The Lusitania correspondent in Luanda said nearly 100 of the terrorists were killed in a desperate resistance by the inhabitants.

Fireworks Make Sumter Resemble Civil War Start

CHARLESTON, S.C. (AP) — Fireworks Wednesday night made Ft. Sumter resemble the beleaguered Union fortress in Charleston Harbor at the start of the Civil War a century ago.

The 20-minute display of $5,500 worth of pyrotechnics represented the 34-hour battle that was the first of the war.

Thousands of tourists and Civil War buffs joined South Carolinians in reliving the battle. They watched from The Battery that is the tip of the Charleston Peninsula, from the balconies of the carefully preserved old Charleston homes, from Sullivan's Island and other land vantage points surrounding the pentagonal brick fortress near the mouth of the harbor.

Members of the South Carolina Legislature stood on the long balcony of the Ft. Sumter Hotel overlooking the scene.

A stormy controversy over racial customs had quieted when the re-enactment began.

These were the first shots of the Civil War and electrically discharged flares, lighting up the sky above Ft. Sumter, represented "misses" by that first barrage. "Hits" were scored by geysers of flame shooting upward from the fort.

Jackson Is Found Guilty on 'Cut', Sentence Monday

Dell Jackson, proprietor of a candy store and taxi business on West Strand was found guilty of conducting a gambling game at his place of business between May 1 and October 1, 1960, by a jury in County Court Wednesday afternoon. He was charged with violating Section 970 of the Penal Law in that he "cut" the game.

The indictment charging Jackson with violating the gambling law was tried before Acting County Judge Francis X. Tucker and a jury. Assistant District Attorney Francis Vogt appeared for the prosecution and Charles Saccoman for defendant. Sentence will be pronounced on Monday at 2 p. m.

Killed on Way Home

SYRACUSE, N. Y. (AP)—Raymond J. Peterson, 22, was killed early today when his automobile struck a concrete abutment on a county highway.

Peterson was en route to his home in the town of Van Buren, northwest of Syracuse, from his job as a laborer on the night shift at the Solvay Process Division of Allied Chemical Corp.

SWEETY PIE — By Nadine Seltzer

"You only named 31!"

But West Help Needed if Real Invasion Comes

Trained Southeast Asians Ready In Key Areas to Face Red Attack

BANGKOK (AP) — Tough, jungle-trained troops stand ready in three key nations of Southeast Asia to face possible Communist attack, but they would need quick help from the West to stem any full-scale Red invasion.

The three countries — Thailand, South Viet Nam and Burma — have ground forces totaling more than 300,000 men.

Could Hold Own

Their air and sea forces are weak, and they lack the tanks and other heavy equipment needed in an all-out war. But they can be expected to hold their own against the familiar infiltration and guerrilla tactics of the Communists in Southeast Asia.

Of the three, only Thailand is a full member of the Southeast Asia Treaty Organization. South Viet Nam is under SEATO protection and its defense strategy is closely linked to that of the SEATO military committee in Bangkok.

Burma is officially neutral and its government has the friendliest of relations with Red China. But the Burmese army's successful fight against rebel guerrillas in the mountains of northern Burma has shown that it is a force the Communists would have to reckon with should the international currents shift.

Thailand Stands Ready

Thailand alone among the three nations has not been the scene of continuous guerrilla fighting since the end of World War II. Its American-trained army has at least one infantry division and one armored regiment ready to go into immediate action along the northern border with Laos.

The armored regiment has about 40 World War II vintage M24 tanks deployed across the Mekong River from Laos.

The main strength of the Thai army is concentrated in Lop Buri and Khorat, two bases covering the northern approaches to Bangkok.

The total strength of the army is estimated at 100,000 men.

100,000 Men Available

The South Viet Nam army has at least 100,000 battle-trained combat troops, most of them engaged in the growing struggle against the Communist guerrillas. They include 7 infantry divisions of 10,000 men each, 6 airborne battalions of 600 men each, and 3 battalions of marines.

The Burmese army numbers less than 100,000 men and has been shaken recently by the removal of 10 of its top commanders for "political activities." But few fighting forces in Southeast Asia have as much experience in guerrilla warfare as Burma's. From a low point in 1949, when the government forces held only half a dozen towns in the country, the army has turned the tide and has driven the enemy into the jungles.

Car-Train Collide

Girl Sole Survivor Of Eight in Crash

OPELOUSAS, La. (AP) — A child, sole survivor of a carload of people killed in the grinding crash of their automobile and a passenger train, clung to life in an Opelousas hospital today.

Physicians said the chances for survival of Tena Andrus, 5, were improved.

She was critically injured in the crash at nearby Port Barre which claimed seven lives Wednesday. There were no injuries aboard the Missouri Pacific passenger train en route from New Orleans to Houston, Tex.

Killed were Mrs. Charles Bernard, 30; her three sons, Charles Jr., 5, David, and Mark, 2; Mrs. Bernard's parents, Walter Andrus, 63, and his 61-year-old wife; and Joanne Andrus, 3, of Opelousas.

The injured girl was a sister of the dead girl. Tena and Joanne were granddaughters of Walter Andrus.

VFW Post Formed At Shokan, Name Is Dudley-Palen

At an organizational meeting of overseas veterans in the Town of Olive area Wednesday evening at the Shokan Tavern, Ashokan, a Veterans of Foreign Wars Post was formed. Thirty-six members signed the charter, which will remain open for a short time.

By the unanimous vote of those present the unit will be known as Dudley-Palen Post, Veterans of Foreign Wars, named in honor of the late Vincent Palen of West Shokan and Stanley Dudley, Olive Bridge, both of whom lost their lives in Europe during World War II.

Application for a permanent charter made at a March 25 meeting required the signature of 25 veterans, and that number having signed the organizational meeting was held last night with Eugene Nicholas as temporary chairman. The post will meet each third Monday of every month at the American Legion Hall at Ashokan. Jack Marquardt served as temporary adjutant. Nominations were from the floor with the following officers unanimously elected:

Commander, James Clemens; senior vice-commander, Alexander Adami; junior vice-commander, Raymond Walsh; post advovate, Justice of the Peace Bradford Kelder; surgeon, Charles Biegler; quartermaster, Lorin Barringer.

Following the election Commander Clemens named Eugene Nicholas as permanent adjutant and publicity chairman, Jack Marquardt.

At election of trustees Sal Giardiano was named for one year, Walter Peters for two years and Frank Jackson for three years.

A vote for chaplain will be taken at the next meeting of the post to be held on April 17.

To Display Lincoln Edict in Exhibit For CW Centennial

ALBANY—The original draft of the Emancipation Proclamation in Abraham Lincoln's own handwriting will be among a priceless collection of exhibits at Chancellors Hall during the first state-wide assembly of the New York State Civil War Centennial Commission, April 17, Bruce Catton, Pulitzer prize-winning author and Commission chairman announced here today.

Lincoln's Emancipation Proclamation, dated September 22, 1862, with changes in the handwriting of Secretary of State William Henry Seward, will be part of an exhibit at Chancellors Hall from 2 to 5 p. m. arranged by the State Library.

This original draft of the Emancipation Proclamation was purchased by the Legislature of the State of New York in 1865 for the sum of $1,000. The document had been contributed by Lincoln himself to the Albany Army Relief Bazaar to be sold at auction and the proceeds used for the care of wounded soldiers.

Included in the State Library exhibit will be the New York State Law of March 29, 1799 calling for the Gradual Abolition of Slavery and the New York State Law of April 3, 1948, against discrimination in education institutions.

Dell Jackson, proprietor of a candy store and taxi business on West Strand was found guilty of conducting a gambling game at his place of business between May 1 and October 1, 1960, by a jury in County Court Wednesday afternoon. He was charged with violating Section 970 of the Penal Law in that he "cut" the game.

The indictment charging Jackson with violating the gambling law was tried before Acting County Judge Francis X. Tucker and a jury. Assistant District Attorney Francis Vogt appeared for the prosecution and Charles Saccoman for defendant. Sentence will be pronounced on Monday at 2 p. m.

Killed on Way Home

SYRACUSE, N. Y. (AP)—Raymond J. Peterson, 22, was killed early today when his automobile struck a concrete abutment on a county highway.

Peterson was en route to his home in the town of Van Buren, northwest of Syracuse, from his job as a laborer on the night shift at the Solvay Process Division of Allied Chemical Corp.

But West Help Needed if Real Invasion Comes

Trained Southeast Asians Ready In Key Areas to Face Red Attack

BANGKOK (AP) — Tough, jungle-trained troops stand ready in three key nations of Southeast Asia to face possible Communist attack, but they would need quick help from the West to stem any full-scale Red invasion.

The three countries — Thailand, South Viet Nam and Burma — have ground forces totaling more than 300,000 men.

Could Hold Own

Their air and sea forces are weak, and they lack the tanks and other heavy equipment needed in an all-out war. But they can be expected to hold their own against the familiar infiltration and guerrilla tactics of the Communists in Southeast Asia.

Of the three, only Thailand is a full member of the Southeast Asia Treaty Organization. South Viet Nam is under SEATO protection and its defense strategy is closely linked to that of the SEATO military committee in Bangkok.

Burma is officially neutral and its government has the friendliest of relations with Red China. But the Burmese army's successful fight against rebel guerrillas in the mountains of northern Burma has shown that it is a force the Communists would have to reckon with should the international currents shift.

Thailand Stands Ready

Thailand alone among the three nations has not been the scene of continuous guerrilla fighting since the end of World War II. Its American-trained army has at least one infantry division and one armored regiment ready to go into immediate action along the northern border with Laos.

The armored regiment has about 40 World War II vintage M24 tanks deployed across the Mekong River from Laos.

The main strength of the Thai army is concentrated in Lop Buri and Khorat, two bases covering the northern approaches to Bangkok.

The total strength of the army is estimated at 100,000 men.

100,000 Men Available

The South Viet Nam army has at least 100,000 battle-trained combat troops, most of them engaged in the growing struggle against the Communist guerrillas. They include 7 infantry divisions of 10,000 men each, 6 airborne battalions of 600 men each, and 3 battalions of marines.

The Burmese army numbers less than 100,000 men and has been shaken recently by the removal of 10 of its top commanders for "political activities." But few fighting forces in Southeast Asia have as much experience in guerrilla warfare as Burma's. From a low point in 1949, when the government forces held only half a dozen towns in the country, the army has turned the tide and has driven the enemy into the jungles.

Car-Train Collide

Girl Sole Survivor Of Eight in Crash

OPELOUSAS, La. (AP) — A child, sole survivor of a carload of people killed in the grinding crash of their automobile and a passenger train, clung to life in an Opelousas hospital today.

Physicians said the chances for survival of Tena Andrus, 5, were improved.

She was critically injured in the crash at nearby Port Barre which claimed seven lives Wednesday. There were no injuries aboard the Missouri Pacific passenger train en route from New Orleans to Houston, Tex.

Killed were Mrs. Charles Bernard, 30; her three sons, Charles Jr., 5, David, and Mark, 2; Mrs. Bernard's parents, Walter Andrus, 63, and his 61-year-old wife; and Joanne Andrus, 3, of Opelousas.

The injured girl was a sister of the dead girl. Tena and Joanne were granddaughters of Walter Andrus.

VFW Post Formed At Shokan, Name Is Dudley-Palen

At an organizational meeting of overseas veterans in the Town of Olive area Wednesday evening at the Shokan Tavern, Ashokan, a Veterans of Foreign Wars Post was formed. Thirty-six members signed the charter, which will remain open for a short time.

By the unanimous vote of those present the unit will be known as Dudley-Palen Post, Veterans of Foreign Wars, named in honor of the late Vincent Palen of West Shokan and Stanley Dudley, Olive Bridge, both of whom lost their lives in Europe during World War II.

Application for a permanent charter made at a March 25 meeting required the signature of 25 veterans, and that number having signed the organizational meeting was held last night with Eugene Nicholas as temporary chairman. The post will meet each third Monday of every month at the American Legion Hall at Ashokan. Jack Marquardt served as temporary adjutant. Nominations were from the floor with the following officers unanimously elected:

Commander, James Clemens; senior vice-commander, Alexander Adami; junior vice-commander, Raymond Walsh; post advocate, Justice of the Peace Bradford Kelder; surgeon, Charles Biegler; quartermaster, Lorin Barringer.

Following the election Commander Clemens named Eugene Nicholas as permanent adjutant and publicity chairman, Jack Marquardt.

At election of trustees Sal Giardiano was named for one year, Walter Peters for two years and Frank Jackson for three years.

A vote for chaplain will be taken at the next meeting of the post to be held on April 17.

To Display Lincoln Edict in Exhibit For CW Centennial

ALBANY—The original draft of the Emancipation Proclamation in Abraham Lincoln's own handwriting will be among a priceless collection of exhibits at Chancellors Hall during the first state-wide assembly of the New York State Civil War Centennial Commission, April 17, Bruce Catton, Pulitzer prize-winning author and Commission chairman announced here today.

Lincoln's Emancipation Proclamation, dated September 22, 1862, with changes in the handwriting of Secretary of State William Henry Seward, will be part of an exhibit at Chancellors Hall from 2 to 5 p. m. arranged by the State Library.

This original draft of the Emancipation Proclamation was purchased by the Legislature of the State of New York in 1865 for the sum of $1,000. The document had been contributed by Lincoln himself to the Albany Army Relief Bazaar to be sold at auction and the proceeds used for the care of wounded soldiers.

Included in the State Library exhibit will be the New York State Law of March 29, 1799 calling for the Gradual Abolition of Slavery and the New York State Law of April 3, 1948, against discrimination in education institutions.

Wilm Advises on Water

SYRACUSE, N. Y. (AP)—The state conservation commissioner said today that intelligent cooperation must replace political expediency to shore up the nation's dwindling water resources.

The statement by commissioner Harold G. Wilm was read at one of a series of seminars held as part of a three-day observance of the 50th anniversary of the State College of Forestry at Syracuse University.

At the present time, Wilm contended, the relation of water supply to demand is becoming so critical that even in more humid regions, such as New York State, serious shortages are being experienced.

Conflict of Interest Forces Wilson to Resign From Board

Lewis R. Wilson, proprietor of the Woodstock Garage, has resigned from the Woodstock Planning Board because of a conflict of interest.

Wilson's resignation was accepted with regret by the Town Board at a special meeting on Tuesday afternoon.

The area press which covers activities of the town board was not given any notice of the meeting.

In his letter of resignation, Wilson said he was resigning because of "conflict of interest which would prevent me from doing business with the town as provided in the state law."

The name of Wilson's successor is expected to be announced at the next regular meeting of the town board on Tuesday, April 18, at 8 p. m. in town hall.

Supervisor Abram F. Molyneaux told members of the town board that the Planning Board was considering several possibilities as successor to Wilson. As normal procedure, the Planning Board makes the recommendation to the supervisor and town board which makes the appointment.

Wilson's resignation is the result of a recent inspection of the Woodstock town records by the State Department of Audit and Control. When the inspectors made their annual visit, they checked the occupation of every member of the Planning Board for possible conflict of interest cases.

Prohibited by Law

The report of the Department of Audit and Control pointed up the section of the law which prohibits members of the Planning Board or other regulatory agencies in the township from doing business with the town.

Supervisor Molyneaux and other members of the town board were apparently unaware of the conflict of interest provision of the law when Wilson was appointed to the Planning Board to succeed Postmaster Leon Carey.

The Department of Audit and Control's report covering its inspection of the Woodstock records has not been made public. No mention of the report has been made either at any town board meeting. It first came to light at the hurriedly called special meeting Thursday afternoon, although Wilson's impending resignation had been known on the streets of Woodstock for several days.

Wilson, as the local Ford dealer, would not have been able to submit bids on town trucks or autos or other machinery.

The Town of Woodstock is standardized only for Walters snow removal equipment, but it is a matter of record that all of the trucks of the town highway and fire department are Ford products.

Speculation concerning Wilson's successor centers around the possibility that the new appointee will come from the "upper district."

Auxiliary Has April Meeting

The regular meeting of the Woodstock American Legion Auxiliary 1026 was held Tuesday evening at the American Legion Hall with Mrs. Velma Grazier, president presiding.

The chairmen of the standing committees gave their monthly reports. Mrs. Courtenay Marvin, chairman of Americanism chose "the seven founding fathers of our country" as her topic for the month.

Mrs. Evelyn Neeld, chairman of rehabilitation asked for volunteers to attend the bingo party at the Veterans Hospital at Albany. Mrs. Marge Styles assisted Mrs. Neeld at the last party.

The report from the food sale held recently at the Grand Union was quite successful.

The repainting of the rooms has been completed and the new drapes will be made by Mrs. Magda Moseman, Mrs. Teresa Grazier, Mrs. Elsie Ertz and any other member who wishes to assist.

Alan Styles, commander of the Woodstock American Legion Post No. 1026 was present and thanked the members for the outside lamp which was given to the Post as a birthday present.

Miss Nancy Majoros, daughter of Mr. and Mrs. John Majoros of Woodstock, a junior at Onteora Central Schools, will represent the unit at the American Legion Auxiliary sponsored Girl's State to be held June 23 to July 1 at the New York State University College of Education in New Paltz.

It was voted to send the president, Mrs. Grazier to the dinner for the National Commander of the American Legion to be held in Kingston on Friday, April 21st. If she cannot attend, the first vice president will go.

After the meeting closed, refreshments were served by Mrs. Velma Grazier and Mrs. Marge Styles.

Martin Luther Film Tonight at Reformed Church

The filmstrip "Martin Luther" based on the feature movie of that name will be shown in Room 7 of the Woodstock Reformed Church Annex in conjunction with the Adult Study Class meeting at 7 p. m. tonight.

The topic for the meeting this week is "The Life of Martin Luther." All interested adults and young people are invited to attend.

Sunday school for all ages on Sunday, April 16, at 9:30 a. m. If there are any children who need transportation to Sunday school, they may secure it if a telephone call is made to either Chester Wolven or the pastor, the Rev. Wayne C. Olson. There is a class for adults, taught by Pastor Olson, the topic for this Sunday being "Why Do the Righteous Suffer?"

At the 11 a. m. service on Sunday, the sermon title for this week is 'The Infant Church," a look at the fellowship enjoyed by the early Christians in the days immediately following the resurrection and ascension of Christ. Their dependence on the Holy Spirit, their constancy in prayer, their common sharing, and other aspects that enabled them to carry on and confront the pagan world with the claims of Christ will be the feature highlights, as well as the plea for the Twentieth Century Church to seek to recover some of these same characteristics. Visitors to the service are cordially welcomed.

Pentecost Sunday, May 21, has been set as the date for the reception of new members. It is hoped and expected that the largest group of people ever received into the membership of this church will be welcomed on that day. Members of the Consistory are now engaged in an extensive calling program seeking to enlist many of our friends and adherents into the ever growing ranks of the church.

The Christian Education Committee will meet on Monday, April 17, at 7:30 p. m.

The Executive Committee, Guild for Christian Service, meets on April 18 at 8 p. m.

Bell Ringers Due At the Reformed Church Saturday

The Berlin Bell Ringers of Berlin, Conn., a group of young people from the Berlin Congregational Church, will play a sacred concert of bell music in the sanctuary of the Woodstock Reformed Church on Saturday, April 15, at 8 p. m.

The group is appearing under the auspices of the Senior Choir of the church and tickets for the concert may be obtained from any choir member, or by calling Mrs. Wayne Olson or Dee Chaffee.

The Bell Ringers have been organized since 1955 and now have 37 bells covering three full octaves, valued at $600. They have performed in many churches, organizations and institutions throughout their home state of Connecticut. Recently they were invited to play at the Old South Church, Boston, for the annual Spring Festival. This past August, for the second time, they attended and took part in the three-day National Hand Bell Festival at Ipswich, Mass.

The program follows:

Hymns of worship and praise: Vesper Hymn: Still, Still With Thee; God of the Earth, the Sky, the Sea; Worship the Lord in the Beauty of Holiness; O Worship the King; O God Our Help in Ages Past; Fairest Lord Jesus; There Is a Green Hill Far Away; Jesus Christ Is Risen Today; Rejoice, Ye Pure in Heart.

Original Bell Music — (composed for the Berlin Bell Ringers by the director, Muriel S. Davis) Allegro, Campanile, Variations and Chorals, Tintinabula; and Trilogy: 1. Matins; 2. Carillon; 3. Evensong.

The Bells With the Organ: Bell Symphony by Purcell; Five Selections by J. S. Bach — I Call to Thee, Lord Jesua Christ; Come, All Christians, Praise the Lord; Jesu, Joy of Man's Desiring; My Inmost Heart Doth Yearn; and In Thee Is Great Joy.

Agapaes Have Busy Session

The regular meeting of Agapae Rebekah Lodge 623 was held Wednesday evening at the Bearsville Lodge, with Mrs. Elizabeth Weichelt, Noble Grand, presiding.

Mrs. Anna Cousins, Past Noble Grand, has been elected delegate to attend the sessions of the New York State Rebekah Assembly to be held in Saranac Lake from May 14 to May 18. Mrs. Elsie Ross was elected proxy by delegate.

The annual fair and dinner will be held on Thursday, August 24. Committees for this affair will be announced later.

A new refreshment committee for the month of April was announced at the last meeting of Mrs. Walenah Cashdollar, Mrs. Theresa Grazier and Mrs. Elsie Ertz.

After the meeting closed, a Spring Sale was held and refreshments were served by the committee.

Mrs. Anna Yakin, District Deputy President of Ulster District No. 1, will make her official visit at the next meeting on April 19. Members are requested to attend this meeting.

Ladies Guild Sets Meeting

The Ladies' Guild of St. Gregory's Episcopal Church will hold its April meeting at the church on Wednesday, April 19, at 1:30 p. m. All women of the parish are cordially invited.

Parishioners Guests

A group of women parishioners from St. Gregory's Episcopal Church were guests of the Episcopal Churchwomen of Christ Church, Poughkeepsie, on Wednesday, April 5. Following a morning Holy Communion service, the guests attended a brief meeting and then went on tour of this ancient and beautiful church and grounds. A buffet luncheon followed.

Among those attending were: Mrs. Fennell Franckling, Mrs. John Heermans, Mrs. Donald Jackson, Mrs. Arthur Jones, Mrs. Lamont Marvin, Mrs. Ernest Muller and Miss Margaret Velde.

John Majoros, who has served as director of the Woodstock township summer recreation program at Andy Lee Memorial Field, will be in a new capacity this year.

Majoros, a teacher at the Onteora Central School, has agreed to serve as chairman of the Woodstock Recreation Committee, it was announced at Tuesday afternoon's special meeting of the Town Board.

Majoros was praised for his several years of excellent service as director of the program. He will succeed Kermit Schwarz who resigned several months ago. The Recreation Committee has been functioning without a chairman during those several months.

The remainder of the committee will be announced at the next board meeting.

It has been learned from a reliable source that Majoros' successor as recreation director has already been picked, but Supervisor Molyneaux did not announce his name at the special meeting.

Democratic Club Meeting Tonight

The Woodstock Democratic Club will hold its monthly meeting tonight at 8 o'clock at Deanie's upstairs.

Guest speakers will be J. C. van Rijn and Benjamin Webster of the Woodstock Association, who will discuss the Association and answer questions on planning and zoning.

Committee reports will be made. The public is invited.

Women Favor 21 Age for Buying Alcoholic Drinks

KIAMESHA LAKE, N. Y. (AP)—The New York State Federation of Women's Clubs favors raising the state's minimum age for purchasing alcoholic beverages from 18 to 21.

Among other resolutions adopted at the federation's 67th annual convention Wednesday were:

Promotion of private development of atomic power.

Support for air pollution control.

An investigation of state welfare conditions.

Resistance to inroads on the state forest preserve.

Improved control of narcotics.

Support for the recommendations of the state investigation commission.

Calling for fiscal independence for all schools in the state except those in New York City.

Advocating the establishment of a U. S. Department of Consumer Interests headed by a secretary with cabinet rank.

About 300 delegates, representing 203 women's clubs with 20,000 members, attended the conclave.

Using a recipe for a dessert souffle is to be baked by buttering it and then sprinkling with granulated sugar.

Wilm Advises on Water

SYRACUSE, N. Y. (AP)—The state conservation commissioner said today that intelligent cooperation must replace political expediency to shore up the nation's dwindling water resources.

The statement by commissioner Harold G. Wilm was read at one of a series of seminars held as part of a three-day observance of the 50th anniversary of the State College of Forestry at Syracuse University.

At the present time, Wilm contended, the relation of water supply to demand is becoming so critical that even in more humid regions, such as New York State, serious shortages are being experienced.

Conflict of Interest Forces Wilson to Resign From Board

Lewis R. Wilson, proprietor of the Woodstock Garage, has resigned from the Woodstock Planning Board because of a conflict of interest.

Wilson's resignation was accepted with regret by the Town Board at a special meeting on Tuesday afternoon.

The area press which covers activities of the town board was not given any notice of the meeting.

In his letter of resignation, Wilson said he was resigning because of "conflict of interest which would prevent me from doing business with the town as provided in the state law."

The name of Wilson's successor is expected to be announced at the next regular meeting of the town board on Tuesday, April 18, at 8 p. m. in town hall.

Supervisor Abram F. Molyneaux told members of the town board that the Planning Board was considering several possibilities as successor to Wilson. As normal procedure, the Planning Board makes the recommendation to the supervisor and town board which makes the appointment.

Wilson's resignation is the result of a recent inspection of the Woodstock town records by the State Department of Audit and Control. When the inspectors made their annual visit, they checked the occupation of every member of the Planning Board for possible conflict of interest cases.

Prohibited by Law

The report of the Department of Audit and Control pointed up the section of the law which prohibits members of the Planning Board or other regulatory agencies in the township from doing business with the town.

Supervisor Molyneaux and other members of the town board were apparently unaware of the conflict of interest provision of the law when Wilson was appointed to the Planning Board to succeed Postmaster Leon Carey.

The Department of Audit and Control's report covering its inspection of the Woodstock records has not been made public. No mention of the report has been made either at any town board meeting. It first came to light at the hurriedly called special meeting Thursday afternoon, although Wilson's impending resignation had been known on the streets of Woodstock for several days.

Wilson, as the local Ford dealer, would not have been able to submit bids on town trucks or autos or other machinery.

The Town of Woodstock is standardized only for Walters snow removal equipment, but it is a matter of record that all of the trucks of the town highway and fire department are Ford products.

Speculation concerning Wilson's successor centers around the possibility that the new appointee will come from the "upper district."

Auxiliary Has April Meeting

The regular meeting of the Woodstock American Legion Auxiliary 1026 was held Tuesday evening at the American Legion Hall with Mrs. Velma Grazier, president presiding.

The chairmen of the standing committees gave their monthly reports. Mrs. Courtenay Marvin, chairman of Americanism chose "the seven founding fathers of our country" as her topic for the month.

Mrs. Evelyn Neeld, chairman of rehabilitation asked for volunteers to attend the bingo party at the Veterans Hospital at Albany. Mrs. Marge Styles assisted Mrs. Neeld at the last party.

The report from the food sale held recently at the Grand Union was quite successful.

The repainting of the rooms has been completed and the new drapes will be made by Mrs. Magda Moseman, Mrs. Teresa Grazier, Mrs. Elsie Ertz and any other member who wishes to assist.

Alan Styles, commander of the Woodstock American Legion Post No. 1026 was present and thanked the members for the outside lamp which was given to the Post as a birthday present.

Miss Nancy Majoros, daughter of Mr. and Mrs. John Majoros of Woodstock, a junior at Onteora Central Schools, will represent the unit at the American Legion Auxiliary sponsored Girl's State to be held June 23 to July 1 at the New York State University College of Education in New Paltz.

It was voted to send the president, Mrs. Grazier to the dinner for the National Commander of the American Legion to be held in Kingston on Friday, April 21st. If she cannot attend, the first vice president will go.

After the meeting closed, refreshments were served by Mrs. Velma Grazier and Mrs. Marge Styles.

Martin Luther Film Tonight at Reformed Church

The filmstrip "Martin Luther" based on the feature movie of that name will be shown in Room 7 of the Woodstock Reformed Church Annex in conjunction with the Adult Study Class meeting at 7 p. m. tonight.

The topic for the meeting this week is "The Life of Martin Luther." All interested adults and young people are invited to attend.

Sunday school for all ages on Sunday, April 16, at 9:30 a. m. If there are any children who need transportation to Sunday school, they may secure it if a telephone call is made to either Chester Wolven or the pastor, the Rev. Wayne C. Olson. There is a class for adults, taught by Pastor Olson, the topic for this Sunday being "Why Do the Righteous Suffer?"

At the 11 a. m. service on Sunday, the sermon title for this week is 'The Infant Church," a look at the fellowship enjoyed by the early Christians in the days immediately following the resurrection and ascension of Christ. Their dependence on the Holy Spirit, their constancy in prayer, their common sharing, and other aspects that enabled them to carry on and confront the pagan world with the claims of Christ will be the feature highlights, as well as the plea for the Twentieth Century Church to seek to recover some of these same characteristics. Visitors to the service are cordially welcomed.

Pentecost Sunday, May 21, has been set as the date for the reception of new members. It is hoped and expected that the largest group of people ever received into the membership of this church will be welcomed on that day. Members of the Consistory are now engaged in an extensive calling program seeking to enlist many of our friends and adherents into the ever growing ranks of the church.

The Christian Education Committee will meet on Monday, April 17, at 7:30 p. m.

The Executive Committee, Guild for Christian Service, meets on April 18 at 8 p. m.

Bell Ringers Due At the Reformed Church Saturday

The Berlin Bell Ringers of Berlin, Conn., a group of young people from the Berlin Congregational Church, will play a sacred concert of bell music in the sanctuary of the Woodstock Reformed Church on Saturday, April 15, at 8 p. m.

The group is appearing under the auspices of the Senior Choir of the church and tickets for the concert may be obtained from any choir member, or by calling Mrs. Wayne Olson or Dee Chaffee.

The Bell Ringers have been organized since 1955 and now have 37 bells covering three full octaves, valued at $600. They have performed in many churches, organizations and institutions throughout their home state of Connecticut. Recently they were invited to play at the Old South Church, Boston, for the annual Spring Festival. This past August, for the second time, they attended and took part in the three-day National Hand Bell Festival at Ipswich, Mass.

The program follows:

Hymns of worship and praise: Vesper Hymn: Still, Still With Thee; God of the Earth, the Sky, the Sea; Worship the Lord in the Beauty of Holiness; O Worship the King; O God Our Help in Ages Past; Fairest Lord Jesus; There Is a Green Hill Far Away; Jesus Christ Is Risen Today; Rejoice, Ye Pure in Heart.

Original Bell Music — (composed for the Berlin Bell Ringers by the director, Muriel S. Davis) Allegro, Campanile, Variations and Chorals, Tintinabula; and Trilogy: 1. Matins; 2. Carillon; 3. Evensong.

The Bells With the Organ: Bell Symphony by Purcell; Five Selections by J. S. Bach — I Call to Thee, Lord Jesua Christ; Come, All Christians, Praise the Lord; Jesu, Joy of Man's Desiring; My Inmost Heart Doth Yearn; and In Thee Is Great Joy.

Agapaes Have Busy Session

The regular meeting of Agapae Rebekah Lodge 623 was held Wednesday evening at the Bearsville Lodge, with Mrs. Elizabeth Weichelt, Noble Grand, presiding.

Mrs. Anna Cousins, Past Noble Grand, has been elected delegate to attend the sessions of the New York State Rebekah Assembly to be held in Saranac Lake from May 14 to May 18. Mrs. Elsie Ross was elected proxy by delegate.

The annual fair and dinner will be held on Thursday, August 24. Committees for this affair will be announced later.

A new refreshment committee for the month of April was announced at the last meeting of Mrs. Walenah Cashdollar, Mrs. Theresa Grazier and Mrs. Elsie Ertz.

After the meeting closed, a Spring Sale was held and refreshments were served by the committee.

Mrs. Anna Yakin, District Deputy President of Ulster District No. 1, will make her official visit at the next meeting on April 19. Members are requested to attend this meeting.

Ladies Guild Sets Meeting

The Ladies' Guild of St. Gregory's Episcopal Church will hold its April meeting at the church on Wednesday, April 19, at 1:30 p. m. All women of the parish are cordially invited.

Parishioners Guests

A group of women parishioners from St. Gregory's Episcopal Church were guests of the Episcopal Churchwomen of Christ Church, Poughkeepsie, on Wednesday, April 5. Following a morning Holy Communion service, the guests attended a brief meeting and then went on tour of this ancient and beautiful church and grounds. A buffet luncheon followed.

Among those attending were: Mrs. Fennell Franckling, Mrs. John Heermans, Mrs. Donald Jackson, Mrs. Arthur Jones, Mrs. Lamont Marvin, Mrs. Ernest Muller and Miss Margaret Velde.

John Majoros, who has served as director of the Woodstock township summer recreation program at Andy Lee Memorial Field, will be in a new capacity this year.

Majoros, a teacher at the Onteora Central School, has agreed to serve as chairman of the Woodstock Recreation Committee, it was announced at Tuesday afternoon's special meeting of the Town Board.

Majoros was praised for his several years of excellent service as director of the program. He will succeed Kermit Schwarz who resigned several months ago. The Recreation Committee has been functioning without a chairman during those several months.

The remainder of the committee will be announced at the next board meeting.

It has been learned from a reliable source that Majoros' successor as recreation director has already been picked, but Supervisor Molyneaux did not announce his name at the special meeting.

Democratic Club Meeting Tonight

The Woodstock Democratic Club will hold its monthly meeting tonight at 8 o'clock at Deanie's upstairs.

Guest speakers will be J. C. van Rijn and Benjamin Webster of the Woodstock Association, who will discuss the Association and answer questions on planning and zoning.

Committee reports will be made. The public is invited.

Women Favor 21 Age for Buying Alcoholic Drinks

KIAMESHA LAKE, N. Y. (AP)—The New York State Federation of Women's Clubs favors raising the state's minimum age for purchasing alcoholic beverages from 18 to 21.

Among other resolutions adopted at the federation's 67th annual convention Wednesday were:

Promotion of private development of atomic power.

Support for air pollution control.

An investigation of state welfare conditions.

Resistance to inroads on the state forest preserve.

Improved control of narcotics.

Support for the recommendations of the state investigation commission.

Calling for fiscal independence for all schools in the state except those in New York City.

Advocating the establishment of a U. S. Department of Consumer Interests headed by a secretary with cabinet rank.

About 300 delegates, representing 203 women's clubs with 20,000 members, attended the conclave.

Held for Leaving Scene; to Appear Monday, April 24

A Kingston man arrested late Tuesday for leaving the scene of an accident in East Kingston was released in his own custody by Justice of the Peace Robert Stedge, Town of Ulster and must appear in court Monday, April 24.

Gerald Tierney, 24, of 18 Otis Street was issued a summons by Kingston Trooper Edward Whalen following an investigation resulting from two fires which broke out in his car—one about 7 p. m., the other shortly after 10 p. m. Tuesday.

Trooper Whalen said the first fire, which apparently started from a lighted cigarette butt in the upholstery of the car, was extinguished by East Kingston Fire Department. The car was parked on Main Street, East Kingston, at the time.

While checking on the second fire, Trooper Whalen discovered the car had been in an accident. According to state police, Tierney struck three guard rails in East Kingston and failed to report the mishap to the authorities.

Following the fires the 1954 sedan was described by police as a total loss.

Hollywood News, Views

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP) — The actors are wild at Paramount.

They're kept in cages and eat such things as unshelled eggs and rabbits, fur and all. These actors are foreign imports, brought direct from their native stages in Tanganyika.

You'll find the actors in a woodshop-turned-zoo on the movie lot, where the living quarters are kept at a constant 72 degrees to please the temperamental group.

They number:

Four baby elephants, three cheetahs, two leopards, two secretary birds, two crested cranes, two vultures, three hornbills, one hyena, one baboon, one bush baby monkey, two lions, one of them pregnant.

This diverse troupe was flown to Hollywood for the interior scenes of "Hatari," which had been shooting on the animals' native ground. They all managed to get into one airplane, which flew a temperate route via South America and Mexico rather than through chilly Europe.

The Noah who brought this strange ark through safely is Jan Oelofse, a handsome, strapping Afrikaaner with spade beard and sideburns that would make Elvis envious.

Jan is a white hunter who works with veteran Willie Debeer out of Arusha, Tanganyika, in capturing wild animals for zoos. I talked to him about his work after he entangled himself from the loving embrace of a baby elephant.

How does he capture elephants?

"It's best to pick them right out of the herd without distracting the others," Jan said. "If you try to get a baby out of a group of three or four, the mother will become aware and you may have trouble."

Giraffes are more difficult. The trappers follow the galloping tall ones with a special truck that has a catcher's seat on the front. The truck pulls alongside the giraffe and the catcher loops the animal's neck with a rope. It must be slid to the base of the neck and the truck slowed gradually or the neck will be broken.

Jan is 26 and has been working at his job 10 years. The animals are almost entirely for zoos, since the government of Tanganyika frowns on sending its beasts to circuses and other private owners.

Grangers Meet To Hear Rocky

ELMIRA, N.Y. (AP) — More than 400 delegates from five states gathered here today for the opening of a three-day session of the Middle Atlantic Grange Conference.

Gov. Rockefeller will address the conference Friday night and the masters of the five state Granges will moderate a panel discussion tonight.

The state masters are Leland D. Smith of Brasher Falls, N.Y.; Franklin C. Nixon of Vincetown, N.J., Austin P. Renn of Adamstown, Md.; Paris C. Kirby of Milford, Conn., and J. Collins Mc Sparran of Harrisburg, Pa.

LEGAL NOTICE

At a Special Term of the County Court, County of Ulster, held at the Court House, in the City of Kingston, New York on the 12th day of April, 1961.

PRESENT:
HON. RAYMOND J. MINO
County Judge

In the Matter of the Application for the Change Of Name Of ROBERT JOSEPH BARANELLO An Infant By GERDA GRAY, His Mother

Upon reading and filing the Petition of Gerda Gray, verified the 8th day of February, 1961, praying for a change of name of the above named infant, it being requested that he be permitted to assume the name of Robert Joseph Gray, in the place and stead of his present name, and due notice of this application having been given to Francis J. Baranello, the father of the above named Robert Joseph Baranello, an infant, by mailing a copy of the Notice of the application herein, dated February 8th, 1961 to him by registered mail addressed to him at his last known address without the State of New York as appears from the affidavit of Linda M. Smith, sworn to February 27th, 1961, and such notice having been returned by the Post office for the reason that the said registered mail was unclaimed by the addressee, and it further appearing that Francis J. Baranello, the father of the above named infant has no other known address without the State, further Notice of this application be and hereby is dispensed with; and the Court being satisfied from the Petition and the Certificate of Birth presented therewith that the Petition is true and that there is no reasonable objection to the change of name proposed, and that the interests of the infant will be substantially promoted by the change; and it further appearing that the infant Robert Joseph Baranello was born on April 13, 1943 at Mitchell Field, Town of Hempstead, Nassau County, New York and that the Certificate of Birth issued by the Department of Health of the State of New York bears Number 34650;

NOW, on motion of Hugh R. Elwyn, Esq., attorney for the said petitioner, it is

ORDERED, that the said Robert Joseph Baranello, born on April 13, 1943 at Mitchell Field, Nassau County, New York, with Birth Certificate Number 34650, issued by the Department of Health of the State of New York be and he hereby is authorized to assume the name of Robert Joseph Gray in place and stead of his present name upon complying with the provisions of Article 6 of the Civil Rights Law and of this order; namely,

That this order be entered and the said petition upon which it was granted be filed within ten (10) days from the date hereof in the Office of the Clerk of this Court in the County of Ulster; that within twenty (20) days from the date of entry hereof, a copy of this order be published in the Kingston Daily Freeman, a newspaper published in the County of Ulster, New York; and that, within forty (40) days of the making of this order, proof of such publication by affidavit shall be filed with the Clerk of this Court in the County of Ulster, and it is further,

ORDERED, that upon compliance with all of the requirements herein contained, the said infant, Robert Joseph Baranello, shall on and after the 15th day of May, 1961, be known by the name of Robert Joseph Gray, which he is hereby authorized to assume, and by no other name.

Held for Leaving Scene; to Appear Monday, April 24

A Kingston man arrested late Tuesday for leaving the scene of an accident in East Kingston was released in his own custody by Justice of the Peace Robert Stedge, Town of Ulster and must appear in court Monday, April 24.

Gerald Tierney, 24, of 18 Otis Street was issued a summons by Kingston Trooper Edward Whalen following an investigation resulting from two fires which broke out in his car—one about 7 p. m., the other shortly after 10 p. m. Tuesday.

Trooper Whalen said the first fire, which apparently started from a lighted cigarette butt in the upholstery of the car, was extinguished by East Kingston Fire Department. The car was parked on Main Street, East Kingston, at the time.

While checking on the second fire, Trooper Whalen discovered the car had been in an accident. According to state police, Tierney struck three guard rails in East Kingston and failed to report the mishap to the authorities.

Following the fires the 1954 sedan was described by police as a total loss.

You've probably made a rarebit by combining condensed tomato soup and cheddar cheese, heated until piping hot. For an extra fillip, add a little sherry.

Hollywood News, Views

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP) — The actors are wild at Paramount.

They're kept in cages and eat such things as unshelled eggs and rabbits, fur and all. These actors are foreign imports, brought direct from their native stages in Tanganyika.

You'll find the actors in a woodshop-turned-zoo on the movie lot, where the living quarters are kept at a constant 72 degrees to please the temperamental group.

They number:

Four baby elephants, three cheetahs, two leopards, two secretary birds, two crested cranes, two vultures, three hornbills, one hyena, one baboon, one bush baby monkey, two lions, one of them pregnant.

This diverse troupe was flown to Hollywood for the interior scenes of "Hatari," which had been shooting on the animals' native ground. They all managed to get into one airplane, which flew a temperate route via South America and Mexico rather than through chilly Europe.

The Noah who brought this strange ark through safely is Jan Oelofse, a handsome, strapping Afrikaaner with spade beard and sideburns that would make Elvis envious.

Jan is a white hunter who works with veteran Willie Debeer out of Arusha, Tanganyika, in capturing wild animals for zoos. I talked to him about his work after he entangled himself from the loving embrace of a baby elephant.

How does he capture elephants?

"It's best to pick them right out of the herd without distracting the others," Jan said. "If you try to get a baby out of a group of three or four, the mother will become aware and you may have trouble."

Giraffes are more difficult. The trappers follow the galloping tall ones with a special truck that has a catcher's seat on the front. The truck pulls alongside the giraffe and the catcher loops the animal's neck with a rope. It must be slid to the base of the neck and the truck slowed gradually or the neck will be broken.

Jan is 26 and has been working at his job 10 years. The animals are almost entirely for zoos, since the government of Tanganyika frowns on sending its beasts to circuses and other private owners.

In the Matter of the Application for the Change Of Name Of ROBERT JOSEPH BARANELLO An Infant By GERDA GRAY, His Mother

Upon reading and filing the Petition of Gerda Gray, verified the 8th day of February, 1961, praying for a change of name of the above named infant, it being requested that he be permitted to assume the name of Robert Joseph Gray, in the place and stead of his present name, and due notice of this application having been given to Francis J. Baranello, the father of the above named Robert Joseph Baranello, an infant, by mailing a copy of the Notice of the application herein, dated February 8th, 1961 to him by registered mail addressed to him at his last known address without the State of New York as appears from the affidavit of Linda M. Smith, sworn to February 27th, 1961, and such notice having been returned by the Post office for the reason that the said registered mail was unclaimed by the addressee, and it further appearing that Francis J. Baranello, the father of the above named infant has no other known address without the State, further Notice of this application be and hereby is dispensed with; and the Court being satisfied from the Petition and the Certificate of Birth presented therewith that the Petition is true and that there is no reasonable objection to the change of name proposed, and that the interests of the infant will be substantially promoted by the change; and it further appearing that the infant Robert Joseph Baranello was born on April 13, 1943 at Mitchell Field, Town of Hempstead, Nassau County, New York and that the Certificate of Birth issued by the Department of Health of the State of New York bears Number 34650;

NOW, on motion of Hugh R. Elwyn, Esq., attorney for the said petitioner, it is

ORDERED, that the said Robert Joseph Baranello, born on April 13, 1943 at Mitchell Field, Nassau County, New York, with Birth Certificate Number 34650, issued by the Department of Health of the State of New York be and he hereby is authorized to assume the name of Robert Joseph Gray in place and stead of his present name upon complying with the provisions of Article 6 of the Civil Rights Law and of this order; namely,

That this order be entered and the said petition upon which it was granted be filed within ten (10) days from the date hereof in the Office of the Clerk of this Court in the County of Ulster; that within twenty (20) days from the date of entry hereof, a copy of this order be published in the Kingston Daily Freeman, a newspaper published in the County of Ulster, New York; and that, within forty (40) days of the making of this order, proof of such publication by affidavit shall be filed with the Clerk of this Court in the County of Ulster, and it is further,

ORDERED, that upon compliance with all of the requirements herein contained, the said infant, Robert Joseph Baranello, shall on and after the 15th day of May, 1961, be known by the name of Robert Joseph Gray, which he is hereby authorized to assume, and by no other name.

Morse - Hill Wedding Is Announced Here; Bridegroom's Parents Reside in Saugerties

MR. AND MRS. DENNIS S. HILL
(Cantwell photo)

Miss Barbara Mae Morse, daughter of Mr. and Mrs. Harold J. Morse of Hobart, N. Y., exchanged nuptial vows with Dennis Stanley Hill of Harpersfield, N. Y., son of Mr. and Mrs. Sheldon W. Hill of Simmons Park, Saugerties. The ceremony took place on Sunday, April 9 at 2:30 p. m. at the Hobart Methodist Church. Officiating was the Rev. J. Philip Gehres of the Hobart Methodist Church. Assisting was the Rev. Kenneth E. Truran of Margaretville Methodist Church.

Mrs. J. Philip Gehres was organist for the occasion and Mrs. Alfonse Pynenburg, soloist, sang "I Love You Truly," "Because," and "The Lord's Prayer."

The church was decorated with ferns and lilies.

The bride was given in marriage by her father. She wore a white gown styled with a lace bodice, Sabrina neckline, long pointed sleeves and a full nylon net skirt with front and back lace panels. Her jeweled tiara held a fingertip veil and she carried a white Bible with white orchids.

Miss Betty L. Van Buren of Hobart was the maid of honor in a yellow chiffon over yellow taffeta gown. She carried yellow and orchid pompons.

Sharon Hill of Saugerties, the bridegroom's sister, Cheryl Pedone of Stamford, Beverly Morse of Hobart, the bride's sister, Marie Morse of Hobart, another sister of the bride, and Sheila Hill of Saugerties, the bridegroom's sister, served as bridesmaids. They wore orchid organza over underskirts of orchid nylon net and taffeta with beaded bodices and carried yellow pompons.

Diane Davis of Stamford was the flower girl in a white lace over orchid taffeta gown. She carried a basket of yellow pompons.

Charles Smith of Bloomville, N. Y. served as best man while ushering were Richard Milewski, South Kortright; Robert Roger and Richard Sockett, South Kortright; James Morse of Hobart, the bride's brother.

Dean and Diana Hill of Saugerties served as ringbearers for their brother.

More than 300 guests were entertained at a reception given in the Fellowship Hall of the church.

The bride was graduated from South Kortright Central School, class of 1960, and is now employed by J. J. Newberry in Oneonta. Her husband, an alumnus of South Kortright Central School, class of 1958, attended Delhi Agricultural and Technical College.

For her wedding trip the bride wore a beige suit with orchid accessories and a white orchid.

Mr. and Mrs. Hill reside in Harpersfield, N. Y.

Colored Coal Now

LONDON (AP) — The British housewife soon will be able to buy colored coal to match her lving room curtains.

Coal comes into most British living rooms to be burned in those cheerful fireplaces, and black becomes so monotonous. National Coal Board technicians have perfected a process to dye artistically shaped lump of coal gold, silver, red, purple and green.

Marbletown Guild Hears Circle Reports

The Women's Guild for Christian Service held the second meeting of the year at the Marbletown Reformed Church in Stone Ridge last Wednesday evening.

The Rev. Robert Clementz, minister of the church, showed a film entitled Younger Brother which portrayed the personal and religious problems of the Japanese people. The Guild and church are helping to sponsor two missionaries, Dr. and Mrs. Everett Kleinjans, who are now teaching at the International Christian University, Tokyo. The Rev. Mr. Clementz also gave a report on the progress of the new 14-room educational building to be built to the rear of the church. Construction will start after contractor bids are in April 24. Albert E. Milliken is the architect for the new building.

The church has been presented with a new exterior bulletin board by the Garton Wager family.

Mrs. Elizabeth Barnhart, president of the Guild, presided at the business meeting. The following circle reports were read.

Cantine Circle was praised for its Cherry Social. Mrs. Edward Maurer, organization secretary of the circle, reported in the absence of Mrs. Carl Gazlay, chairman, that the circle has very good attendance a its afternoon meetings.

Mrs. John Barmann, chairman of the High Ridge Circle, reported that at the executive meeting in March they asked for permission to start a Couple's Club. This was passed by the Guild. The High Ridge Circle will investigate the possibility of starting and sponsoring a Couple's Club for church members of Stone Ridge and High Falls.

In the absence of Mrs. Ernest Jansen, chairman of the Clo-Mar Circle, Mrs. Barnhart read the result of the clam chowder sale in March. A proposed home talent fashion show and tea, is slated for May and a fellowship picnic supper is being planned for sometime in July.

Refreshments were served by the High Ridge Circle. The next Guild meeting will be held September 6 in the church hall at 8 p. m. At this meeting Dutch Day Fair reports will be given. The Dutch Day Fair will be held on Wednesday, Aug. 9.

All who are interested in church may attend the meetings.

Kingston Teams Gain Semi-Final Round in YMCA Tourney

BETWEEN YOU 'N' ME ....
by MURRAY

There must be something about playing in Boston and airplanes (remember Jackie Jensen's "retirement") . . . now Bill Russell, without whom the champion Celtics don't tick, confesses he's thought about hanging up his rebounds because of his fear of flying . . . only those rubber trees on his Liberian plantation aren't big enough to support him yet. . . .

The thing that embarrassed Ev Case most about his salary being published officially was its revelation that the North Carolina State coach, who contributed more than anyone to building basketball in the South, has made a top of only $11,400 a year. . . .

Gary Player

Gary Player looks and acts like and has been admired by Ben Hogan . . . but the little South African admits there has been coolness between him and Bantam Ben — "He thinks I'm a blankety-blank" — because when the tour passed through Hogan's home base in Texas, Player snubbed a social function. . . .

Player can pin-point the weakness in his golf. . . . "I'm a very bad wedge player," he says, "and have been all my life." . . . It showed on the 13th at Augusta. . . .

* * *

Most amazing thing about the college basketball scandal is the way it was broken . . . by a detective casually sitting around the D.A.'s office. . . . Seems that when the Seton Hall boys were brought in for grilling, they were submitted to harsh interrogation and steadfastly denied that any games had ever been dumped. . . . When the DA.'s man finally relented for a break, the boys sat back with a sigh and the detective made conversation with them. . . . "When you shave points," he said, "it's not like you were dumping." . . . "Yeah," they nodded, "we shave."

Danny Murtaugh tabbed Don Clendenon, his 6-5 outfield hopeful, the best he's seen in a Pittsburgh camp, offensively.

* * *

Jim Gentile, a native Californian, is moving his permanent domicile to Baltimore . . . because after his fine freshman campaign in 1960, he went home to San Lorenzo and couldn't find a job. . . . He made 20 banquet appearances without getting a dime. . . . He missed his last shot at augmenting the coffers by playing winter ball (a two-year major leaguer is ineligible) because of an operation for a bone spur on his ankle. . . .

Think the jockeys have it rough today? J. H. Mooney, who won the 1924 Kentucky Derby aboard Black Gold, says that not a single rave on a six-event card in his time would get past the current track patrols. . . .

* * *

Debate of the football off-season must have been in Connecticut when Lee Grosscup of the Giants and Al Dorrow of the Titans, New York rivals in opposite leagues, showed up on the same dais . . . puffing the merits of play in the National versus the American League. . . . Grosscup, on whose slim shoulders ride the Giant hopes for a resurgence, is toughening himself daily—in the subway rush from Flushing to mid-Manhattan for his drumbeater's job with Ted Worner's publicity firm. . . . "Those doors opening at five o'clock," he grins, "match any red-dog." . . .

You might say Bob Scheffing has the negative approach to piloting a big league club. . . . "There comes a situation in every ball game," say the new skipper of the Detroit Tigers, "when some managers do the wrong thing." . . .

* * *

He's sitting on the bench as the season opens, but Jerry Adair can play third base as well as Brooks Robinson, shortstop as well as Ron Hansen and second as well as Marv Breeding . . . or so insists Manager Paul Richards of the Baltimore Orioles. . . .

Between you'n'me, if ballplayers look at Jim Brosnan of the Cincinnati Reds with distrust now because he can write (and drink martinis), they ought to get a load of what he's got cooking as the subject matter of his next baseball opus. . . .

Ray's Trounce Fishkill, Dye Works Also Wins

Kaye Leads Scorers With 33 for Ray's

Ray's Tackle Shop and French Dye Works, Kingston combines in the YMCA Invitational basketball tournament, uncorked explosive second half action last night to breeze into the semi-final round tonight.

The Tackle Shop, finalists in two major tournaments this season, drubbed Van Voorhis Lumber of Fishkill, 112-87, while the Dye Works crushed the Middletown-Accord combine, 97-68.

In tonight's semi-final round, Ray's meet the Siena Friars at 8 p. m., with Dye Works and Ricci Pipers of White Plains clashing at 9 o'clock.

In each game last night, Kingston's second half power told the story. The Tackle Shop led the Lumbermen, 46-40, at the intermission, but roared back with a 66-47 bulge after the recess.

Accord and French Dye Works were knotted at 42-42 after a brisk first half, but the locals reduced the contest to a shambles with a 61-26 margin in the last two quarters.

Kaye Clicks for 33

Big Marty Kaye staged one of his best shows of the season, potting 33 points for Ray's on a dozen fields and nine free throws. Ronnie Scheffel potted 22 and Joe Klonowski rimmed 16. Jim Hubble led Van Voorhis with 22 points, Bob Litwiller meshed 21 and Gus Westerhuis had 19.

Joe Uhl put on a brilliant show for French Dye Works, hitting 13 of 25 from the field and added three free throws for a 29 point harvest. Pratt added 16, Ferraro and Armstead had 15 each.

Bob Dillman, former New Paltz Hawks star, led the losers with 22 points. Artie Gribbins and Edelman each canned 13.

Trail's End Near For Great Celts

BOSTON (AP) — The Boston Celtics, champions of the National Basketball Association for the third straight season, held a breakup party Wednesday night. It was a rather gay affair with champagne and congratulations and lots of speeches about "the greatest team ever."

But lurking under the cover of the laughter and good wishes was just an undertone, just a hint of sadness: A sense the gaiety may have been forced a bit.

Because the breakup party may have signaled the end of an era.

Two factors: Increasing age and a team that doesn't yet exist, almost assure that the same personnel won't all be together next season.

Each team in the league will be able to protect seven of its players, with the others going into a pool from which the Chicago team that will enter the league next season will choose its players.

Some of the Celtics have to go. Just who they will be, no one knows. Owner Walter Brown insists the decision has not yet been made.

"But one thing is sure," he said. "Regardless who it is, it will be the wrong one."

Those attending the party, along with Coach Red Auerbach, included Bill Sharman, Bob Cousy and Bill Russell.

Po'keepsie Club Hosts Area Unit At Sylvan Lake

Members of the Aquatic Explorers Diving Club of Poughkeepsie were hosts to the Ulster County Divers on Sunday a a social dive at Sylvan Lake in Dutchess County, during which cool weather and cold water greeted the divers as depths up to 85 feet were attained by both clubs.

With a below surface temperature of 35 to 40 degrees at the depth of 85 feet, the divers limited their stay in the water to about an hour.

Diver Lost Belt

Divers reported that pressure and cold water below the 30-foot level caused slight trouble with weight belts and depth gages. The divers and their rubber suits were compressed to such a degree that a weight belt on one diver became loose and dropped to the lake bottom.

The beltless diver started to ascend too fast and two buddy divers realized the predicament of the other diver and quickly grabbed him and slowly brought him to the surface. The weight belt was later recovered.

Plan Summer Event

Ulster County divers participating in the event were: David Lasher, Theodore Wiands, Gerry Klemm, of Kingston; Bud Boorom, Stanley Hasbrouck, Lou Huber, William Parker and Alfred Douglas all of New Paltz; Wilber Wiesler of Rosendale; Edward Muller, Lake Katrine and Richard Grant of Mt. Marion.

Aquatic Explorers participating were: William Shubert, Robert Gaddis, Edward Ortung, George Leavitt, Paul Arsonnault and William Staley, all of Poughkeepsie and Donald Ettinger, Peekskill.

Further dives will be planned at Long Island Sound and Lake George early in the summer.

Last summer the Aquatic Explorers were hosts to the Ulster Divers at an outing at Lake George during which boating, water skiing and skin diving were featured.

Ray's Trounce Fishkill, Dye Works Also Wins

Kaye Leads Scorers With 33 for Ray's

Ray's Tackle Shop and French Dye Works, Kingston combines in the YMCA Invitational basketball tournament, uncorked explosive second half action last night to breeze into the semi-final round tonight.

The Tackle Shop, finalists in two major tournaments this season, drubbed Van Voorhis Lumber of Fishkill, 112-87, while the Dye Works crushed the Middletown-Accord combine, 97-68.

In tonight's semi-final round, Ray's meet the Siena Friars at 8 p. m., with Dye Works and Ricci Pipers of White Plains clashing at 9 o'clock.

In each game last night, Kingston's second half power told the story. The Tackle Shop led the Lumbermen, 46-40, at the intermission, but roared back with a 66-47 bulge after the recess.

Accord and French Dye Works were knotted at 42-42 after a brisk first half, but the locals reduced the contest to a shambles with a 61-26 margin in the last two quarters.

Kaye Clicks for 33

Big Marty Kaye staged one of his best shows of the season, potting 33 points for Ray's on a dozen fields and nine free throws. Ronnie Scheffel potted 22 and Joe Klonowski rimmed 16. Jim Hubble led Van Voorhis with 22 points, Bob Litwiller meshed 21 and Gus Westerhuis had 19.

Joe Uhl put on a brilliant show for French Dye Works, hitting 13 of 25 from the field and added three free throws for a 29 point harvest. Pratt added 16, Ferraro and Armstead had 15 each.

Bob Dillman, former New Paltz Hawks star, led the losers with 22 points. Artie Gribbins and Edelman each canned 13.

Trail's End Near For Great Celts

BOSTON (AP) — The Boston Celtics, champions of the National Basketball Association for the third straight season, held a breakup party Wednesday night. It was a rather gay affair with champagne and congratulations and lots of speeches about "the greatest team ever."

But lurking under the cover of the laughter and good wishes was just an undertone, just a hint of sadness: A sense the gaiety may have been forced a bit.

Because the breakup party may have signaled the end of an era.

Two factors: Increasing age and a team that doesn't yet exist, almost assure that the same personnel won't all be together next season.

Each team in the league will be able to protect seven of its players, with the others going into a pool from which the Chicago team that will enter the league next season will choose its players.

Some of the Celtics have to go. Just who they will be, no one knows. Owner Walter Brown insists the decision has not yet been made.

"But one thing is sure," he said. "Regardless who it is, it will be the wrong one."

Those attending the party, along with Coach Red Auerbach, included Bill Sharman, Bob Cousy and Bill Russell.

Po'keepsie Club Hosts Area Unit At Sylvan Lake

Members of the Aquatic Explorers Diving Club of Poughkeepsie were hosts to the Ulster County Divers on Sunday a a social dive at Sylvan Lake in Dutchess County, during which cool weather and cold water greeted the divers as depths up to 85 feet were attained by both clubs.

With a below surface temperature of 35 to 40 degrees at the depth of 85 feet, the divers limited their stay in the water to about an hour.

Diver Lost Belt

Divers reported that pressure and cold water below the 30-foot level caused slight trouble with weight belts and depth gages. The divers and their rubber suits were compressed to such a degree that a weight belt on one diver became loose and dropped to the lake bottom.

The beltless diver started to ascend too fast and two buddy divers realized the predicament of the other diver and quickly grabbed him and slowly brought him to the surface. The weight belt was later recovered.

Plan Summer Event

Ulster County divers participating in the event were: David Lasher, Theodore Wiands, Gerry Klemm, of Kingston; Bud Boorom, Stanley Hasbrouck, Lou Huber, William Parker and Alfred Douglas all of New Paltz; Wilber Wiesler of Rosendale; Edward Muller, Lake Katrine and Richard Grant of Mt. Marion.

Aquatic Explorers participating were: William Shubert, Robert Gaddis, Edward Ortung, George Leavitt, Paul Arsonnault and William Staley, all of Poughkeepsie and Donald Ettinger, Peekskill.

Further dives will be planned at Long Island Sound and Lake George early in the summer.

Last summer the Aquatic Explorers were hosts to the Ulster Divers at an outing at Lake George during which boating, water skiing and skin diving were featured.

Golombiewski Averages 220 in Bowlero Matches

Rolls 255 Solo; Style Pleases Huge Turnout

Howard in Spotlight With Games of 225-245

Billy Golombiewski, the brilliant Detroit tenpin star known to the bowling world as Billy G., put on a big league show before 300 spectators last night at Sangi's Bowlero.

The 1960 ABC Masters champion averaged 220-2 in a five-game exhibition in which he compiled games of 211, 198, 237, 201 and 205.

In his fifth game, Golombiewski reeled off seven strikes in a row before a 10-pin tap on alley 21 halted his bid for a perfect game.

But as great as he was, with a major league personality to match his incomparable mechanical skills, Billy G. had to share the spotlight with Kingston's Dick Howard.

In the second doubles match, Howard was paired with Tom Carlino against Billy G and Mike Rienzo and took two-game honors with 225-245-470 with a flamboyant display of strikes. Golombiewski settled for 237-201-438.

Howard and Carlino, who posted 227-170-397, defeated Billy G and Rienzo, 876 to 822. Rienzo shot 173-211-384.

Having caught the feel of the lanes, Golombiewski agreed to bowl another game. This time he opened with a seven bagger and finished off with 255 for a 693 series. Rienzo tossed 213 for 593 for a 1290 doubles set. Howard slipped to 166 in the third set for 636 and Carlino had 203 for an even 600, giving the losers 1236.

Win First Doubles

In the first doubles set, Golombiewski (409) and Harold Broskie (383) totalled 792 to beat Jerry Kaplan (404) and Big Bob Shelightner (339) for 743.

Golombiewski, who holds a flock of major bowling titles and was on the first All-America team in 1960, delighted the huge crowd with his eye catching style and technique. The turnout was the largest to watch a local bowling exhibition since the pre-war period.

The summaries:

Wappingers Falls Bowler Heads Valley Women's Loop

The Hudson Valley Women's bowling league has elected officers for the 1961-62 season, but has postponed action on the league format until the summer meeting in July.

Helen Catalano, of Wappingers Falls, is the new president. She succeeds Teddie Levine of Poughkeepsie.

Other officers are: Marie Wager, Rhinebeck, vice president; Helen Paden, Newburgh, treasurer; and Marion Jaycox, Poughkeepsie, secretary to succeed Chris Gallop of Kingston.

Several proposals regarding the league's future were discussed at a lively business meeting but no definite action was taken on any of the items.

One of the major problems to be resolved at the August meeting will be the question of whether or not the league will operate with handicaps or as an open circuit. The final decision on this highly controversial problem will have a great bearing on the future of the league.

The league will also decide whether to bowl its games on Saturday night or Sunday afternoon. It has operated as a Sunday afternoon loop.

A proposal to move the entire league from one bowling establishment to another on Saturday nights will also be discussed.

Miami Keglers Hot in Classic

DETROIT (AP) —With the best start of any team to date, Brunswick of Miami, Fla., bids for first place in the classic division of the American Bowling Congress tournament tonight.

The Miamians rolled 3,036 Wednesday night and will have to shoot 2,943 or better tonight to go ahead of Stroh's Beer of Detroit, leading with 5,978.

The previous high series of 3,034 was sho tby the St. Louis Budweisers March 16. Brunswick put together games of 957, 1,04 2and 1,037.

Len Springmeyer, 1947 ABC doubles champion with teammate Eddie Doerr, Jr., led the team with 631. Doerr fired 611, George Nenezian 623, Lou Mandragona 617 and Stan Gurwitz 554.

Schmidt Beer of St. Paul took second place Wednesday night on a 3,000 score for a total of 5,948.

Saugerties Pistol Club Beats Rondout

Saugerties Pistol Club defeated the Rondout Valley Rod and Gun Club's pistol team, 1319 to 1288, in a dual match on the Rondout Valley range. The top five scores for each team were used for scoring purposes.

High scorers for Saugerties were: Ben Sanford, 280; John Collins, 271; Richard Boice, 261; George Miller, 261; and Robert Elting, 246.

Kenneth Hornung paced Rondout with 270, followed by William Krom, 261; Phil McConnel, 257; Bud Confer, 262; and Richard McDole, 248. A return match is scheduled at Saugerties on May 3.

Holmberg Faces Neale Fraser

HOUSTON, Tex. (AP) — Ron Holmberg challenged Australia's Neale Fraser today as three Americans and five foreign stars entered the quarter-finals of the 27th River Oaks Tennis Tournament.

Holmberg, No. 5 among U. S. amateurs, was the only top-ranking American surviving the first two rounds of a tournament that has never been won by a foreign entry.

Australia's Roy Emerson met Hamilton Richardson in the day's second match.

Friday's lower bracket quarter-finals place second-seeded Rod Laver of Australia against Germany's Wolfgang Stuck and Luis Ayala, Chile's No. 1 player, against Frank Froehling, Coral Gables, Fla.

Neal Marcus, Tampa, Fla., survived six points in an overtime first set Wednesday before bowing to the top-seeded Fraser, 13-11, 6-1.

Holmberg, Brooklyn, N. Y., scored a 7-5, 2-6, 6-3 victory over Jerry Moss, Fort Sam Houston, Tex.

Emerson, seeded third, defeated Whitney Reed, Alameda, Calif., 6-3, 7-5. Richardson advanced with a 9-7, 6-3 victory over Ronnie Fisher.

Laver took a 6-4, 6-1 decision over Billy Talbert, New York City, while Stuck defeated Reginald Bennett, London, 6-1, 6-1.

Ayala eliminated Mexico's Antonio Palafox, 6-0, 3-6, 6-4.

Junior Baseball News and Notes

Officials of the Jaycee Little League remind all eligbile youngsters that Friday, April 14, is the final day or registration for the 1961 season.

All players, including the holdovers from the 1960 season, must register in order to be eligible for the 1961 season. There seems to be some misunderstanding on this point.

All players between the ages of 8 and 12 residing in the jurisdiction of the Jaycee Little League are urged to report to the Forsyth Park pavilion from 5:30 p. m. on Thursday evening.

Hay Fever Shot Jolts Mantle

NEW YORK (AP) — This was one spring when everything was right with Mickey Mantle — no strains, no pains, no ailments at all when he and the New York Yankees opened the American League season. So he took a shot in the arm to help him stay that way, and the trouble started.

"He has a knot the size of a baseball on his left arm," said Manager Ralph Houk, "but I think he'll be able to play today. It's from a hay fever shot he took yesterday morning. Damndest thing you ever saw."

Mantle, who was 0-for-4 and struck out twice when Pedro Ramos pitched a three-hitter that gave the Minnesota Twins a 6-0 opening day victory Tuesday, had a tough time in the batting cage during Wednesday's off day workout.

"There's no pain," said Mick, "but I felt dizzy and nauseated."

Tough Losses To LA Dodgers Sadden Skipper

If there was one phase of baseball which Manager Gene Mauch stressed with his young Philadelphia Phillies in spring training, it was base running. "Mistakes cost you games," he said, "and most of the mistakes our kids make are on the bases."

The point was driven home at Los Angeles Wednesday night as the Phillies ran themselves into a weird doubleplay that squelched a ninth inning rally and gave the Dodgers a 3-2 victory while leaving the Phils wiser but winless.

It was one of but two games played in the majors. The San Francisco Giants also survived a ninth-inning threat and beat Pittsburgh 2-1 in the only other game scheduled in the National League. Two games were scheduled in the American League—Chicago at Washington and Los Angeles at Baltimore—and both were rained out.

The Phils' folly came after the Dodgers had broken through against Frank Sullivan, making his NL debut, with three runs in the seventh on Wally Moon's homer and a scratch single by winning pitcher Johnny Podres.

Trailing 3-1, the Phils got rid of Podres when Johnny Callison and Tony Taylor opened the ninth with singles. Callison took third when rookie Willie Davis bobbled Taylor's hit to center and scored on a high bouncer to the left of the mound by pinch-hitter Tony Curry. Taylor scooted to third on the play when reliefer Larry Sherry's peg to the plate was wild.

Pinch-hitter Tony Gonzalez forced Curry for the first out, but the Phils were still in business, with runners on third and first as pinch-hitter Bob Sadowski came to the plate. That's when the Phils' booboos popped up—and an alert Dodger defense shot 'em down.

Taylor broke for the plate with the tying run on Sadowski's grounder to short, but was caught between third and home when Maury Wills threw to catcher John Roseboro. Poseboro made the tag on Taylor, after pairing with third baseman Junior Gilliam for the run-down, and then flipped back to Gilliam, who nailed Gonzalez as he attempted to go from second to third, for the game-ending doubleplay.

At San Francisco, rookie catcher Tom Haller made his first major league hit a seventh-inning homer that broke up a four-hit shutout against the Giants by Vern Law. It came after Robert Clemente dropped Haller's foul fly to right. The Bucs' 20-game winner of last year's pennant club then forced in the clincher when he hit Orlando Cepeda with a pitch with the bases loaded in the eighth.

Injury Shelves Braves' Maye

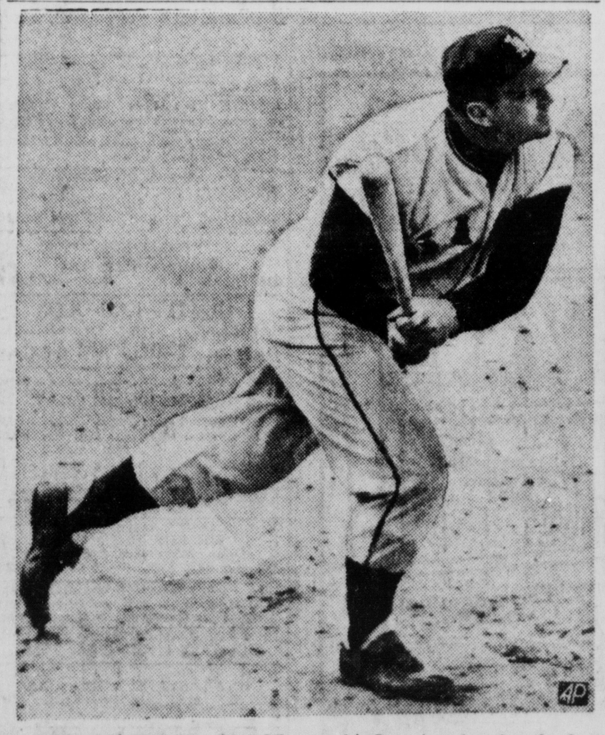

MILWAUKEE (AP) — Lee Maye, who shelved his music to concentrate on winning a starting position in the outfield of the Milwaukee Braves baseball team, was in deep distress today.

Maye, on the basis of his fine work during the exhibition series this spring, earned the starting spot in left field for Milwaukee's opening game. He got in fine shape by playing winter baseball in Puerto Rico instead of writing music as he had done previously in the off season.

The 26-year-old outfielder performed well in the opening game that the Braves lost to the St. Louis Cardinals 2-1 in 10 innings but he came up with strained right shoulder muscle. The injury may keep him out of action a day — or possibly a week or more.

"I finally got a shot and this has to happen," Maye said Wednesday. "I only hope I can get back in there tomorrow. But my arm is pretty stiff right now."

In the event that Maye is sidelined Braves Manager Charlie Dressen plans to start Al Spangler in center and shift John de Merit to left field. The veteran Hank Aaron is in right.

MAN OF POWER—Ted Kluszewski, Los Angeles Angels first baseman, watches ball take off on his second home run of game against the Orioles in Baltimore. Ted drove in five runs to pace the Angels to a 7-2 win in their first game of season. (AP Wirephoto)

Golombiewski Averages 220 in Bowlero Matches

BILLY G IN ACTION—Billy Golombiewski, nationally famous bowling star who appeared in an exhibition at Sangi's Bowlero last night, demonstrates a fine point to an interested group of onlookers at the Bowlero. Rolls 255 Solo; Style Pleases Huge Turnout

Howard in Spotlight With Games of 225-245

Billy Golombiewski, the brilliant Detroit tenpin star known to the bowling world as Billy G., put on a big league show before 300 spectators last night at Sangi's Bowlero.

The 1960 ABC Masters champion averaged 220-2 in a five-game exhibition in which he compiled games of 211, 198, 237, 201 and 205.

In his fifth game, Golombiewski reeled off seven strikes in a row before a 10-pin tap on alley 21 halted his bid for a perfect game.

But as great as he was, with a major league personality to match his incomparable mechanical skills, Billy G. had to share the spotlight with Kingston's Dick Howard.

In the second doubles match, Howard was paired with Tom Carlino against Billy G and Mike Rienzo and took two-game honors with 225-245-470 with a flamboyant display of strikes. Golombiewski settled for 237-201-438.

Howard and Carlino, who posted 227-170-397, defeated Billy G and Rienzo, 876 to 822. Rienzo shot 173-211-384.

Having caught the feel of the lanes, Golombiewski agreed to bowl another game. This time he opened with a seven bagger and finished off with 255 for a 693 series. Rienzo tossed 213 for 593 for a 1290 doubles set. Howard slipped to 166 in the third set for 636 and Carlino had 203 for an even 600, giving the losers 1236.

Win First Doubles

In the first doubles set, Golombiewski (409) and Harold Broskie (383) totalled 792 to beat Jerry Kaplan (404) and Big Bob Shelightner (339) for 743.

Golombiewski, who holds a flock of major bowling titles and was on the first All-America team in 1960, delighted the huge crowd with his eye catching style and technique. The turnout was the largest to watch a local bowling exhibition since the pre-war period.

The summaries:

(First Match)				
H. Broskie	175	208	383	
Golombiewski	211	198	409	
	386	406	792	
J. Kaplan	200	204	404

Wappingers Falls Bowler Heads Valley Women's Loop

The Hudson Valley Women's bowling league has elected officers for the 1961-62 season, but has postponed action on the league format until the summer meeting in July.

Helen Catalano, of Wappingers Falls, is the new president. She succeeds Teddie Levine of Poughkeepsie.

Other officers are: Marie Wager, Rhinebeck, vice president; Helen Paden, Newburgh, treasurer; and Marion Jaycox, Poughkeepsie, secretary to succeed Chris Gallop of Kingston.

Several proposals regarding the league's future were discussed at a lively business meeting but no definite action was taken on any of the items.

One of the major problems to be resolved at the August meeting will be the question of whether or not the league will operate with handicaps or as an open circuit. The final decision on this highly controversial problem will have a great bearing on the future of the league.

The league will also decide whether to bowl its games on Saturday night or Sunday afternoon. It has operated as a Sunday afternoon loop.

A proposal to move the entire league from one bowling establishment to another on Saturday nights will also be discussed.

Miami Keglers Hot in Classic

DETROIT (AP) —With the best start of any team to date, Brunswick of Miami, Fla., bids for first place in the classic division of the American Bowling Congress tournament tonight.

The Miamians rolled 3,036 Wednesday night and will have to shoot 2,943 or better tonight to go ahead of Stroh's Beer of Detroit, leading with 5,978.

The previous high series of 3,034 was sho tby the St. Louis Budweisers March 16. Brunswick put together games of 957, 1,04 2and 1,037.

Len Springmeyer, 1947 ABC doubles champion with teammate Eddie Doerr, Jr., led the team with 631. Doerr fired 611, George Nenezian 623, Lou Mandragona 617 and Stan Gurwitz 554.

Schmidt Beer of St. Paul took second place Wednesday night on a 3,000 score for a total of 5,948.

Saugerties Pistol Club Beats Rondout

Saugerties Pistol Club defeated the Rondout Valley Rod and Gun Club's pistol team, 1319 to 1288, in a dual match on the Rondout Valley range. The top five scores for each team were used for scoring purposes.

High scorers for Saugerties were: Ben Sanford, 280; John Collins, 271; Richard Boice, 261; George Miller, 261; and Robert Elting, 246.

Kenneth Hornung paced Rondout with 270, followed by William Krom, 261; Phil McConnel, 257; Bud Confer, 262; and Richard McDole, 248. A return match is scheduled at Saugerties on May 3.

Mauch: Mistakes Hurt You

Holmberg Faces Neale Fraser

HOUSTON, Tex. (AP) — Ron Holmberg challenged Australia's Neale Fraser today as three Americans and five foreign stars entered the quarter-finals of the 27th River Oaks Tennis Tournament.

Holmberg, No. 5 among U. S. amateurs, was the only top-ranking American surviving the first two rounds of a tournament that has never been won by a foreign entry.

Australia's Roy Emerson met Hamilton Richardson in the day's second match.

Friday's lower bracket quarter-finals place second-seeded Rod Laver of Australia against Germany's Wolfgang Stuck and Luis Ayala, Chile's No. 1 player, against Frank Froehling, Coral Gables, Fla.

Neal Marcus, Tampa, Fla., survived six points in an overtime first set Wednesday before bowing to the top-seeded Fraser, 13-11, 6-1.

Holmberg, Brooklyn, N. Y., scored a 7-5, 2-6, 6-3 victory over Jerry Moss, Fort Sam Houston, Tex.

Emerson, seeded third, defeated Whitney Reed, Alameda, Calif., 6-3, 7-5. Richardson advanced with a 9-7, 6-3 victory over Ronnie Fisher.

Laver took a 6-4, 6-1 decision over Billy Talbert, New York City, while Stuck defeated Reginald Bennett, London, 6-1, 6-1.

Ayala eliminated Mexico's Antonio Palafox, 6-0, 3-6, 6-4.

Tough Losses To LA Dodgers Sadden Skipper

If there was one phase of baseball which Manager Gene Mauch stressed with his young Philadelphia Phillies in spring training, it was base running. "Mistakes cost you games," he said, "and most of the mistakes our kids make are on the bases."

Poseboro made the tag on Taylor, after pairing with third baseman Junior Gilliam for the run-down, and then flipped back to Gilliam, who nailed Gonzalez as he attempted to go from second to third, for the game-ending doubleplay.

At San Francisco, rookie catcher Tom Haller made his first major league hit a seventh-inning homer that broke up a four-hit shutout against the Giants by Vern Law. It came after Robert Clemente dropped Haller's foul fly to right. The Bucs' 20-game winner of last year's pennant club then forced in the clincher when he hit Orlando Cepeda with a pitch with the bases loaded in the eighth.

Bell and Murphy Attend Council on Police Training

Police Chief Robert F. Murphy and Ulster County Sheriff Claude Bell were among police officials attending a meeting Tuesday of Zone 4 of the new statewide Municipal Police Training Council program at Bear Mountain Inn, Bear Mountain.

Matters relating to the training of police officers were discussed at the session called by Coordinators Joseph A. Vilford, chief of police of Suffern, and Rockland County Sheriff J. Henry Mock.

Chief Murphy and Sheriff Bell are sub-coordinators of the training program for Ulster County.

Five Counties Represented

The meeting brought together police officials from the counties of Ulster, Greene, Rockland, Orange and Sullivan who have been designated by the New York State Sheriffs' Police.

The police officials are to assist in the coordination of the police training program in their respective areas.

Others are sub-coordinators attending yesterdays session included Chiefs of Police Harry T. DuBois, Catskill; Russell Adgate, Middletown and Jack Sharoff, Monticello and Orange County Sheriff Ernest Schoonmaker; Greene County Sheriff Frederick C. Knight; and Sullivan County Sheriff Louis Ratner.

FBI Leader There

Others attending Tuesday's meeting included, Harvey G. Foster, special agent in charge of the New York City FBI district; Thomas Brownfield, supervisor of police training in New York City, Lieut. Louis Yonk of Monticello; and Orrell A. York and Ronald Phillips, executive director and deputy executive director respectively of the Municipal Police Training Council of Albany.

Under the statewide police training program, it is now required that all newly appointed police officers must complete a specific basic training course as a condition of their permanent appointment.

The Municipal Police Training Council is now a unit within the Office for Local Government in the Executive Department of State Government.

750 Officers Study

Training schools are organized and sponsored locally according to standards established by the council and promulgated by the Governor.

Since July 1, 1960 twenty-nine schools have been completed or certified under this program. Approximately 750 officers have had the benefit of this basic training.

The program is built on a continuing basis so that as new police officers are appointed, they will be given the opportunity to take the training during the early days of their careers.

Jaycees Say Over 25 Will Compete For State Title

More than 25 contestants will compete this year in the Miss New York State Pageant to be held in Kingston July 6, 7, 8.

At the directors' meeting held Wednesday night in the Governor Clinton Hotel, Frederick V. Moore, executive director of the pageant, announced that twenty contestants have been registered and a number of other applicants are being considered.

Registrants from cities throughout New York State will be competing in Kingston for the coveted crown of Miss New York State.

It was also announced at the meeting that Pepsi Cola Bottlers will again contribute over $2,500 in scholarships to the finalists in the state pageant here, and as in previous years will award $32,000 in scholarships to the young women who compete next September in Atlantic City for the title of Miss America.

Members of the Kingston Junior Chamber of Commerce and the Jayncees, Women's Auxiliary, are again taking on the responsibilities connected with presenting the pageant and at last night's meeting, attended by the directors, plans were presented for approval and study relating to the staging and production of the pageant, which will be held for the third successive year in Kingston Municipal Auditorium.

Uranium for the first atomic bomb was mined in the state of Colorado.

Kingston Man Is Head of Funeral Directors Group

Henry J. Bruck of Kingston was named president of the Catskill Mountain Funeral Directors Association at the annual meeting Wednesday at the Stuyvesant-Kingston Hotel.

Other officers elected are Howard Stewart of Callicoon, first vice president; James F. Gilpatrick of Kingston, second vice president and Henry Millspaugh of Catskill, third vice president; Mrs. Hilda P. Galietta of Saugerties, treasurer; Sherman Loucks of Ellenville, state director.

Two new directors are William Brady of Coxsackie and Thomas Masterson of Woodbourne.

Outgoing President Lee Cunningham of Greenville presided at the meeting.

The June meeting will be held in Greene County and the August meeting will be in Sullivan County.

Speaker at the dinner which followed the meeting was F. G. Redfield, assistant manager, Insurance Company of North America, who spoke on Modern Insurance Program for the Modern Funeral Director.

Unwelcome Painter

Clarence Jansen, of Hurley, complained to police Wednesday that while his green painted 1960 car was parked near the State Armory someone smeared gray paint on the right side of the vehicle.

Milk Output Up

WASHINGTON (AP) — Milk production on a daily basis during the first quarter of this year averaged 1 per cent more than in the first quarter last year.

Reporting this, the Agriculture Department said output was running at record high levels during March in New York, Pennsylvania, Wisconsin, Minnesota, Virginia, Idaho and California. In contrast, production dropped to new record low levels for the month in Illinois, West Virginia, Alabama, Arkansas, Oklahoma, Montana and Wyoming.

Jaycees Say Over 25 Will Compete For State Title

More than 25 contestants will compete this year in the Miss New York State Pageant to be held in Kingston July 6, 7, 8.

At the directors' meeting held Wednesday night in the Governor Clinton Hotel, Frederick V. Moore, executive director of the pageant, announced that twenty contestants have been registered and a number of other applicants are being considered.

Registrants from cities throughout New York State will be competing in Kingston for the coveted crown of Miss New York State.

It was also announced at the meeting that Pepsi Cola Bottlers will again contribute over $2,500 in scholarships to the finalists in the state pageant here, and as in previous years will award $32,000 in scholarships to the young women who compete next September in Atlantic City for the title of Miss America.

Members of the Kingston Junior Chamber of Commerce and the Jayncees, Women's Auxiliary, are again taking on the responsibilities connected with presenting the pageant and at last night's meeting, attended by the directors, plans were presented for approval and study relating to the staging and production of the pageant, which will be held for the third successive year in Kingston Municipal Auditorium.

Uranium for the first atomic bomb was mined in the state of Colorado.

Kingston Man Is Head of Funeral Directors Group

Henry J. Bruck of Kingston was named president of the Catskill Mountain Funeral Directors Association at the annual meeting Wednesday at the Stuyvesant-Kingston Hotel.

Other officers elected are Howard Stewart of Callicoon, first vice president; James F. Gilpatrick of Kingston, second vice president and Henry Millspaugh of Catskill, third vice president; Mrs. Hilda P. Galietta of Saugerties, treasurer; Sherman Loucks of Ellenville, state director.

Two new directors are William Brady of Coxsackie and Thomas Masterson of Woodbourne.

Outgoing President Lee Cunningham of Greenville presided at the meeting.

The June meeting will be held in Greene County and the August meeting will be in Sullivan County.

Speaker at the dinner which followed the meeting was F. G. Redfield, assistant manager, Insurance Company of North America, who spoke on Modern Insurance Program for the Modern Funeral Director.

Unwelcome Painter

Clarence Jansen, of Hurley, complained to police Wednesday that while his green painted 1960 car was parked near the State Armory someone smeared gray paint on the right side of the vehicle.

Milk Output Up

WASHINGTON (AP) — Milk production on a daily basis during the first quarter of this year averaged 1 per cent more than in the first quarter last year.

Reporting this, the Agriculture Department said output was running at record high levels during March in New York, Pennsylvania, Wisconsin, Minnesota, Virginia, Idaho and California. In contrast, production dropped to new record low levels for the month in Illinois, West Virginia, Alabama, Arkansas, Oklahoma, Montana and Wyoming.
